You can see all sorts of weird shit if you look at the broad scope of politicians. I'm more curious about world leaders. Like tomorrow we will find out Theresa May claims to be a lizard otherkin and dresses as a skink or something.

Or Justin Trudeau writes obiwan/anakin fanfics.

Don't give Russian shit. He's not the ones putting nukes on his boarders. NATO has stuffed up to many times.

i feel like trudeau religiously practices nofap  
but every so often he snaps & jerks it to something completely horrifying until cum shoots out of his dick like clowns barreling out of a tiny car, and then he does something even more horrifying to punish himself

So in addition to being insufferable, Pewdiepie is also a Nazi now.

Kinda neither? More along the lines of "I'm making some bizarre point of how I think political correctness has gone too far that doesn't make any sense and spouting 'kill the jews' in order to prove said point"

/pol/ is all on board calling him "one of them" now. So anything that gets /pol/ on board is enough for me to call you a nazi.

pretty sure he's trying to be edgelord funny and doesn't actually mean it but it does take an absolutely emptyheaded white idiot to spout these things even ironically

You got a point. If anything, it's political frame wasn't overt to me initially. It did get stifling at the end though. It made me miss what we had here.
