Key Insights

The chart below shows how **the sub** differs most from the **General Population**

Agreeableness

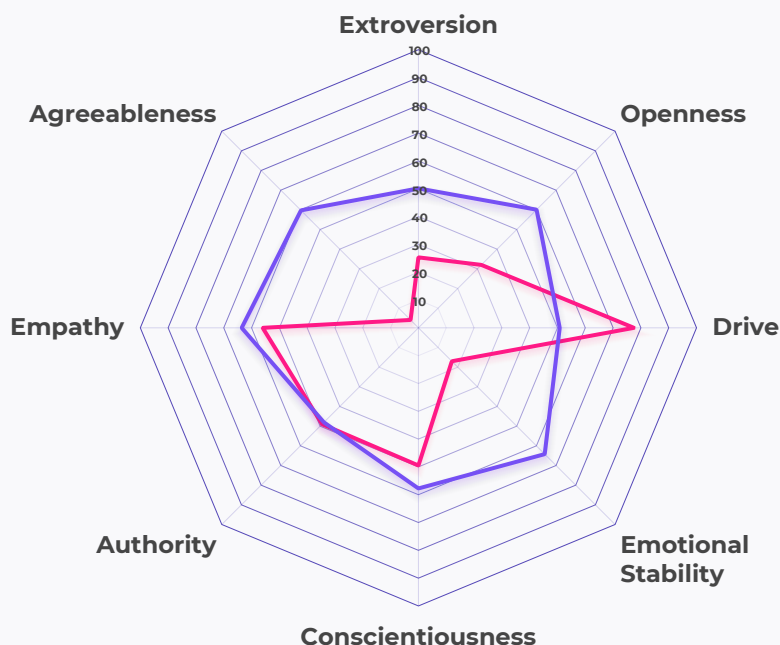

Emotional Stability

Openness

the sub ● Population ●

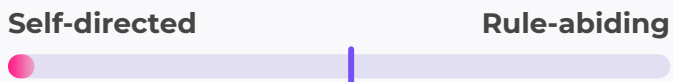

What makes the sub unique?

The work styles below describe the approach the sub has to **organization**, **problem-solving**, **leadership** and **motivation**.

the sub ● Population ●

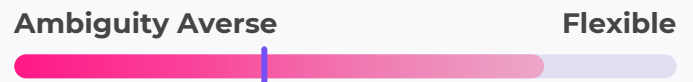

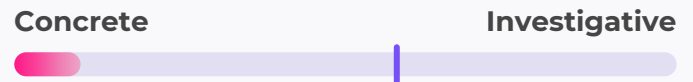

ORGANIZATIONAL STYLE

Instinctive and **autonomous**, inclined to take a broader view rather than focus on the small stuff. They **dislike rigid environments**, so prefer working to their own schedule.

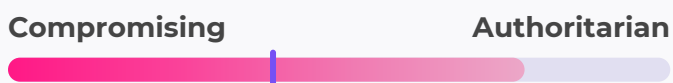

THINKING STYLE

Logical and **concrete** in their thinking style. Whilst innovation may not be their key strength, this is compensated by their pragmatism and **tolerance for ambiguity**.

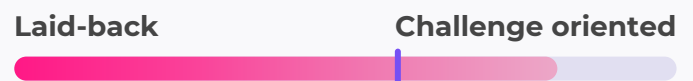

LEADERSHIP STYLE

As a leader, they are **strategic** and **willing to use their influence**. They **may struggle to communicate effectively**, but will be valued for being **highly considerate**.

MOTIVATIONAL STYLE

They are **highly motivated** to succeed and have a **strong belief in their abilities**. They will **enjoy taking on complex challenges** and have faith in their ability to tackle these.
