Description

Downtown is the birthplace of Houston. The construction of a ring of freeways in the 1960s and 1970s created the modern boundaries of downtown. The area extends into a transitional warehouse and light industrial area to the southeast, a part of which was included in the Third Ward before the Gulf Freeway was built in the 1950s. This area includes Houston's first Chinatown. Downtown was once the city's retail hub, but suburban development in the 1970s and 1980s reduced its importance, even as millions of square feet of new office space added tens of thousands of new workers. Loft conversions in older, often vacant office/commercial buildings are adding a new and welcome residential element to downtown.
