COMMENCEMENT

May 2008

CONGRATULATIONS FROM THE PRESIDENT

Welcome to the May, 2008 Commencement Ceremonies at the University of Connecticut. The Commencement Ceremony is one of the proudest moments in a student's life – and, perhaps even more so, in the life of her or his family. I guarantee that you'll remember this day forever.

It's also a proud day for the University of Connecticut. Your achievements and successes are substantial. The university is better today because you were here, contributing your special combination of skills, ambitions and individual personality to our academic community. I hope that you will always remember your time here with affection, and that you always remain united with the University of Connecticut as proud alumni.

John F. Kennedy, in his commencement address to the class of 1963 at American University, recalled Woodrow Wilson's remark "that every man sent out from a university should be a man of his nation as well as a man of his time, and I am confident that the men and women who carry the honor of graduating from this institution will continue to give from their lives, from their talents, a high measure of public service and public support." Graduates of the University of Connecticut, you've met the rigorous standards set by your discipline and your faculty mentors. You've mastered a body of knowledge that will lead to new opportunities and new associations. These are real accomplishments, and they mean something.

Personally it's a joy to celebrate that achievement with you, and I hope you will carry with you, for a long time to come, every ounce of our heartfelt pride in your success here today. I wish you all the very best, wherever your path next takes you.

With my best wishes and my appreciation,

*Michael J. Hogan
President
University of Connecticut*

GERALD GIANUTSOS, R.PH., PH.D., J.D.

DR. GIANUTSOS is associate professor of pharmacology in the Department of Pharmaceutical Sciences at the University of Connecticut. He obtained his B.S. in Pharmacy and M.S. in Pharmacology from St. John's University, Ph.D. in Pharmacology & Toxicology from the University of Rhode Island, and J.D. (law) from the University of Connecticut. He received post-doctoral training in pharmacology at the Michigan State University School of Medicine and was an assistant professor in pharmaceutical sciences at St. John's University before joining the faculty of the University of Connecticut in 1978. He teaches courses in the pharmacology of the nervous system and pharmacy law.

Dr. Gianutsos currently serves as coordinator of the Pharmacology/Toxicology Graduate Program and is the Honors Program director in the School of Pharmacy. Previously, he was the chair of the University of Connecticut Senate's Scholastic Standards Committee and chaired the UCONN task forces on Undergraduate Research, Academic Integrity, and the Intercession Program and was chair of the Neurosciences Program Steering Committee.

Dr. Gianutsos' research was in the pharmacology of anti-psychotic, anti-depressant and anti-Parkinsonian drugs and is the author of over ninety peer-reviewed scientific publications and has also authored articles in pharmacy law. He has served as major advisor for eight students completing the Ph.D. program at UCONN.

HONORARY DEGREE RECIPIENT

CHARLOTTE BUNCH
Doctor of Laws

CHARLOTTE BUNCH is one of the nation's leading figures in the struggle for human rights and social justice in the United States and across the globe. Over the course of a 40-year career, Ms. Bunch has played an instrumental role in the development of feminist studies as a major academic discipline, and her work is widely recognized as a key element in the intellectual foundation of women's studies, of women's rights as human rights, and, more broadly, the study of social movements in general. Of equal importance, Ms. Bunch is a widely admired organizer and activist whose efforts on the international stage have helped translate ideological support for equal justice into tangible policy goals for the improvement of women's lives.

A native of New Mexico, Ms. Bunch is a graduate of Duke University, where she wrote her honors thesis on "The Role of Women in the Chinese Revolution, 1929-1959." Her career has included positions as National President of the University Christian Movement, a decade as a fellow at the Institute for Policy Studies in Washington DC where she founded and edited *Quest: A Feminist Quarterly*, and establishment of Interfem Consultants in New York, an organization that worked for women's rights globally and nationally with organizations in Peru, Chile, India, Sri Lanka, Canada and the United States. Since 1987, Ms. Bunch has been associated with Rutgers University, where she now holds the title of Board of Governors Distinguished Professor in Women's and Gender Studies and serves as Executive Director of the Center for Women's Global Leadership, which she founded in 1989.

A prolific writer, Ms. Bunch's body of work includes numerous essays and anthologies and two major works in the feminist movement, *Passionate Politics: Feminist Theory in Action*, and *Demanding Accountability: The Global Campaign and Vienna Tribunal for Women's Human Rights*. Her civil society service over many decades includes membership on many boards including: the Executive Committee of the World Student Christian Federation, the Board of Directors of the National Lesbian and Gay Task Force, the National Council for Research on Women, and the Ms. Foundation for Women. She currently serves on the Advisory Committee for the Human Rights Watch Women's Rights Division and on the Boards of the Global Fund for Women and the International Council on Human Rights Policy, and last year she served on the Advisory Committee for the United Nations Secretary General's Report to the General Assembly on Violence Against Women. Ms. Bunch's many honors include induction into the National Women's Hall of Fame in 1996 and selection by President Bill Clinton as the recipient of the Eleanor Roosevelt Award for Human Rights in 1999.

COMMENCEMENT
HONORARY DEGREE RECIPIENT

GARY S. GLADSTEIN
Doctor of Humane Letters

The University of Connecticut's commitment to human rights as a field of research, instruction and public service has been translated into reality due, in no small measure, to the encouragement and support of GARY S. GLADSTEIN. A native of Bridgeport and a proud member of the UConn Class of 1966 (B.A. in Economics), Mr. Gladstein is one of the nation's leaders in the field of finance, and of course we at the University would like to think we helped place him on the road to success. Whether or not that is the case, what is clearly true is that Mr. Gladstein has repaid this institution, and the State of Connecticut, many times over by strengthening the University's academic program and, most notably, by enabling the University to emerge as a leader institutions of higher learning in the pursuit of peace and social justice across the globe.

In addition to his undergraduate UConn degree, Mr. Gladstein holds a Master of Business Administration from Columbia University. He began his career with the Sikorsky Division of United Technologies Corporation, and then joined the Hartford office of Arthur Young & Company. From 1985 to 2000 he was with Soros Fund Management LLC, retiring as Partner and Chief Operating Officer, and he continues to serve as a consultant to the firm. A member of several corporate boards in this country and abroad, Mr. Gladstein is also a major philanthropist. His generosity has supported organizations including The Abraham Fund, which works to advance coexistence among groups in the Middle East; The Hebrew Free Loan Society; The Samuel Waxman Cancer Research Foundation at Mt. Sinai Hospital; The Tanenbaum Center for Interreligious Understanding; the OneVoice Movement; and the B'nai Brith Youth Organization.

The manifestations of Mr. Gladstein's support for the University of Connecticut are as wide-ranging as they are significant. The Marsha Lilien Gladstein Visiting Professorship in Human Rights, established in 1998, enabled us to bring outstanding scholars to campus to teach and to study. The Gladstein Endowment for the MIS Research Laboratory and Gladstein Professorship in Information Technology and Innovation, both created in 2000, enhance UConn's capacity to meet students' needs for cutting-edge preparation in fields of crucial economic importance. The Marsha Lilien Gladstein Human Rights Fund (created in 2001) and the Judi and Gary Gladstein Distinguished Chair in Human Rights (2005) contribute immeasurably to the University's capacity to further a cause of vital importance. Other support to the School of Business and Hillel Building funds and active service on the UConn Foundation Board of Directors complete the profile of an alumnus who has, in the broadest sense, served as a model for the aspirations the University holds for its students.

HONORARY DEGREE RECIPIENT
AND GRADUATE SCHOOL SPEAKER

GARRY WILLS
Doctor of Letters

GARRY WILLS is that rare public intellectual who enlarges scholarly understanding while also making learning accessible to wide audiences. His widely acclaimed books and essays on politics and society defy standard academic and ideological classifications. A prolific scholar and journalist, Dr. Wills has published more than two dozen books on theology, United States political history, and twentieth-century popular culture. These books have won many awards, including the Pulitzer Prize, two National Book Critics Circles Awards, and the Merle Curti Award of the American Historical Association. For many years he has been a regular contributor to *The National Review* and *The New York Review of Books*, covering dramatic political events, social and religious issues, and the contemporary political landscape in the United States. In 1998, Garry Wills won the National Medal for the Humanities.

Originally from Atlanta, Georgia, Garry Wills received a classic Jesuit preparatory education, and studied philosophy at St. Louis University (where he received his B.A. in 1957) and at Xavier University in Cincinnati (where he took an M.A. in philosophy in 1958). Wills studied both rhetoric and the logic of analysis that infuses all of his work. He earned a second M.A. and a Ph.D. in classics from Yale University in 1961. His first book, *Chesterton: Man and Mask* was published that same year, and soon to follow were titles including *Politics and Catholic Freedom* (1964), *Jack Ruby* (1968), *Nixon Agonistes: The Crisis of the Self-Made Man* (1970), *Inventing America: Jefferson's Declaration of Independence* (1978), *Cincinnatus: George Washington and the Enlightenment* (1984); *Reagan's America: Innocents at Home* (1987), *Lincoln at Gettysburg: The Words That Remade America* (which won the Pulitzer Prize for General Non-Fiction in 1993), *John Wayne's America: The Politics of Celebrity* (1997), and *Head and Heart: American Christianities* (2007). Dr. Wills' extraordinarily productive writing career challenges established norms and habits of thought, informed by his knowledge and deep reading of politics, history, religion, and the theater.

Wills has noted his fascination with the concept of performance in all its forms as a continuum that includes movies, theater, opera, and rhetoric. He regards performances – whether by an opera star in a major role, or a President of the United States delivering an address to the nation – as key moments for understanding how people interpret themselves and their world.

JOSEPH VOLPE

At the age of just sixteen, Joseph Volpe entered the world and mystique of the Metropolitan Opera as an apprentice carpenter. Two years later he became the company's master carpenter and was named technical director in 1978. Three years later, Joseph Volpe was appointed assistant manager, a position he held for ten years. He became the general manager of the Metropolitan Opera in August of 1990, the first person to advance to this position from within the ranks of the company management.

During his tenure at the Metropolitan Opera, Joseph Volpe is credited for managing the company's re-entry into the commercial recording field and for expanding the Met's international touring activities, including visits to Spain (Expo '92), Germany and Japan. In addition, frequent tours and recordings of symphonic repertoire by the Met Orchestra were inaugurated as well as an annual series at Carnegie Hall. The Orchestra has presented numerous concerts in Europe and has toured the United States. "Met Titles" were conceived by Volpe, developed and introduced during the 1995-96 season. The development of a new management software program, Tessitura, was initiated by Volpe and introduced in 1998. This program, under license, is currently utilized by a network of more than 80 opera companies, symphony orchestras, ballet companies, theatre companies, performing arts centers and museums in the United States, Canada and the United Kingdom. The number of operas that were repeated from prior seasons was reduced and the overall length of the season was increased under Volpe's direction. Also, during his tenure, four world premiers have been presented, plus commissioned works. The Met's repertory further expanded with 22 works given their Met premieres during Volpe's sixteen seasons as general manager.

In 1998, Volpe instituted an education project for young children in cooperation with the City of New York Department of Education and endowed by the Texaco Foundation. The program, which includes students in kindergarten, first and second grades, emphasizes direct experience with music and opera for students in the New York City schools.

In 2001, after a series of discussions with David Woods, Dean of the School of Fine Arts at the University of Connecticut and initial financial support from Raymond and Beverly Sackler, Joseph Volpe established a collaboration with the University of Connecticut that provides Fine Arts students from the departments of Music, Dramatic Arts and Art and Art History access to the internal functions as well as the creative processes taking place in the opera house. Students have attended lectures, attended master classes, worked as interns in design and administration, have taken back stage tours and have attended many panel discussions and presentations. In addition, students have attended opera productions, premieres and dress rehearsals. Met staff members have also led master classes on the University of Connecticut campus. To date, seven of the interns from the University of Connecticut have been hired to full time positions at the Metropolitan Opera following the conclusion of their internships.

Joseph Volpe retired from the Metropolitan Opera August 1, 2006 following 42 years of service to that organization, the third longest term in the company's history. After leaving the Met, Volpe joined Giuliani Partners, the firm founded by the former New York City mayor, as a senior vice president. He currently is the director of strategic development in Theatre Projects Consultant's (TCP) Connecticut office where he works with clients in the development of planning and operational strategies.

In 2006, Joseph Volpe released his memoir, *The Toughest Show on Earth: My Rise and Reign at the Metropolitan Opera*, published by Knopf, where he openly discusses the challenges and difficulties of running one of the largest opera houses in the world. Each graduating student in the class of 2008 in the School of Fine Arts will be given a signed copy of this book during the commencement ceremony.

Joseph Volpe was awarded an honorary Doctor of Fine Arts degree from the University of Connecticut in 2002. In addition, he holds honorary degrees from Hamilton College, Marymount College, Fordham University, Georgetown University, Purchase College, and Pace College. He has been a guest lecturer at Columbia University and the University of Pennsylvania's Wharton School of Business. He has also taught classes in Models of Leadership and Managing in the Performing Arts at New York University's Stern School of Business.

Dr. Volpe resides in Manhattan with his family.

University Medal

SAMUEL KALMANOWITZ graduated from the University of Connecticut with a Bachelor of Science degree in Pharmacy in 1961. Entrepreneurial from the outset, he began his 40-year career as a Connecticut community pharmacist by establishing his own business, Kaye's Pharmacy, in Meriden on October 1, 1963. He filled eight prescriptions on that first day. The Pharmacy's original quarters soon proved too small for the growing business, and Kaye's moved across the street to larger space three years later. This began a repeated cycle of expansions and growing service that culminated in 2003 when Kaye's Pharmacy was processing nearly one thousand prescriptions per day, for thousands of patients.

Mr. Kalmanowitz has received numerous honors for his entrepreneurship. He received the esteemed Bowl of Hygeia Award from A.H. Robins (now Wyeth) and was inducted into the Bowl of Hygeia Hall of Fame. He was named an Independent Superstar by the national publication *Drug Topics*, as Kaye's Pharmacy was selected as the top independent pharmacy in the United States in 1998. In 1994 he received the University of Connecticut Alumni Association Award for distinguished service in Pharmacy. And in 2002 he received the Connecticut Pharmacists Association's Elan Pharmaceutical Award in Recognition of Innovative Pharmacy Practice.

In addition to his contributions to the profession, Mr. Kalmanowitz is known as an active leader in his community, having served as chair of the Meriden Redevelopment Agency from 1988 to 1995. He led a project that redeveloped Meriden's downtown area and also served on the building committee for the town's new YMCA building. His civic contributions were recognized in 1997 when he was inducted into the Meriden Hall of Fame.

Mr. Kalmanowitz is a recognized innovator in pharmacy technology, especially for his applications of the QS-1 pharmacy computer system which has streamlined the dispensing of pharmaceuticals. He continues to share his expertise by consulting at the UConn School of Pharmacy as well as with private businesses. He has helped many students and practicing pharmacists maximize utilization of the latest technology and equipment in the pharmacy industry. Mr. Kalmanowitz is nationally recognized for his expertise in pharmacy technology and serves on a number of advisory boards as a pharmacist consultant and advisor.

CONGRESSMAN JOHN B. LARSON

Connecticut's First District Congressman John B. Larson is currently serving his fifth term and is the fifth-ranking democrat in the U.S. House of Representatives. He is vice chair of the Democratic Caucus, sits on the influential Ways and Means Committee, and serves on the subcommittees on Trade and Select Revenue Measures.

Congressman Larson was born in Hartford, and he and his seven brothers and sisters were raised in a public housing project in East Hartford by their parents. He graduated from Central Connecticut State University in 1971 earning a B.A. in History. From there he became a high school history teacher and athletic coach, and later became the owner of an insurance company. He served on the East Hartford Board of Education and the East Hartford Town Council.

In 1982, Mr. Larson was elected to the Connecticut State Senate, beginning a 12-year tenure representing the 3rd Senate District, and for eight of those years, served as Senate President Pro Tempore. In 1994, he was selected by Dr. Edward Zigler, the creator of Head Start, to become a Senior Fellow at the Yale Bush Center for Child Development.

Since being elected to Congress in 1999, Mr. Larson has been a strong advocate for his constituents on a wide range of vital issues, including key education programs such as Head Start and other early childhood initiatives. He supported the College Cost Reduction Act increasing federal aid for higher education scholarships and loans, and has worked to increase federal funding of both the No Child Left Behind mandates and the full funding of the Individuals with Disabilities Education Improvement Act.

ROGER S. NEWTON

M.S. Nutritional Sciences, 1974

A nationally renowned pharmaceutical researcher for more than 25 years, Dr. Roger S. Newton's work has contributed to the health of millions. He is a member of the University of Connecticut Graduate School Class of 1974, and is best known as co-discoverer of Lipitor, the most widely prescribed cholesterol-reducing drug in the world.

Dr. Newton received a Bachelor of Arts degree in biology from Lafayette College; he came to UConn in the early 1970s for graduate work in the College of Agriculture and Natural Resources, earning a Master of Science degree in nutritional sciences. He received a doctorate of science in nutrition from the University of California at Davis, and then received a post-doctoral fellowship at the University of California at San Diego, where he specialized in atherosclerosis research. Over the course of his career, he served as Senior Vice President of Pfizer Global Research and Development and Director, Esperion Therapeutics, a Division of Pfizer Global Research and Development, and was formerly President and CEO of Esperion Therapeutics, Inc., a biopharmaceutical company he helped establish in July 1998. He has also served as an adjunct faculty member in the Department of Pharmacology at the University of Michigan Medical School, co-authored more than one hundred peer-reviewed articles and chapters, and served as a Distinguished Research Fellow in Vascular and Cardiac Diseases at Parke-Davis Pharmaceutical Research, a Warner-Lambert Company. It was during his tenure there, as Chairman of the Atherosclerosis Drug Discovery Team, that he co-discovered Lipitor.

Dr. Newton has supported the University of Connecticut over the years through his endowment of the Hamilton D. Eaton Award for Research Excellence in Nutritional Sciences and the Nutritional Sciences 30th Anniversary Fund at the College of Agriculture and Natural Resources. In 2005, the University of Connecticut recognized Dr. Roger Newton's scientific achievements by awarding him the Honorary Doctor of Science Degree. Dr. Newton and his wife, Coco, were inducted into the University's Founders Society in 2006. In 2007, they provided the funding to support a new eminent scholar position for the Functional Foods Initiative in the Department of Nutritional Sciences, College of Agriculture and Natural Resources.

KEVIN BOULEY

KEVIN BOULEY is President and CEO of Nerac, Inc., Tolland, a global technology and IP advisory research firm. A recognized leader in the information industry and Connecticut native, Mr. Bouley has been with Nerac for over 25 years, beginning his career in sales immediately after graduation. He holds a B.S. in Finance ('80) from the University of Connecticut. Mr. Bouley acquired the company through a management buyout in January 1999. Since then, he has been credited with doubling the revenues of the company and Nerac has been recognized by Deloitte & Touche in each of the past five years as among the 50 fastest growing technology companies in Connecticut. Mr. Bouley serves on the boards of ASIDIC, the Connecticut Technology Council, CBIA, ICSTI, and NFAIS, and is an active member of the Tolland Economic Development Commission as well as the President of the Tolland Community Economic Development Corporation.

As a thought-leader for the Tolland Technology Corridor, he has taken the lead in supporting and encouraging entrepreneurial studies in the UConn School of Business. In addition to providing ideas for new curriculum to challenge the entrepreneurs of tomorrow he has provided a stream of seed money for a select number of School of Business students' ventures/products whose development was encouraged through programs that function as entrepreneurial incubators for students. Mr. Bouley has also focused his attention on hiring interns from UConn and offering many of them permanent positions at a new marketing venture owned by Nerac, enabling them to stay in Connecticut. He also serves on the Advisory Board of the School of Engineering.

PAUL ADAMS

PAUL ADAMS is Vice President of Engineering, at Pratt & Whitney, East Hartford, a world leader in the design, manufacture and service of aircraft engines, propulsion systems and industrial gas turbines and a unit of United Technologies Corporation. He assumed his current role in 2004, having joined Pratt & Whitney from Williams International in 1999 where he managed development programs.

Mr. Adams has more than 20 years of leadership in management and engineering with extensive, global experience in the aircraft engine industry. In his current tenure, he has developed the technical globalization strategy for Pratt & Whitney by creating a worldwide engineering network that positions local, regional and global resources to successfully drive product development, efficiency, growth and market share. The results of his efforts and leadership contribute significantly to the year-over-year productivity improvement enjoyed by the company.

He is a board director for Infotech Enterprises Limited, an engineering services company based in Hyderabad, India, and for IAS engineering services, a joint venture of Infotech and Pratt & Whitney based in Puerto Rico. He also serves on the Advisory Board of the School of Engineering

Mr. Adams has a bachelor's degree in aerospace engineering from the University of Michigan. He resides in Glastonbury, Connecticut, with his wife, Linda, and their 2 children.

VALERIE LEWIS

VALERIE LEWIS recently retired after serving more than seven years as the Commissioner of Higher Education for the State of Connecticut. She has worked in many different areas of the Department of Higher Education including both Assistant and Deputy Commissioner. In October 2003 she was elected the national President of the State Higher Education Chief Executive Officers organization.

As Commissioner her responsibilities included: developing and implementing collegiate policies of the Board of Governors for Higher Education, providing oversight to multiple areas of the state investment such as financial aid, research, teacher education, international educational partnerships, etc. In her work as Commissioner she was especially concerned with aligning all levels of education from preschool forward so students are prepared to move through the various levels of education and into the workforce. She has a special interest in adults returning to complete their education.

Ms. Lewis completed her Bachelor's degree in English at Mount Holyoke College and then taught English and coordinated the General Equivalency Degree Preparation (GED) Program in East Hartford. While studying for her M.A. in Education at the University of Connecticut she worked as a special assistant in the offices of both the Provost and the President. She was a member of the faculty at Hartford College for Women and also served in a variety of administrative positions in both public and private colleges. This month she will be awarded two honorary doctorates for her work to improve educational opportunity for Connecticut citizens.

REBECCA ROSE LOBO

Class of 1995 and member of the University of Connecticut Board of Trustees

REBECCA LOBO was appointed to the University of Connecticut Board of Trustees in November 2004 by Governor M. Jodi Rell and is one of the University's best-known and recognized alumni. Ms. Lobo achieved high academic honors while studying at the University of Connecticut, graduating in 1995 with a B.A. in Political Science, magna cum laude, from the College of Liberal Arts and Sciences, where she was elected to Phi Beta Kappa and was a candidate for a Rhodes Scholarship. She received several prestigious awards during her college career, including an NCAA top scholar athlete award, and the NCAA Woman of the Year award for outstanding achievement in athletics, academics, and community leadership.

In that same year at UConn she led the Huskies as Team Captain to the 1995 National Championship with an undefeated 35-0 record. That same year, she won the 1995 Naismith, the Associated Press Female Athlete of the Year, and the National Athlete of the Year awards.

Ms. Lobo signed in 1996 as the starting forward/center for the New York Liberty and became one of the biggest stars of the new Women's National Basketball Association. Her skills and athletic ability earned her a nomination to the All-WNBA Second Team in the league's inaugural season. As the youngest member of the 1996 U.S. Women's Olympic basketball team, she helped her team win a gold medal in Atlanta. She was selected to play in the first-ever WNBA All-Star game in 1999.

In 1996, Ms. Lobo co-authored a book with her mother, Ruth Ann. *The Home Team* is an autobiographical account of Lobo's career and her mother's successful battle against breast cancer. She also wrote a short inspirational work titled *33 Things Every Girl Should Know: Stories, Songs, Poems and Smart Talk by 33 Extraordinary Women*.

Ms. Lobo is a well-known sports commentator for women's college basketball on CBS and ESPN, serving as an analyst during ESPN's coverage of the NCAA Women's Basketball Tournament. She is active in charitable work, most notably for the Children's Miracle Network. She also served as the spokesperson for the Lee National Denim Day, which raises money for breast cancer research. In addition, she has been involved with Gilda's Club - a free, nonprofit, psychosocial support community for persons with cancer, their families and friends.

CLAIRE R. LEONARDI

Claire R. Leonardi's contributions to the growth and excellence of the University of Connecticut cannot be overstated. She served the University and the State of Connecticut with great distinction as a member of the University's Board of Trustees from 1993 to 2003 and as a member and Chair of the Health Center Board of Directors from 2002 to 2007.

As a member of the University's Board of Trustees, Ms. Leonardi served as Chair of the Capital Budget and Facilities Committee, Chair of the Committee on Financial Affairs, Chair of the Committee on Health Affairs, and member of the University's Master Plan Development Committee. Ms. Leonardi played a leading role in virtually all aspects of the University of Connecticut's transformation in the 1990s, laying the foundation for the UCONN 2000 rebuilding project and for the University's rapid progress on multiple fronts as a center of excellence in teaching, research, and service. Her presentation to the General Assembly was pivotal in the success of the passage of the UCONN 2000 legislation.

In 2001 Ms. Leonardi assumed leadership of the Health Affairs Committee of the Board of Trustees and played a critical role in addressing major financial challenges confronting the Health Center at that time. She continued and expanded this role as a member of the Health Center's Board of Directors. She has overseen the development of a new, meaningful governance structure for the Health Center through its Board of Directors as well as the development of its Signature Programs. Her work on the Board of Directors included service as Chair of the Board itself and Chair of its Finance and Audit and Compliance subcommittees.

Ms. Leonardi is a 1978 graduate of Rutgers University and earned a Master's of Business Administration from The Wharton School of the University of Pennsylvania in 1982. Before beginning her service to the University, she acted as a vice president of the Phoenix Home Life Mutual Insurance Company and was responsible for the start-up and management of the company's Institutional Markets Division. Prior to joining Phoenix, she was senior vice president and managing director of Bigler Investment Management Company, a venture-capital investment-management firm.

Claire Leonardi has proven herself a fair, honest, and dedicated advocate for public higher education in the State of Connecticut. The University, and especially the Health Center, has grown and advanced as a result of Ms. Leonardi's involvement and leadership. Her vision, dedication and commitment to the mission of the University leave a deep belief in its capacity to be one of the nation's great institutions of higher education and a lasting legacy and example for others to follow.

COMMENCEMENT
THE SCHOOL OF DENTAL MEDICINE AND
THE SCHOOL OF MEDICINE COMMENCEMENT SPEAKER

PAULINE W. CHEN

Physician and author Pauline Chen is passionate about improving healthcare. Through her practice as a transplant surgeon and her experiences of dealing with terminally ill patients, Dr. Chen is particularly concerned with end-of-life patient care. Her recent book, *Final Exam: A Surgeon's Reflections on Mortality*, looks at death and dying from the perspective of a health care provider in training as well as in practice.

At the start of *Final Exam* she asks: "Why are we so bad at taking care of the dying?" Dr. Chen believes the answer is a powerful mix of factors: a professional culture that, despite being intimately familiar with death, shrinks from discussing it with patients; the systematic training of young doctors to compartmentalize and dehumanize the patient; and the patients' indefatigable hope for recovery.

Dr. Chen says doctors strive to combat their patients' sicknesses, but if the battle starts to become a losing one then doctors do not prepare their patients for inevitable death. Instead, the battle for life and denial of death continues with the frequent result that many patients die in a hospital's intensive care unit while undergoing painful treatment rather than at home with pain management and in peace. Dr. Chen wants to change this practice.

Dr. Chen attended Harvard University and the Feinberg School of Medicine at Northwestern University and completed her surgical training at Yale University, the National Cancer Institute (National Institutes of Health), and UCLA. Dr. Chen is the recipient of numerous awards including the UCLA Outstanding Physician of the Year Award in 1999 and the George Longstreth Humanness Award at Yale for most exemplifying empathy, kindness, and care in an age of advancing technology.

Dr. Chen's first nationally published piece, "Dead Enough? The Paradox of Brain Death," appeared in the fall 2005 issue of *The Virginia Quarterly Review* and was a finalist for a 2006 National Magazine Award. She is also the 2005 cowinner of the Staige D. Blackford Prize for Nonfiction and was a finalist for the 2002 James Kirkwood Prize in Creative Writing.

She is an award-winning teacher who has also made keynote speeches broadly about the healthcare industry, but also to groups specifically concerned with palliative care. She lives near Boston with her husband and children.

COMMENCEMENT NOTES

COMMENCEMENT DAY at the University of Connecticut is a time of ceremony and pageantry, portions of which represent traditions dating back to medieval times. These notes on the history of the University and the commencement ceremony are offered in the hope that they will be of interest to spectators.

THE UNIVERSITY OF CONNECTICUT WAS FOUNDED as the Storrs Agricultural School in 1881 when the General Assembly accepted a gift of money and land from Charles and Augustus Storrs, natives of Mansfield. In 1893 when it became a land-grant college and officially opened to women, the name was changed to Storrs Agricultural College. As the mission of the institution changed, its name was changed in 1899 to Connecticut Agricultural College. In 1933 it became the Connecticut State College. It grew slowly becoming a small but vigorous college with limited undergraduate offerings in agriculture, home economics and mechanical arts. With the development of a university program it became The University of Connecticut in 1939. The first regional campuses were established in 1946 to deal with the influx of veteran students. Today, the University is made up of sixteen different schools and colleges. Through the various agencies of five Divisions and seven Institutes, including forty-nine Special Facilities, Programs and Centers, the University is privileged to serve many State citizens. The Graduate program began in 1935, and in 1949 the University awarded its first doctoral degrees.

Enormous expansion has taken place over the years together with increased enrollment. Today, the University has an enrollment of over 28,000 students. At Storrs there are over 16,000 undergraduates and more than 6,400 graduate students, representing some 109 nations.

This year, the University will award over 6,650 degrees. Of these, approximately 4,677 will be Bachelor's degrees, 1,184 Master's degrees, 199 Juris Doctor degrees, 35 Master of Laws degrees, 103 Doctor of Pharmacy degrees, 40 Doctor of Dental Medicine degrees, 83 Doctor of Medicine degrees, 2 Doctor of Musical Arts degrees, 5 Doctor of Audiology, 2 Doctor of Education degrees, and 280 Doctor of Philosophy degrees. Also to be awarded are 53 diplomas in Professional Education and 35 Associate's degrees in the two-year Ratcliffe Hicks School of Agriculture.

THE COMMENCEMENT CEREMONY, because of the number of graduates, is divided into five separate exercises. The Schools of Dental Medicine and Medicine, located at the University's Health Center in Farmington, and the School of Law, located in Hartford, hold their own exercises. The Commencement procession in each of the three exercises at Storrs is heralded by the ceremonial trumpets which were obtained especially for the University commencement.

The Academic Procession begins with the heralding of the trumpeters announcing the arrival of the academic procession. The Bearer of the Mace leads the procession. The University Marshal, identified by his Baton, follows the President, together with the speaker, the Board of Trustees, vice-presidents, deans, and other University officials. The Mace is presented at the center of the stage while those processing enter and take their places. Once the Mace is placed on the stand it signals the beginning of the ceremony.

THE ACADEMIC GOWNS, HOODS AND REGALIA represent more than elegance or colorful attire. Academic caps and gowns represent a tradition which reaches far back into the early days of the oldest universities of the Middle Ages. The early European universities were founded by the church; the students, being clerics, were obliged to wear prescribed gowns and caps at all times. Caps and gowns were once common forms of clothing and were retained by the clergy when the laity adopted more modern dress. Though some universities here and abroad have other colors, the usual color for gowns in America is black. Hoods are lined with the official color of the college or university which conferred the degree. The velvet edging of the hood varies in length for bachelors, masters, and doctoral degrees. The color represents the appropriate degree. Mortar boards (caps) are usually black. The tassel for the Bachelor's and Master's degree may be of color distinctive to the degree, and the tassel for the doctoral degree may be made of gold thread. The gown and hood of the University Marshal were made specifically for University ceremonies in the official colors of national flag blue and white. The Processional Marshals wear blue velvet "beefeater" berets.

THE MACE, carried by the Professor Sally Reis, is used at all academic ceremonies. In medieval times maces were weapons of warfare, but today a mace is "a staff borne by, or carried before, a magistrate or other dignitary as an ensign of his authority." It is the emblem and symbol of the President's authority to administer the University. This mace was first used at the Inauguration of the President Homer D. Babbidge, Jr. on October 20, 1962. It was designed by Nathan Knobler, former head of the Department of Art. The University's early seal, executed in beautiful wood carving, appears on both faces. A penny dated 1881 is affixed to it to commemorate the date of the University's founding.

THE BATON, carried by the University Marshal, Professor Michael Darre, was specifically designed for ceremonial activities at The University of Connecticut and was first used at the Commencement in 1968. The Office of Marshal can be traced back to the medieval period, and the Baton is a symbol of the Marshal's authority. This Baton has silver mountings and is surmounted by a representation of the University's former seal in enamel, which itself incorporates the coat of arms of the State of Connecticut. The University Marshal, carrying the Baton, follows the Mace Bearer as she leads the academic procession into and out of the place of ceremony.

THE SILVER COLLAR /MEDALLION, worn by Michael J. Hogan, President, was first used in 1964, at the time of the University's Silver Anniversary. Each link on the collar represents one of the University's Schools or Colleges and consists of a cloisonné circle engraved with an appropriate design for the particular school and enameled with its traditional school or college colors. Hanging from the chain is a large silver medallion containing the University's early seal.

THE AWARDING OF DEGREES at The University of Connecticut is accomplished by a twofold process. First, the candidates for degrees of each respective school or college are presented by the University Marshal. The candidates proceed to the front, receive their diplomas, are congratulated by their administrative officers and return to their seats. The School or College Marshal then officially presents the candidates to the Dean who acknowledges the candidates and *declares* the appropriate degree. Second, when all candidates have been duly presented, the President of the University formally *confers* the appropriate degree. This is accomplished verbally at the time that he speaks the words:

"By virtue of the authority vested in me by the Trustees of The University of Connecticut, and in accordance with the procedures and regulations of the University, I confer upon you the Associate's Degree, appropriate Bachelor's Degree, Master's Degree, Juris Doctor, Doctor of Dental Medicine, Doctor of Medicine, Doctor of Musical Arts, Doctor of Education, or Doctor of Philosophy for which you have been presented at this One Hundred and Twenty Ninth Commencement of The University."

The Recessional of the officials and faculty is once again led by the Mace Bearer and University Marshal. The graduates, along with the audience, are requested to remain seated until the recessional is concluded.

*Out of respect and courtesy to all graduates, participants and guests
are requested to remain in their seats until the ceremony is concluded.*

The flowers displayed during the ceremonies are from the University's Plant Science Department greenhouses.

ACADEMIC HONORS

University Scholar

The University Scholar designation is the highest scholastic honor at the University. The individualized undergraduate programs of these students, which in some cases include work toward a graduate degree, are supervised by faculty committees. Up to thirty students are selected as University Scholars in the junior year. Candidates for the University Scholar designation wear medals on *gold and blue* ribbons at the commencement exercises.

Honors Scholar

Honors Scholars are outstanding students who complete intensive two- or four-year programs, including Honors courses of unusual breadth and depth. Honors requirements include a senior thesis in the major field. Candidates for the Honors Scholar designation wear medals on *blue and white* ribbons at the commencement exercises.

With Distinction

“With Distinction” is the University’s designation for degrees earned by students who give evidence of significant achievement in their major fields. Candidates for the graduation “with Distinction” wear medals on *blue* ribbons at the commencement exercises.

The names in this program do not constitute an official list. The students whose names are listed herein were considered candidates for the degree indicated when the program was printed, except where a prior date of graduation is given. Questions or concerns regarding names not listed should be directed to the Office of the Registrar.

THE GRADUATE SCHOOL

The parenthetical indication of a conferral date following a degree recipient's name signifies confirmed completion of degree requirements. If no conferral date is indicated, completion of degree requirements could not be confirmed at press time. Conferral of a degree is contingent upon verification by the Graduate School that a student has completed all requirements.

On the cover of this Commencement book is the official seal of the University of Connecticut. The University's seal depicts the ancient and mighty oak. For Connecticut and the University alike, the oak's symbolism is significant. Beautiful and sacred, the venerable oak is synonymous with wisdom, longevity and hospitality. To Aristotle, the oak represented human potential.

The oak holds a special place in Connecticut's history. In a time long before statehood, the Connecticut colony's self-governing status was guaranteed by a charter issued by King Charles II of England. When, in 1687, his successor King James II attempted to reinstate the monarchy's authority, his emissary's efforts were foiled as the Royal Charter was secretly spirited to a temporary hiding place—a majestic oak in Hartford, forever after known as the Charter Oak. The oak became a symbol of freedom worldwide.

The oak has unique meaning for the University as well. In 1884, the commencement exercises of the second graduating class of the Storrs Agricultural School were held in an oak grove on the Storrs campus. This grove, long a favorite gathering place for a variety of open-air meetings, served as the spiritual home to the growing community of scholars.

The University of Connecticut's graphic interpretation of the oak is stylized synthesis of two acorns and three oak leaves, representing maturation, intellect and moral strength. The seal is the symbol of a large and diverse institution; it is used by all of the University's schools, colleges, regional campuses, professional schools and its Health Center. The UConn Husky dog is the beloved and official mascot of the University's athletic program. While the Husky symbolizes the vitality and excitement of campus life, the oak seal communicates the broader mission of the University as a center for the pursuit, the creation and the sharing of knowledge. The University of Connecticut, like the mighty oak, is rooted in a proud past and reaching toward a limitless future.
