**Installation Guide** 

3. Your download will begin in the lower left hand corner of your browser. This is the Nagios XI OVA file.

#### 4. Click "Download VMware Workstation Player."

Why? Nagios XI natively runs on Linux. Since you're installing Nagios XI on Windows, you'll need a virtual machine. VMware Workstation Player is a virtual machine that does the heavy lifting for you to complete your install.

5. A new tab will open up taking you to VMware. com. This is where you can download the virtual machine VMware Workstation Player.

#### www.nagios.com

6. Click "Download Now" under VMware Workstation 12.5 Player for Windows 64-bit. The download will begin in the lower left hand corner of your browser.

7. Run setup wizard for VMware Workstation.

# 8. Open VMware Workstation Player from your desktop.

1295 Bandana BLVD N, St. Paul, MN 55108 sales@nagios.com US: 1-888-624-4671 INTL: 1-651-204-9102

## <u>N</u>agios'

#### www.nagios.com

9. Click on "Player" -> "File" -> "Open."

## 10. Click on the OVA file from your downloads folder.

11. Name your virtual machine whatever you like. Click "Import."

1295 Bandana BLVD N, St. Paul, MN 55108 sales@nagios.com US: 1-888-624-4671 INTL: 1-651-204-9102

## <u>N</u>agios'

#### www.nagios.com

12. The OVA file will begin importing.

# 13.Click "Play virtual machine." This will boot up Nagios XI's login prompt.

14. You'll see the player turn to black and begin loading at the bottom.

1295 Bandana BLVD N, St. Paul, MN 55108 sales@nagios.com US: 1-888-624-4671 INTL: 1-651-204-9102

15. The final step in VMware Workstation Player is to login. You'll see the login credentials highlighted here.

16. Click in the window and type "root" for the login. Press ENTER on your keyboard. Keep in mind, when in the VMware Workstation Player your mouse will not be visible. To release your mouse, hold down CTRL + ALT. Your mouse will then become available to you. To type back in VMware Workstation Player, you will first have to click the window.

17. Type "nagiosxi" for the password. When typing you will not see the characters show up. When finished, press ENTER on your keyboard.

18. The following screen will show up. It is important to note that your IP address will be different. Make sure you use the IP address shown in your VMware Workstation Player.

19.Open up your preferred web browser. You'll see Google Chrome here. This is where you would type in your specific IP address (found in VMware Workstation Player, just below the Nagios XI banner) and type it into the search bar. Hit ENTER on your keyboard when done.
