Certificate

Certificate number: 2018-009

Certified by EY CertifyPoint since: April 18, 2018

Based on certification examination in conformity with defined requirements in ISO/IEC 17021-1:2015 and ISO/IEC 27006:2015, the Information Security Management System as defined and implemented by

DigitalOcean, LLC

located in New York, New York, United States of America is compliant with the requirements as stated in the standard:

ISO/IEC 27001:2013

Issue date of certificate: April 18, 2018
Expiration date of certificate: April 18, 2021

EY CertifyPoint will, according to the certification agreement dated April 12, 2018, perform surveillance audits and acknowledge the certificate until the expiration date noted above.

The certification is applicable for the assets, services and locations as described in the scoping section on the back of this certificate, with regard to the specific requirements for information security as stated in the Statement of Applicability, version 1.0, dated January 15, 2018.

J. Sehgal | Director, EY CertifyPoint

DigitalOcean, LLC

Scope for certificate 2018-009

The scope of this ISO/IEC 27001:2013 certification is as follows:

The DigitalOcean Information Security Management System (ISMS) protects assets associated with developing, operating, and maintaining the cloud infrastructure platform. The in-scope products include: Droplets (Virtual Private Servers), Volumes (Block Storage), and Spaces (Object Storage). The software systems, hardware, people, and processes associated with the in-scope products are globally implemented and operationalized.

The Information Security Management System is centrally managed out of DigitalOcean headquarters in New York, New York, United States of America.

The cloud infrastructure platform is supported by the underlying physical hardware and infrastructure within the datacenters at the following in-scope locations:

- NYC1 – New Jersey, United States of America
- NYC2 – New York, United States of America
- NYC3 – New Jersey, United States of America
- SFO1 – California, United States of America
- SFO2 – California, United States of America
- TOR1 – Toronto, Canada
- AMS2 – Amsterdam, Netherlands
- AMS3 – Amsterdam, Netherlands
- FRA1 – Frankfurt, Germany
- LON1 – Slough, England
- SGP1 – Singapore
- BLR1 – Bangalore, India

The Information Security Management System mentioned in the above scope is restricted as defined in "ISO/IEC 27001:2013 Certification Scope" version 1.1, dated March 1, 2018.

This scope (edition: April 18, 2018) is only valid in connection with certificate 2018-009.
