One thing that worked really well for us was definitely the **engagement**. It created a space where they were able to meet people from all around the world and talk to each other.

Tammy Nguyen

California Entrepreneurship Educators Conference

We had to shift our conference virtually with **only 5 days** to go. Luckily, we were able to do so **seamlessly** and used pre-recorded videos (via Whova) instead of in-person lectures.

Melissa Slogan

Duke University

[Whova] allowed us to offer a customer experience that would be difficult to replicate without a site that allows for **interaction** with speakers, attendees and sponsors/exhibitors.
