System Composition

Guest Paging System creates a more streamlined pick-up order process. No longer will customers need to wait near the pick-up counter or listen to a noisy overhead system for their order number. With lightweight & digital coaster pager, customers are free to find a seat or stay at the play area while they wait for their order.

The classical appearance of the round shape allows customers to have the most comfortable grip. The stackable coaster charger can fully charge up to 10 pagers in 2 hours. It is easy to install and operate and available to customize logo labels for your brand.

Business Benefits

- Manage the guest experience without long queue
- Reduce noise and congestion at order counter
- Effective control of many guests at the same time
