17180	10/10/2017	Shelby Webb	Houston Chronicle	My editors have asked that I expand the scope of my story to include specific numbers about the number of students displaced by Hurricane Harvey in each school district. I know the TEA has asked school districts to give students a certain code if they have been impacted by the storm. The codes include: 5A – This specific code indicates a student was enrolled or was eligible to enroll in an LEA impacted by Hurricane Harvey, and the student enrolled in a different LEA during the 2017-2018 school year. 5B – This specific code indicates a student was enrolled or was eligible to enroll in an LEA impacted by Hurricane Harvey, and the student enrolled in another campus in the same LEA during the 2017-2018 school year. 5C – This specific code indicates a student is identified as homeless because of Hurricane Harvey but has remained enrolled in their home campus during the 2017-2018 school year. I would like to know the number of students that fall into each of these categories for each of your school districts.

If you cannot produce all of these fields, please let me know. In addition, please include any look-up tables that may be needed to interpret the data.</p> <p>I want to stress that I'm not seeking any records that are prohibited from release either by statute or previous rulings by the Texas Attorney General or the courts. Please let me know if you feel any records in the fields I've requested are confidential, and I'll consider amending my request.</p> <p>Also, please let me know if clarifying the request might speed the release of the data, reduce any programming time and, most important, avoid a referral to the Attorney General.</p> <p>We're comfortable working with large data sets and can receive the records in a variety of formats (.csv, .xls, .xlsx) and media (CD, DVD, ftp).</p> <p>I seek this information in the public interest as a journalist, and not for a commercial purpose. Therefore, I'm requesting that you waive any fees, as allowed under the Act. If this is not possible, please provide a detailed list that breaks down each charge that equals the total amount.</p> <p>Thank you again for your time.
