Horrors of Open Source
🏳 [QUOTE]

Post dumb open source projects/dumb people in open source here.

To start this off, I found an IRC bot with a meme generation command.

This file contains all of the supported memes along with their default text. Some of these defaults are unintentionally self-aware:

> "Brace yourselves the memes are coming."
> "The amount of memes in this channel is too damn high!"
> "This meme is bad; and you should feel bad."

You could fill this thread to infinity and beyond with ridiculous Linux versions.

Like Hannah Montana Linux.

Bumping this old thread because of some Eric S. Raymond news.

That article is only the tip of the iceberg. Raymond is well-known for being an asshole with awful ideas, as you can see in these posts
