QUESTION WORDING FOR JULY 13, 2016: Suppose that the presidential election were being held today and you had to choose between Hillary Clinton as the Democratic Party's candidate, and Donald Trump as the Republican Party's candidate. Who would you be more likely to vote for --?
QUESTION WORDING PRIOR TO JUNE 2016: If Hillary Clinton were the Democratic Party's candidate and Donald Trump were the Republican Party's candidate, who would you be more likely to vote for --?

FOR COMPARISON

For the next few questions, let's assume that former Secretary of State Hillary Clinton will be the Democratic presidential nominee in 2016. I'm going to read the names of a few Republicans who may run for their party's nomination. After I read each one, please tell me if you would be more likely to vote for that Republican candidate or if you would be more likely to vote for Hillary Clinton. (RANDOM ORDER)

METHODOLOGY

A total of 1,003 adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. Among the entire sample, 28% described themselves as Democrats, 24% described themselves as Republicans, and 48% described themselves as independents or members of another party.

All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage.

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of +/- 8.5 percentage points or less. Some subgroups represent too small a share of the national population to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups, but results for groups with a sampling error larger than +/-8.5 percentage points are not displayed and instead are denoted with "NA".
