## IAQS (Indoor Air Quality Signage)

While there is a haze effect in the outdoor environment, the indoor air quality becomes a major concern for those shoppers or visitors in the public area, such as in the shopping mall. For the shopping mall management, to make sure the information or the promotion discount to be seen effectively, that you can apply IAQS right beside the information counter or near the building entrance that shows the air quality data including PM2.5, PM10, CO2, TVOC, temperature, Humidity and the information you like to deliver to those target customers.
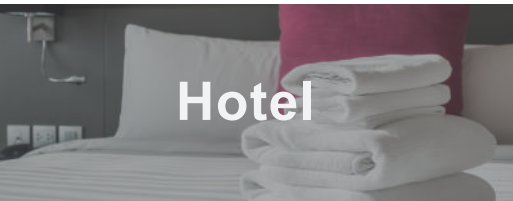

Why :

- Enhance the information engagement with the target customers.
- Monitoring and the indoor air quality.
- Instant promotion activity.
