Data exclude residents and, for the years 2000 to 2014, physicians, who are not registered with a provincial/territorial licensing authority and have indicated that they do not wish to have their information published.

Physician data as of December of each year.

Includes physicians who provide both clinical and/or non-clinical services.

Ontario data in 2002 does not reflect four of twelve monthly updates (Sept. - Dec. 2002) from the College of Physicians and Surgeons of Ontario

Alberta and Yukon data in 2000 does not reflect the annual update from the College of Physicians and Surgeons of Alberta and the Government of the Yukon, respectively.

Caution must be exercised when comparing Northwest Territory data prior to 1999 with Northwest Territory data after 1998, since some of the change may be attributable to the creation of the Nunavut Territory

Population data: The population per physician ratio is calculated annually using the most recent Statistics Canada Population Estimates.
