Installation

To install the indicator(s) in your mt4 you need to open the data folder of mt4 by clicking on "File -> Open Data Folder":

After that a windows explorer instance opens:

You need to navigate into the MQL4 folder. Then you will see following folder structure:

| Experts Files Two peed | |
|------------------------|--|
| Files | |
| Turn and | |
| 🚛 images | |
| 퉬 Include | |
| 🌗 Indicators | |
| 퉬 Libraries | |
| 퉬 Logs | |
| 퉬 Presets | |
| 퉬 Projects | |
| 퉬 Scripts | |

The indicator file(s) need to be copied into the "Indicators"-folder:

After that you need to restart MT4.

Cheers and Happy Trading 🐵
