BOTOX

"The One and Only" Botox has been approved by Health Canada for esthetic improvement of dynamic facial lines in upper face since 2001. Botox relaxes the injected muscles for a period of 3 – 6 months. Some improvement can be seen in 3-5 days but the full effect takes 2 weeks. It has been observed that with consistent, regular treatments, the results get better and also last longer. In general, the side effects and complications of treatment are minimal, rare and always temporary. Occasional bruising, swelling or a transient headache may be reported by some people. Average dose is anywhere between 20 – 60 units, depending on the severity of the problem, the desired outcome, the age, the strength of the treated muscles, previous use of Botox and also the lifestyle (smokers may need higher dose, men need usually more units than women and runners seem to need the Botox injections more often).

Don't forget to use your BD coupon with your purchase for more discounts! Call 1-844-556-5418 before your Open House purchase if you are not sure how to get your BD Coupon on line.

25 UNITS FOR DISCOUNT.

XEOMIN

Xeomin is a Botox alternative that has been approved by Health Canada since 2012 for cosmetic treatment of dynamic wrinkles in face. Xeomin causes partial or complete relaxation of the injected muscle in face. Some results can be seen in 2-3 days but the full effect is achieved in approximately 2 weeks. The results last on average 3 months, depending on the number of injected units and also on the strength of the treated muscles. Side effects and complications of treatment are the same as with Botox: rare, minimal and always temporary.

*What you need to do to get your prepaid \$50 Visa card: You have to come to the clinic and pick up your receipt at the door to the clinic (in keeping with the proper screening and physical distancing, we ask you to wait at the door for one of us to serve you). You have to upload the receipt to Merz (maker of Xeomin) within 2 weeks from the purchase to get your \$50 prepaid Visa card. You need to ask a friend or a family member to help you to process the transaction electronically, the company does not accept any Canada Post mail-in receipts.

DERMAL FILLERS

Before

After

Before

After

A) RADIESSE HAND REJUVENATION:

Radiesse is calcium based dermal filler that restores lost volume in the back of the hands. It has been approved by Health Canada since 2005. It is injected in several tiny injections under the skin of the backs of hands that have been numbed with topical numbing cream for painless or almost painless experience. Our patients report 0-2 out of 10 pain level with injections of Radiesse. The results are immediate but they continue to improve over a period of 5 months or longer as the tiny biodegradable calcium-based microspheres that are also found naturally in our bones and teeth are gradually replaced by newly produced natural collagen fibres in our skin. There is very little to no down time of mild swelling and possibly bruising, that resolves over few days. It is recommended to repeat the treatment in 3-5 months, especially with more advanced volume loss in hands. It is one of the most rewarding procedures!

*What you need to do to get your prepaid \$50 Visa card: You have to come to the clinic and pick up your receipt at the door to the clinic (in keeping with the proper screening and physical distancing, we ask you to wait at the door for one of us to serve you). You have to upload the receipt to Merz (maker of Xeomin) within 2 weeks from the purchase to get your \$50 prepaid Visa card. You need to ask a friend or a family member to help you to process the transaction electronically, the company does not accept any Canada Post mail-in receipts.

Smooth Deep Lines & Wrinkles
Add fullness to your lips

B) FACIAL REJUVENATION:

Hyaluronic acid based Dermal fillers are sterile clear gels consisting of non-animal hyaluronic acid, that are injected under the skin, to correct loss of volume in cheeks, to soften some facial lines, wrinkles and folds, for lip enhancement and for reshaping of jawline and chin. The results can last 6-18 months depending on the area of the face, the volume that was injected and also on the type of the filler (lip results last usually 6 months). Touch ups and follow up treatments help sustain the desired degree of correction.

JUVEDERM ULTRA PLUS™

\$450

/SYRINGE (REGULAR
\$500/SYRINGE)
UNLIMITED QUANTITY

For your first treatment or repeat treatment of deeper nasolabial folds and marionette lines. Usually two syringes or more are recommended, depending on the severity of the problem and your desired look.

\$450/SYRINGE)
UNLIMITED QUANTITY

For soft lines in face or for touch ups of nasolabial folds, marionette lines, for subtle lip enhancement or for fine lines around lips. It is recommended to purchase at least two syringes.

JUVEDERM VOLUMA™, VOLIFT™, VOLUX™, VOLBELLA™ OR TEOSYAL ULTRA DEEP™

\$500

/SYRINGE (REGULAR \$600/SYRINGE)
UNLIMITED QUANTITY

As all these products are of the same value, so it really does not matter which one you purchase. They can be mixed and matched to get you the desired results. Voluma is for cheeks, Volux is for contouring of jawline and chin, Volite is for fine horizontal lines on neck (so called necklace lines), Volbella is for fine lines around the lips (so called bar code lines) and for frown lines and Volift is for lips. These products are manufactured using slightly different patented technology and they last longer (up to 18 months). Usually at least two syringes are needed to correct the problem to your satisfaction.

EARN 200 BD POINTS (\$20) FOR EACH PURCHASED SYRINGE OF JUVEDERM ULTRA, ULTRA PLUS, VOLUMA, VOLIFT, VOLITE, VOLUX OR VOLBELLA.

BELKYRA

BELKYRA GETS RID OF UNDER CHIN FAT

Belkyra® is an injectable clear solution that is based on deoxycholic acid, a substance that can be found naturally in the human body. Deoxycholic acid destroys fat cells (technically known as adipocytes and lipocytes) by disrupting their membranes and the contents of the fat cells are released and processed as waste matter.

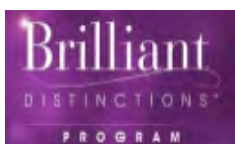

The fat that has been destroyed never returns, which means you'll enjoy permanent results from your treatment. Belkyra® Double Chin Treatment is a safe and effective way to eliminate your double chin without surgery. All you need are simple injections to reshape your neck contour permanently. Treatments can be repeated in one month intervals for even better results.

PICOWAY LASER

WE HAVE THE ONLY PICOWAY LASER IN OUR REGION!

The most advanced laser for TATTOO REMOVAL and Skin Rejuvenation. Excellent for removal of stubborn pigmented spots from face, neck and other areas. It is very effective for skin rejuvenation and skin tightening, especially of slim faces and necks.

PicoWay laser delivers energy through the skin in very short, fast pulses, about 300-500 picoseconds at a time. To put that into perspective, one picosecond is one trillionth(!) of a second. This makes the PicoWay energy go through the skin so fast that it is almost painless and with just very minimal irritation to the surface of the skin. In addition, the PicoWay Tattoo removal option has three wavelengths (532nm, 785nm and 1064nm) that can remove successfully all colours of tattoo ink in all skin tones with little downtime. **BUT: No laser can remove WHITE ink!!!**

BEFORE

AFTER

Post 5 treatments | Photos courtesy of Eric Bernstein, M.D.

A: PICOWAY TATTOO REMOVAL

Number of treatments varies depending on the colour, type of tattoo, density of the ink and other variables. Book a consultation or send us a picture of your tattoo for more information on recommended treatment package and your pricing.

! You must avoid direct sun for minimum of 2 weeks before the treatment!

ONE TREATMENT: \$150 FOR A TATTOO 2-5 CM IN DIAMETER (SMALL), \$250 FOR A TATTOO SIZE OF DECK OF CARDS (MEDIUM) AND \$400 FOR A SIZE OF ½ PAGE (LARGE).

NUMBER OF TREATMENTS DEPENDS ON THE TYPE OF TATTOO. TREATMENTS ARE DONE 6-8 WEEKS APART.

PACKAGE OF 6 TREATMENTS 35% OFF

\$585 small / \$ 975 medium / \$ 1560 large (Regular \$900 / \$1500 / \$2400) One post treatment kit is included. Suitable for professional tattoos that have 2-3 colors.

PACKAGE OF 4 TREATMENTS 30% OFF

\$420 small / \$ 700 medium / \$ 1120 large (Regular \$600 / \$ 1000 / \$1600). Post treatment kit is \$10. Suitable for professional tattoos done in black ink.

PACKAGE OF 8 TREATMENTS 40% OFF

\$720 small / \$1200 medium / \$ 1920 large (Regular \$1200 / \$ 2000 / \$3200) Two post treatment kits are included. Suitable for variety of fresh and old complex tattoos of intricate shapes with multiple colors, including red and pink.

PICOWAY LASER

B: PICOWAY RESOLVE SKIN REJUVENATION

It treats stubborn (usually deep) pigmentation, poor skin tone and facial and neck fine lines due to loss of collagen and sun damage with dull skin texture. Because the energy of the laser is delivered through the skin in picoseconds (trillionth of a second), there is little to no pain and little downtime. Make up can be applied the very next day after the treatment!

We recommend minimum of 2 treatments, one month apart. For mature skin with visible sun damage, multiple fine lines and more advanced loss of collagen, we recommend series of 3 - 4 monthly treatments. The optimal results are smooth, soft skin with healthy glow and younger tone.

PicoWay is suitable for people with thinner skin on face, neck and décolleté. It is advisable to maintain the results with regular treatments, at least twice a year!

***! Two weeks of sun protection before each treatment is a must for safe treatments and optimal results. Old tan is acceptable, sun burn is not! ***

**1 TREATMENT OF 1 AREA
(REG. \$400)**

\$320 - 20% OFF

**2 TREATMENTS, CAN BE
DONE IN THE SAME VISIT
(REG. \$800)**

**4 TREATMENTS
(REG. \$1600)**

\$1120 - 30% OFF

**6 TREATMENTS
(REG. \$2400)**

\$1560 - 35% OFF

You may treat 2 or more areas (they each count as individual prepaid treatments) in one visit: face and neck, neck and décolleté, or all three at the same time: just let us know when you are booking your appointment.

People with low pain tolerance can use Zensa topical numbing cream for 30 mins prior to their treatment. Zensa is available for purchase in the clinic (see MedAesthetics Skin Care Products).

PICOWAY LASER

C: PICOWAY CARBON LASER FACIAL

Exfoliate, brighten and firm your skin in an easy and safe laser procedure. Activated food-grade organic charcoal in our facial mask quickly absorbs oils, impurities and dead skin cells from surface of the skin and pulls toxins and environmental pollution from deep pores up to the surface. It is not a hard drying or "rip off" charcoal mask!! The charcoal is gently applied to the face and after it dries up in several minutes, it is painlessly removed by PicoWay laser, resulting in a healthy glowing skin with smaller pores, reduced fine lines and brighter tone. That's why it is quickly becoming one of our most requested procedures!

The treatment is almost pain-free, with no downtime. Clients usually notice REMARKABLE IMPROVEMENT in their skin quality after the second or third treatment! People with low pain tolerance may apply Zensa numbing cream (see our skin care products) for one hour before the procedure. We recommend series of 4 monthly treatments for the best results. If you buy six, you can save the rest for your future treatments.

We use sustainably sourced, vegan, non-GMO, gluten free and cruelty free (not tested on animals) charcoal!

LASER RE-GENESIS

Laser Re-Genesis is a non-invasive, heat-based laser stimulates the body's natural healing processes to boost collagen growth resulting in a more youthful skin tone and texture, while also deeply cleaning the skin by vaporizing debris from the skin's surface and from within your pores.

PACKAGE OF 4
\$500 - SAVE \$200

PACKAGE OF 6
\$750 - SAVE \$300

Treatments are done 2-4 weeks apart. Safe. Comfortable. No downtime. All skin types.

FRACTORA

Microneedling radiofrequency treatment that delivers heat energy precisely to the collagen layer in skin. Special numbing cream is used for increased comfort during the treatment.

| AREA | 1 TREATMENT \$20% OFF | 3 TREATMENTS \$30% OFF |
|--|--------------------------|---------------------------|
| Full Face OR Full Neck | \$560 | \$1470 |
| Upper Neck and Jowls or Lower Face and Jowls | \$480 | \$1260 |
| Full Face AND Full Neck | \$800 | \$2100 |

Prices include consumables (treatment tips, numbing cream, Vaseline)

FORMA & FORMA PLUS: SKIN TIGHTENING

Consult with Melanie or Lisa

Radiofrequency treatment that rejuvenates collagen by heating up the deeper layers of skin, resulting in tighter and younger looking skin. It has a temperature sensor built in to the hand piece that reads the skin temperature

1000 times in one second! That's why it is so safe and painless! The optimal skin tightening temperature is maintained uniformly in the whole surface of the treated area for the length of your treatment. It stimulates the skin to form new collagen fibres over a period of several months after the treatment. We recommend that you maintain the freshly formed new collagen fibres with regular treatments every two months to keep your skin looking fresh and taught. And there is no downtime! 6-10 treatment sessions are recommended for the best results. It is strictly intended for skin tightening. It does not treat any other skin imperfections such as pigmented spots, enlarged veins, red skin, spider veins, moles, melasma, enlarged pores or cellulite.

It can be safely used on tanned or darker skin! Ideal for summer month treatments!

EMSELLA

BTL EMSELLA™

A BREAKTHROUGH TREATMENT FOR WEAK BLADDER!

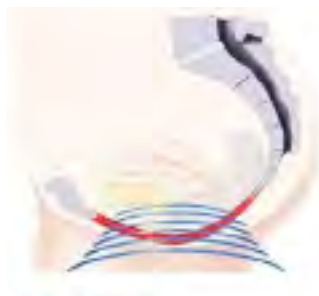

MEDAESTHETICS IS PROUD TO BE THE FIRST
CLINIC IN CANADA TO INTRODUCE THIS
AMAZING DEVICE TO OUR CUSTOMERS.

EMSELLA™ is a therapeutic seat that emits High-Intensity Focused Electromagnetic energy (HIFEM) into the deep pelvic floor muscles of a person sitting on it. In a pleasant, 28 minute treatment session, it will induce 11,200 painless muscle contractions, equivalent to performing 11,200 Kegel exercises! Results: fewer or no night time trips to the washroom, less or no worries where the nearest toilet is, fewer or no pads or panty liners, fewer or no bladder infections, and a significantly improved quality of life.

BEFORE

Pelvic floor muscles insufficiently support pelvic organs and affect bladder control

TREATMENT

BTL EMSELLA™ effectively stimulates the pelvic floor muscles

AFTER

Stimulation leads to regained control over pelvic floor muscles and bladder

PROTOCOL 1 FOR WEAK BLADDER

PROTOCOL 2 FOR SEXUAL ENHANCEMENT!

MAINTENANCE TREATMENTS:

PACKAGE OF 8 TREATMENTS: \$800

Specially priced monthly membership available to anyone who has previously completed a treatment package.

JULIET VAGINAL REJUVENATION

Marketed in Canada as Steri-Spot

Innovative laser treatment: your alternative to hormonal therapy or surgery. Helps with unpleasant vaginal symptoms after menopause, childbirth, or chemotherapy. Suitable for women of all ages. No side effects. Improvement is usually observed 3-4 weeks after the procedure.

The Juliet laser treatment is fast, safe and painless and has already changed the life of thousands of women all around the world. This gentle vaginal treatment takes only 15 -30 minutes. Does not require any pain medication or numbing creams and has no or minimal downtime. It helps with vaginal laxity, atrophy and dryness, by refreshing vaginal lining through production of healthy collagen and elastin. It strengthens all tissues in the area, including urinary bladder support muscles.

**PACKAGE OF 2
TREATMENTS DONE 4
WEEKS APART:**

\$800 (SAVE \$200)

**FOR BEST RESULTS GET
2 JULIET AND 8 EMSELLA
TREATMENTS:**

COOLSCULPTING

Permanent (non-surgical) reduction of localised fat by cooling the fat fold, without any harm to skin, blood vessels or nerve endings. Comfortable treatments with no downtime. Price depends on your desired outcome (number of areas and treatments)

WHY DO COOLSCULPTING AT MEDAESTHETICS?

- 1) We offer 4 complimentary treatments with Z-Wave acoustic massaging device after CoolSculpting, at no extra charge. It enhances results from an average of 25% of fat reduction from the treated fold of fat up to 42%! It also improves cellulite and by itself it is used as an effective treatment for cellulite – ask us for more information!
- 2) We use advanced treatment applicators with shorter and more comfortable treatment times. Most of the areas take 35 minutes of treatment time.
- 3) You can watch Netflix during your treatment, in the privacy of your treatment room.
- 4) Get BD Points from your prepaid treatments (200 BD points for each treatment cycle) and use them towards Botox, Juvederm, Belkyra, Latisse or more CoolSculpting treatments!
- 5) We are a CoolSculpting Certified Practice!! We attended CoolSculpting University and we fulfilled all other criteria for Certification.
- 6) At this Virtual Open House, we offer you the same special prices as we offered at our last two CoolSculpting VIP Events, first one in January 2020 and second one that was booked for the end of March 2020, and had to be cancelled because of the COVID-19 Lockdown.
- 7) You get a Bonus Gift Card with 4-10 prepaid cycles. The card does not expire and it can be used towards any MedAesthetics procedure or product.
- 8) You get Bonus Treatment procedure with minimum of \$1000 spent on CoolSculpting cycles (Oxygeneo or Carbon Laser Facial or PicoWay Facial).
- 9) You get one draw ticket for every \$100 you spend before tax.
- 10) You earn 200 BD points (\$20) for every cycle.

ACNE SCAR TREATMENT:

At MedAesthetics, we offer the most comprehensive treatment options in our field. Treatment options may include one or a combination of: Fractional RF (Fractora and Sublative), Fractional Laser (ResurFX and Dermablade), BBL Photorejuvenation, 1064 Nd-YAG laser & 577 Pro-Yellow laser, TCA Cross.

Custom packages available based on area, severity and type of scars.

MILD ACNE SCARS:

E-Matrix Sublative Rejuvenation:

\$600 (SAVE \$200)*

MODERATE ACNE SCARS:

ResurFX + E-Matrix Sublative Rejuvenation:

\$900 (SAVE \$400)*

ADVANCED ACNE SCARS:

Fractora/ResurFX/Dermablade/TCA/BBL:

\$1800 (SAVE \$700)*

*4 treatments done every 4-6 weeks.

TCA CROSS:

TCA CROSS is for acne scars, other indented scars as well as large pores.

TCA CROSS is the chemical reconstruction of skin scars (CROSS) using Trichloroacetic acid (TCA).

TCA CROSS is an effective treatment option for atrophic acne scars. Patients may expect a 1 to 2 grade improvement in their acne scars over a 6-month period. Greater levels of patient satisfaction are associated with more severe pre-treatment scarring.

TCA CROSS SESSION

Usually 4-6 treatments are necessary

OUR TEAM

DR. LENKA KUCEROVA

Dr. Lenka has undergone extensive training, preceptorships and certifications in many non-surgical cosmetic medicine procedures (in Santa Monica, Beverly Hills, New York, Boca Raton, Phoenix, Laguna Beach California, Toronto, Las Vegas, Miami, Banff Alberta, Dublin Ireland, Prague Czech Republic and London England). She is also certified through CoolSculpting University and has achieved Double Diamond status with Allergan Inc. She has been injecting cosmetic Botox, therapeutic Botox for treatment of migraines and dermal fillers for facial and hand rejuvenation for over 13 years, after she retired from practising family medicine. Dr. Lenka is also certified in the use of Emsella and is the sole provider of the new Juliet Feminine Rejuvenation laser treatment.

CHRISTINA GAVRELETS, NP

Christina brings over 16 years of nursing experience ranging from private practice, acute care, Burns/Plastic surgery, ENT, Urology, Thoracic Surgery, the Operating Room and Long-Term Care. She is now following her passion to specialize in non-surgical medical aesthetic practices. She has undergone extensive training in skincare, injectables including neurotoxins and dermal fillers, therapeutic Botox for migraines and hyperhidrosis, compression stockings, Cool Sculpting, Latisse, BBL, Emsella and laser treatments. Combining her formal education and clinical expertise with vision, skill, and artistry, she brings a calm gentle touch and firmly believes that client relationships are just as important as the cosmetic procedures that she performs. She provides quality, safe and personalized care to help you achieve your desired results.

TAMMY KIDD, RPN

Tammy is a registered practical nurse and certified laser technician with over a decade of extensive experience with many different lasers and pulsed light devices. Tammy provides laser hair removal, BBL Photorejuvenation, OxyGeneo facials, Forma & Plus RF skin tightening treatments, ResurFX fractional laser resurfacing, Dermablade, and the new Picoway laser for tattoo removal, skin rejuvenation and the Carbon laser facial.

MICHELLE BLONDEEL, RPN

Michelle is a registered practical nurse who has a passion for the cosmetic industry and keen interest in helping clients achieve healthy skin and gain self-confidence. She has received extensive injection training on fillers and neuromodulators, BBL rejuvenation, laser hair removal, Belkyra, Tripollar, Oxygeneo facials, Forma and Forma plus. Michelle looks forward to expanding her knowledge and getting to know the MedAesthetics community.

DR. JOHN O'MAHONY

Dr. O'Mahony will provide both therapeutic and cosmetic injections in addition to laser treatments for non-cancerous skin lesions. Dr O'Mahony is a family doctor in Sarnia and an Adjunct Professor of Family Medicine, at the Western Schulich School of Medicine, London. Dr O'Mahony has a keen interest and extensive training in both surgical and non-surgical treatments of skin conditions. He has completed postgraduate surgical training and was awarded his MRCSI designation (Membership of Royal College of Surgeons, Ireland) and Family Medicine Residency at Western University with a CCFP designation (Certification in the College of Family Physician of Canada). Dr. O'Mahony has completed advanced training in neuromodulator injections, cosmetic fillers and laser procedures and will be a great asset to the MedAesthetics clinical team.

SHELBY HOLMES, RPN

Shelby is a registered practical nurse and CoolSculpting Team Lead. Shelby now provides cosmetic Botox & Xeomin injections, therapeutic Botox for hyperhidrosis (excessive sweating), Radiesse injections for hand rejuvenation, Belkyra, and Juvederm & Teosyal dermal fillers. Shelby has trained directly with Dr. Kucerova for 2 years. She is a certified laser technician for laser hair removal, BBL Photorejuvenation, Oxygeneo facials, cryotherapy and Forma & Plus RF skin tightening treatments. Shelby also does Sclerotherapy injections for leg veins, and the hCG medical weight reduction program. Shelby is certified through CoolSculpting University.

HARLEY CRAWFORD, RPN

Harley is a graduate of the Lambton College Practical Nursing Program in 2019. She has studied the revolutionary method of MD codes introduced by Brazilian plastic surgeon, Dr. Mauricio de Maio to provide individualized neuromodulator (Botox) and dermal filler (Juvederm) treatment plans in a holistic approach. She continues to train alongside Dr. Kucerova and Allergan to continue her injection education. Harley has also completed training for multiple medical grade lasers including laser hair removal, BBL Photorejuvenation and Re-Genesis. She is certified with Candela on the new Picoway laser for skin rejuvenation and Carbon laser facial. Harley also provides Oxygeneo facials, Tripollar, Forma and Forma Plus radio-frequency skin tightening, Belkyra and sclerotherapy treatments. She is also a certified medical grade compression consultant with Sigvaris and a certified consultant for Latisse.

OUR TEAM

LISA PLOUFFE, MEDICAL AESTHETICIAN

Lisa has many years of experience and training / certification in laser hair removal, Photorejuvenation, OxyGeneo facials, Forma & Plus RF skin tightening treatments, CoolSculpting, and the new Picoway laser for tattoo removal, skin rejuvenation and the Carbon laser facial.

MONICA L'HEUREUX-BROWN & LORI SOULIERE

Monica and Lori are our clinical coordinators. They are certified in the use of Latisse, Emsella and Healite and have extensive knowledge of all of our procedures and skin care products.

BROOKE BERMINGHAM

Brooke Bermingham is the manager of MedAesthetics and she brings years of experience serving the Sarnia-Lambton community in sales and customer service. Prior to managing MedAesthetics, Brooke helped lead one of the most successful telecommunications teams in Southwest-Ontario while always focusing on providing top quality service. Brooke brings tremendous energy to the team and can't wait to meet all of the MedAesthetics clients.

MELISSA O'MAHONY

Melissa O'Mahony brings over a decade of management experience in the healthcare industry. Melissa has managed the largest medical clinic in Sarnia Lambton, as well as a busy family medicine and one of the leading clinical research practices in Canada. Prior to healthcare, Melissa started her career in banking. Melissa will be Director of Operations and we welcome her to the MedAesthetics team.

DON CONANT, CLS

Don is a certified laser specialist. He has been trained by Cynosure, Elite Laser Training, Sandstone Medical, BTL Aesthetics, Invasix / InMode, Asclepion, Zeltiq, Sciton and Syneron-Candela. Other advanced training include The Clearskin Institute in Phoenix Arizona, and The Beckman Laser Institute at University of California Irvine. Don has had many preceptorships including Laser Resurfacing with Dr. Steven Eubanks from Denver, Colorado, Advanced BBL Photorejuvenation with Dr. Patrick Bitter (the inventor of the procedure) in California, and RF Micro-needling with Dr. Steven Weiner in Florida. Don also trains physicians, nurses, aestheticians and laser technicians on the safe and effective use of multiple devices. Don has Fellow status in the American Society for Laser Medicine & Surgery (ASLMS) and is the certified Laser Safety Officer for MedAesthetics.

ANGELA STUCHBERRY, MEDICAL AESTHETICIAN

Angela has extensive training and clinical experience in multitude of energy based cosmetic devices. She has been working in the field of esthetics and cosmetic medicine for over 30 years and now specializes in treatments with medical grade Health Canada approved fractional lasers and fractional radio frequency devices. She performs skin resurfacing and remodelling and stretch mark treatments with ResurFX, she does skin resurfacing with Dermablade, uses PicoWay laser for tattoo removal, skin rejuvenation, acne scars and Carbon Laser Facials, eMatrix radiofrequency for fractional microneedling and she also specializes in BBL Forever young treatments. She has extensive knowledge of all types of skin, variety of skin conditions and she will always give you the best advice on what skin products to use to keep your skin healthy and young!
