FLEXIBLE PACKAGING

Flexible Film

Wixon offers numerous film structures to suit multiple product needs – both unprinted and custom printed. All films are run through Metal Detectors or X-rays to adhere to industry standards. Film can be thermal printed or ink-jetted with product identification and lot coding. In determining proper film structure for your blend we consider the following requirements:

- Appearance (Clear, White, Metalized)
- Barrier Properties (Moisture, Oxygen, Metalized)
- Machinability
- Desired Shelf Life
- Retail Presentation
- Seal (Aggressive, Resealability)
