Ember Ghost Squad/Andrew Blaze

by Deano » 12 Jun 2017, 05:18

So there was a spree shooting recently at a supermarket in Wyoming, which at this stage I suspect most of us are entirely too jaded to think about, but this one's ended up being a real rabbithole because the spree killer (Randy Stair/Andrew Blaze) is the sort of person we'd have previously featured here. They had this massive "Ember's Ghost Squad" thing that they made a wiki for and YouTube animations for and used as the aesthetic for their murder manifesto, narrating their plans to a spooky soundtrack.

If you looked at it not knowing the context you'd think someone was dreaming real hard of getting Nickelodeon to pick up their dark edgy cartoon about a gang of murderously violent 10 foot tall ghosts who emerge from the bodies of people who sacrifice themselves to become 10 foot tall murder ghosts. It's like if that "niggies" person went paramilitary or something like that.

I've not had an opportunity to draw a whole bunch of links together but just googling "Andrew Blaze" or "Ember's Death Squad" would get you a ton of stuff.

One of the angles here is that the shooter talked about having a female soul and so /pol/ and Kiwi Farms have latched onto this shit because it plays into their transphobia, but whilst Randy/Andrew seems to have had some pretty serious dysphoria going on (talking a lot about having a body they find shameful) any gender identity stuff seems to pale in comparison with the "10 foot tall ghost badass" deal.
