## Proposed 2020-21 Middle School Boundaries

#### Proposed 2020-21 Elementary Boundaries

# Boundary Transfer Rules Elementary School

Any elementary school student affected by this boundary change who will be in the 5<sup>th</sup> grade for the 2020-21 school year, may remain at their current elementary school on a student transfer if their parents provide transportation. This opportunity will not be available for younger siblings.

## Boundary Transfer Rules Middle School

Any middle school student affected by this boundary change who will be in the 8<sup>th</sup> grade for the 2020-21 school year, may remain at their current middle school on a student transfer if their parents provide transportation. This opportunity will not be available for younger siblings.

# Boundary Transfer Rules High School

 Sibling Transfers – students who are affected by a high school boundary change who will have an older sibling in 10<sup>th</sup>, 11<sup>th</sup> or 12<sup>th</sup> grade attending the affected high school, may choose to transfer to their original high school rather than attend the high school designated by the rezoning. The sibling transfer will remain eligible for UIL varsity participation and they will be allowed to remain until graduation.

## Community Input for proposed boundary change affecting Hopper / Rowe

Comments\*

A comprehensive plan for the opening of Rowe MS which includes five middle schools, two high schools, and four elementary schools is posted for community review. You may review these proposed boundary plans and provide written input, all of which will be sent to the Board of Trustees. Please note that community input is not in any way a vote, but rather a way to gain insight into the opinions and concerns of the community, as well as to receive additional ideas for boundary plans. These proposed plans may be modified after considering community input. The final decision will be made at the regularly scheduled board meeting on Monday, December 16, 2019.
