PERIODIC MAINTENANCE SCHEDULE

The information in this manual provides the recommended intervals for all the required periodic service work necessary to keep the outboard operating at peak performance and economy. All figures are expressed in terms of hours of operation, miles and days for your convenience.

IMPORTANT (See 9-66). The periodic maintenance intervals and service requirements have been established in accordance with EPA regulations. Following these instructions will ensure that the outboard will not exceed emission standards and it will also ensure the reliability and performance of the outboard.

NOTE:

More frequent servicing may be required in conditions that are more severe than those specified.
