Commencement

M A Y 2 0 1 2

WELCOME FROM THE PRESIDENT

Dear Friends:

This is a wonderful and meaningful day for graduates, families and the entire University of Connecticut community. To our graduates, I offer my warmest and most sincere congratulations on your success and your achievements, which each of you has so clearly strived to earn. Today's commencement exercises are the culmination of your hard work and the symbolic fulfillment of our mission as a university and our promise to you.

I share the pride, excitement and immeasurable hopes for the future that I hope each of you feel today. Your education is a great credit to you, and to us: you exemplify the very best we have to offer as you prepare to enter the next chapter of your lives.

Today, a degree will be conferred upon you from one of this nation's truly great public universities. UConn takes great care to ensure that our students are able to receive an exceptional education from incredible faculty on a campus that boasts some of the finest physical facilities in all of higher education. It is also vital that each of our students gain the kind of college experience they desire on a thriving campus where as much can be learned and enjoyed outside the classroom as in it. That is the commitment that we made to you. It was in recognition of the fact that just as our expectations for you were high, you were right to expect just as much from your alma mater in return.

Whatever your plans for the future may be – the workforce, continuing education or public service – I hope that your time here has helped give you the knowledge, experience and confidence that you will need to excel in every aspect of the life you will lead.

The goal of higher education is not confined to academic achievement alone; it is also intended to draw from within you those essential qualities that make each of us an educated, well-rounded individual and, above all, a good citizen. That is one of the simplest, but most important titles we can merit in life and I know each of you will exemplify it, every day. You are a class – and a generation – who will go on to do extraordinary things.

Please enjoy yourselves today and celebrate the honor and distinction that you have earned. And whatever path you choose, I hope you will always carry with you the very fondest memories of your days here at the University of Connecticut.

With very best wishes,

Susan Herbst

SCHOOL OF ENGINEERING COMMENCEMENT SPEAKER

Dr. Arun Majumdar

Dr. Arun Majumdar became the first Director of the Advanced Research Projects Agency - Energy (ARPA-E), the country's only agency devoted to transformational energy research and development, in October 2009. Dr. Majumdar also currently serves as Acting Under Secretary of Energy.

Prior to joining ARPA-E, Dr. Majumdar was the Associate Laboratory Director for Energy and Environment at Lawrence Berkeley National Laboratory and a Professor of Mechanical Engineering and Materials Science and Engineering at the University of California, Berkeley. His highly distinguished research career includes the science and engineering of energy conversion, transport, and storage ranging from molecular and nanoscale level to large energy systems. In 2005, Dr. Majumdar was elected a member of the National Academy of Engineering for this pioneering work.

At Berkeley Labs and UC Berkeley, Dr. Majumdar helped shape several strategic initiatives in the areas of energy efficiency, renewable energy, and energy storage. He also testified before Congress on how to reduce energy consumption in buildings. Dr. Majumdar has also served on the advisory committee of the National Science Foundation's engineering directorate, was a member of the advisory council to the materials sciences and engineering division of the Department of Energy's Basic Energy Sciences, and was an advisor on nanotechnology to the President's Council of Advisors on Science and Technology.

Additionally, Dr. Majumdar has served as an advisor to startup companies and venture capital firms in the Silicon Valley.

He received his bachelor's degree in Mechanical Engineering at the Indian Institute of Technology, Bombay in 1985 and his Ph.D. from the University of California, Berkeley in 1989.

DOCTOR OF PHARMACY COMMENCEMENT SPEAKER AND HONORARY DEGREE RECIPIENT

Joseph C. Papa, Jr.

Doctor of Science

Joseph C. Papa, Jr. '78 has served as Perrigo's president and chief executive officer and as a member of the Board of Directors since October 2006. He was elected chairman of the board in October 2007. The Perrigo Company is a leading global healthcare supplier and the world's largest manufacturer of over-the-counter (OTC) pharmaceutical and nutritional products for the store brand market. The company also develops, manufactures and markets topical OTC pharmaceuticals, prescription generic drugs, active pharmaceutical ingredients and consumer products, and operates manufacturing and logistics facilities in the United States, Australia, Israel, United Kingdom, Mexico, and Germany.

Mr. Papa previously served as chairman and CEO of Cardinal Health's Pharmaceutical Technologies and Services business unit (2004–2006). He was president and COO for Watson Pharmaceuticals (2001–2004), president Global Country Operations for Pharmacia's North American business (2000–

2001) and president of Searle's U.S. Operations (1997–2000). Prior to joining Searle/Pharmacia, Mr. Papa also served in a variety of general management, sales, marketing and R&D positions during his 15 year career at Novartis Pharmaceuticals (1983–1997). During his pharmaceutical industry career Mr. Papa led the teams that successfully launched several block buster pharmaceutical products including Lotrel, Diovan and Celebrex; and is the patent holder for a cardiovascular combination treatment containing Amlodipine and Benazepril.

Mr. Papa has a Bachelor of Science in Pharmacy from the University of Connecticut and an MBA from Northwestern's Kellogg Graduate School of Management. Mr. Papa is also a member of the Board of Trustees for the University of Sciences in Philadelphia and the Board of Directors of Smith & Nephew, a U.K. based medical device company. He was the founding chair of the University of Connecticut School of Pharmacy Advisory Board.

CENTER FOR CONTINUING STUDIES COMMENCEMENT SPEAKER

Denise Merrill

Class of 1988

Denise Merrill was elected as Connecticut's 73rd Secretary of the State on November 2, 2010. As Secretary of the State, Denise Merrill serves as chief elections official and business registrar for the state of Connecticut.

Prior to her election as Secretary of the State, Denise Merrill served as State Representative from the 54th General Assembly district for 17 years, representing the towns of Mansfield and Chaplin. First elected to the General Assembly in 1994, Denise Merrill rose to the rank of House Majority leader from 2008-2010, the second most powerful position in the Connecticut House of Representatives.

Denise Merrill's election as Secretary of the State completes a cycle of commitment to civic participation, accountability and transparency in government that motivated her to pursue a career in public service more than 25 years ago. As a former teacher, she formed a consortium housed at the Secretary of State's office in 1984 to increase law-related education, writing curriculum on constitutional issues for young adults and on Connecticut's constitutional history.

During her tenure in the Legislature, Secretary Merrill is most widely known for spearheading the successful effort to fund

infrastructure improvements at the University of Connecticut known as "UConn 2000." These improvements have been widely credited with helping advance the University to national prominence as a premiere academic and research institution. Secretary Merrill also sponsored numerous bills that later became law encouraging economic growth by developing a strategic plan to create high technology clusters in Connecticut, as well as incentivizing state investments in biotech and high-end manufacturing.

In her dual role as Secretary of the State, Denise Merrill is focused on both civic engagement and fostering business enterprise. As the State's election officer, Denise Merrill is committed to supporting and expanding democratic participation, ensuring that every citizen's rights and privileges are protected and that every vote is counted accurately. Secretary Merrill understands that Connecticut cannot create the jobs of the future if we don't first lend a hand to the existing small businesses that employ today's workers. As Secretary of the State, Denise Merrill is committed to playing a vital role in helping small businesses grow, prosper, expand, and create jobs, thereby reviving Connecticut's economy.

Robert C. Gallo

Doctor of Science

Dr. Robert C. Gallo, M.D., co-discovered human immunodeficiency virus (HIV) as the cause of AIDS in 1984. Little was known then of the mysterious illness that was fast becoming the deadliest epidemic in medical history. Dr. Gallo has spent the past two decades trying to solve one of humanity's greatest scientific challenges.

Though best known for his co-discovery of HIV, Gallo and his team in the early 1980s also pioneered the development of the HIV blood test, which enabled health care workers for the first time to screen for the AIDS virus - leading to a more rapid diagnosis while simultaneously protecting patients receiving blood transfusions. His research also helped physicians develop HIV therapies to prolong the lives of those infected with the virus. His discovery in 1996 that a natural compound known as chemokines can block the HIV virus and halt the progression of AIDS was hailed by *Science* magazine as one of that year's most important scientific breakthroughs.

Before the AIDS epidemic, Gallo was the first to identify a human retrovirus and the only known human leukemia virus - HTLV - one of few known viruses shown to cause a human cancer. In 1976, he and his colleagues discovered Interleukin-2,

a growth-regulating substance now used as therapy in some cancers and sometimes AIDS. And, in 1986, he and his group discovered the first new human herpes virus in more than 25 years (HHV-6), which was later shown to cause an infantile disease known as Roseola.

Today, Dr. Gallo's work continues at the Institute of Human Virology (IHV), an institute of the University of Maryland School of Medicine that Dr. Gallo helped found in 1996. IHV is a first-of-its-kind virology center that combines the disciplines of research, patient care and prevention programs in a concerted effort to speed the pace of progress.

Prior to becoming IHV director in 1996, Gallo spent 30 years at the National Institutes of Health's National Cancer Institute, where he was head of its Laboratory of Tumor Cell Biology. A Connecticut native, his interest in science and medicine was first stirred by the loss of his six-year-old sister to leukemia when he was 13 years old. The physicians who cared for her made a lasting impression and helped Dr. Gallo decide to make scientific research - and the opportunity to help put an end to deadly diseases - his life's work.

HONORARY DEGREE RECIPIENT

Thomas Pogge

Doctor of Laws

Thomas Pogge is director of the Global Justice Program and the Leitner Professor of Philosophy and International Affairs at Yale University. He also is the Research Director of the Centre for the Study of the Mind in Nature at the University of Oslo and a Professorial Research Fellow at the Centre for Applied Philosophy and Public Ethics. He has taught philosophy, political science, and ethics at universities around the world. His 2002 book, *World Poverty and Human Rights*, offers proposals on how to achieve global economic equality. In 2008, he co-authored *The Health Impact Fund*, which lays out a plan to make life-saving medicines accessible for everyone.

Pogge is also editor for social and political philosophy for the *Stanford Encyclopedia of Philosophy* and a member of the Norwegian Academy of Science. With support from the Australian Research Council, the UK-based BUPA Foundation and the European Commission (7th Framework), he currently heads a team effort toward developing a complement to the pharmaceutical patent regime that would improve access to advanced medicines for the poor worldwide (<http://www.healthimpactfund.org>), and toward developing

better indices of poverty and gender equity.

He received his Ph.D. in philosophy from Harvard University in 1983. Pogge has published widely on 18th century German philosopher Immanuel Kant, and one of his teachers, John Rawls, the distinguished American moral philosopher who died in 2002.

Pogge's work at the Global Justice Program at Yale's MacMillan Center currently focuses on four projects: a team effort toward developing a complement to the pharmaceutical patent regime that would improve access to advanced medicines worldwide; a team effort toward developing new indexes for tracking poverty and gender disparities worldwide; a team effort toward finding ways of reducing the enormous losses poor populations suffer through illicit financial outflows due to corruption as well as tax evasion and tax avoidance; and a team effort toward mobilizing the creativity and expertise of academics in support of effective poverty reduction through promoting stronger collaboration, effective public outreach and thoughtful policy intervention (www.academicsstand.org).

2012 BOARD OF TRUSTEES DISTINGUISHED PROFESSORS

Designation as a Board of Trustees Distinguished Professor is the highest honor that the University bestows on faculty members who have demonstrated excellence in the three academic missions of the University. This year, two faculty members are recognized. To be chosen, a faculty member must have spent a significant portion of her or his career at UConn, have made significant academic contributions while in the University's service and be actively engaged scholars, strong in all three areas of research, teaching, and service.

Lynne M. Healy

Dr. Healy is a Professor at the University of Connecticut School of Social Work. She is an internationally known scholar in the field of international social work and a nationally recognized leader, scholar and educator in the profession of social work. She was a visiting Professor at the University of the West Indies in Jamaica in 1994 and 1995, a visiting lecturer/consultant at the University of Mauritius, and has lectured at universities and conferences in 24 countries.

Professor Healy is a prolific author with an exemplary national and international reputation of scholarship in the areas of internationalizing social work curriculum, international social work, human rights, human service agency management, and ethics. She has published 11 books and more than 50 articles and book chapters. Dr. Healy's writings in international social work have contributed significantly to defining and advancing the field of international social work and are widely cited. Several of her books have been translated into other languages.

Dr. Healy currently chairs the Administration Concentration and the International Issues Substantive Area at the School of Social Work and co-directs the Center for International Social Work Studies. She teaches graduate courses in Supervision and

Leadership, International Social Work, International Development, Human Rights, and Social Policy, and advises masters degree students.

Professor Healy has been extensively involved in service to the School, the University, the state of Connecticut, and to national and international professional organizations. She has served on numerous committees in the university and on local boards of directors for social agencies. She served on the Board of Directors of the Council on Social Work Education and as Chair of the Council's International Commission; held office as Secretary and as Vice President of the International Association of Schools of Social Work; was on two federal review panels, and was Chair of the Social Work Discipline Committee for the Fulbright program. She currently represents the IASSW at the United Nations and serves on editorial boards of five journals. She was previously honored by the Council on Social Work Education with the Individual Award for Advancing Education for International Social Work (2004); by the Connecticut Chapter of the National Association of Social Workers as Social Worker of the Year (1987); and with an Outstanding Community Service Award from the West Indian Foundation (2010).

Kent E. Holsinger

Dr. Holsinger is a Professor of Ecology & Evolutionary Biology and Adjunct Professor of Statistics at the University of Connecticut, Storrs. His previous awards include the Chancellor's Information Technology Award (2000), the Service Excellence Award from the Connecticut Chapter of the AAUP (2007), and the Faculty Award for Research Excellence – Sciences from the UConn Alumni Association (2007). He was elected a Fellow of the American Association for the Advancement of Science in 2003 and of the Connecticut Academy of Science and Engineering in 2010. In 2006, he received the Centennial Award from the Botanical Society of America and the Distinguished Alumni Award from the College of Idaho in 2008.

Professor Holsinger is well known for his work in population genetics, plant evolutionary biology, and conservation biology. His most influential work involves the development and analysis of mathematical models that describe the evolution of plant mating systems and of statistical models used to analyze genetic variation within populations. His most recent work on mechanisms responsible for the extraordinary diversity of plants in southwestern South Africa has uncovered a complex interplay between adaptation to environmental gradients and the accumulation of random differences among geographically isolated populations. This work involves students, post-doctoral research associates, faculty, and collaborators at the University of Connecticut, the University of California – Davis, the Australian National University, the University of Wageningen (Netherlands), the South African National

Biodiversity Institute, and the South African Environmental Observation Network.

Professor Holsinger is also a dedicated educator. He regularly teaches an undergraduate course in evolutionary biology and graduate courses in population genetics and conservation biology. For many years he taught in the introductory biology course for biology majors, and for nearly fifteen years, he co-taught a course in philosophy of science. He has supervised the work of nine Ph.D. students and one M.S. student, and served on the advisory committee of more than fifty students in seven departments and two colleges. In addition, he has served as an external reviewer on Ph.D. dissertations at four universities in the U.S., three in Europe, and two in Australia, and he has served as the thesis advisor for four University of Connecticut Honors scholars and one University Scholar.

Professor Holsinger has a long history of service to his department, the University, and the profession, including his service for a year and a half as an acting department head. He recently served as Chair of the Senate Executive Committee, stepping down when he took up his current position as Interim Vice Provost for Graduate Education and Dean of the Graduate School. He has served as President of the American Genetics Association, the American Institute of Biological Sciences, and the Botanical Society of America. Since 2000, he has served as Chair of the Board of Directors of BioOne. He has served on grant and fellowship review panels for many federal agencies, and on the editorial board of eleven scientific journals.

SCHOOL OF FINE ARTS HONORARY DEGREE RECIPIENT

Joseph Polisi

Doctor of Fine Arts

Joseph William Polisi became the sixth president of The Juilliard School in September 1984, bringing to that position his previous experience as a college administrator, a writer in the fields of music, public policy and the arts, and an accomplished bassoonist.

A University of Connecticut class of 1969 graduate, Polisi chose an unusual path to his profession. He holds three graduate degrees in music from Yale, having completed his Doctor of Musical Arts in 1980, a Master of Musical Arts in 1975, and a Master of Music in 1973. He also holds a Bachelor of Arts degree in political science from the University of Connecticut and a Master of Arts degree in international relations from Tufts University's Fletcher School of Law and Diplomacy.

As a bassoonist, Dr. Polisi has performed extensively in the United States as both soloist and chamber musician. In addition to performing with faculty and students in concerts at The Juilliard School, he has participated in chamber performances in Weill Recital Hall at Carnegie Hall and Lincoln Center's Alice Tully Hall. He first studied with his father, the late William Polisi, a distinguished musician who was principal bassoonist of the New York Philharmonic and a Juilliard faculty member for thirty years. Joseph Polisi continued his performance studies throughout his college years, and was a student of Maurice Allard at the Conservatoire National de Paris in 1973-74 as an "auditeur libre" after receiving his first master's degree at Yale. He has written many scholarly and educational articles for professional journals, has produced several sound recordings, primarily focusing on contemporary American music, and has recorded a solo album of twentieth-century bassoon music for Crystal Records. He is a frequent speaker on arts and education issues. His first book, *The Artist as Citizen*, was published by Amadeus Press in January 2005. His most recent book, *American Muse: The Life and Times of William Schuman*—the first complete biography of the distinguished composer and arts administrator—was published by Amadeus Press in October 2008.

Before coming to Juilliard, Dr. Polisi was Dean of the University of

Cincinnati College-Conservatory of Music (1983-84), Dean of Faculty at the Manhattan School of Music (1980-83), and Executive Officer of the Yale University School of Music (1976-80).

Dr. Polisi's twenty-eight years at Juilliard have been a time of vitality for the school, with the establishment of new student services and alumni programs, a revised curriculum, and an emphasis on the humanities and liberal arts. This period of growth also has seen the construction of the Meredith Willson Residence Hall, the creation of an exchange program with Columbia University and Barnard College, new emphasis on community outreach, a school-wide initiative to develop interdisciplinary programs, the creation of the Institute for Jazz Studies – a collaborative program with Jazz at Lincoln Center, and the development of a mentoring program open to all students. Dr. Polisi led the process of developing a comprehensive long-range plan for the school via The Campaign for Juilliard, a \$150 million capital campaign dedicated to further increasing student financial aid and faculty compensation, as well as developing school-wide programs to prepare Juilliard students for the changing demands of the twenty-first century. Subsequently, the Campaign was expanded to a \$300 million goal and was renamed the Juilliard Second Century Fund. Dr. Polisi led Juilliard's celebration of its centennial in the 2005-2006 academic year.

In coordination with Carnegie Hall, Dr. Polisi helped found the Carnegie Hall/Juilliard Academy launched in September 2006, a program that prepares post-graduate musicians for their roles as artistic and educational leaders. In March 2008, a new partnership between the Metropolitan Opera and Juilliard was created to prepare some of the finest young opera singers to enter the profession. At the same time, an early music program was introduced through master classes taught by William Christie and artists of Les Arts Florissants; this resulted in the September 2009 inauguration of a master's program in historical performance. Dr. Polisi oversaw the planning and construction process for a \$199 million renovation of the Juilliard building, completed in September 2009.

SCHOOL OF FINE ARTS COMMENCEMENT SPEAKER

Ben Cameron

In 2006, Ben Cameron assumed his current position as Program Director for the Arts at the Doris Duke Charitable Foundation in New York, NY. In that capacity, he supervises a \$13 million grants program focusing on organizations and artists in the theatre, contemporary dance, jazz and presenting fields. Previously, he served for more than 8 years as the Executive Director of Theatre Communications Group (TCG), the national service organization for the American nonprofit professional theater, significantly expanding its programs, membership base and grantmaking activities. Prior roles include his work as Senior Program Officer at the Dayton Hudson Foundation, Manager of Community Relations for Target Stores (supervising its grantmaking program) and four years at the National Endowment for the Arts, including two as Director of the Theater Program.

Mr. Cameron has addressed gatherings of arts communities in Dublin, Ireland; Sydney, Australia; Vancouver, Canada; Zwolle, Netherlands; London, England; Edinburgh, Scotland and Montreal, Canada, among other international sites, as well as national gatherings of the theatre, chamber music, dance, and choral music fields in the United States. He has also addressed the International Council of Fine Arts Deans and the College Music Society challenging the members of each

organization to action for advocacy of the arts and arts education.

He has served on a number of nonprofit boards, including those of the National Arts and Business Council, the American Arts Alliance and Grantmakers in the Arts. He has received honorary degrees from DePaul University in Chicago and American Conservatory Theatre in San Francisco, in addition to an MFA from the Yale School of Drama in 1981. He holds a BA from the University of North Carolina at Chapel Hill where in 2007 he was one of five recipients of the Distinguished Alumnus Award.

In addition to his not-for-profit work he has been an Oxford Lecturer on the Queen Victoria and Queen Mary 2 presenting lectures on the subject of theatre. During 13 seasons Cameron was a panelist on the opera quiz feature on the Live from the Metropolitan radio broadcasts from New York City. He has served as a member of the Tony Awards Nominating Committee and has twice ridden his bicycle from Minneapolis to Chicago to raise money for AIDS relief services.

A dynamic speaker and arts advocate, Ben Cameron is one of today's most articulate proponents and supporter of the performing and visual arts.

Marshall Matz, is a graduate of West Haven High School, the University of Connecticut, School of Business, 1968, and the University of Louisville, School of Law. He is now a Washington, D.C. attorney specializing in food, nutrition and agriculture. He has devoted his career to increasing food production and improving nutrition in the United States and around the world. After working with South Dakota Legal Services, based on the Rosebud Indian Reservation, Mr. Matz spent seven years on Capitol Hill as Counsel to the Senate Committee on Agriculture, Nutrition and Forestry and the Select Committee on Nutrition.

While working for Congress from 1973-1980, Mr. Matz helped to craft the Food Stamp Reform Act, the WIC statute,

expansion of the National School Lunch Program, the Farm Bill and the Dietary Goals for the United States.

Mr. Matz serves on the Board of Directors of the Food Research and Action Center (FRAC), the World Food Program—USA (which he co-founded), the Congressional Hunger Center, and the Global Child Nutrition Foundation. He is also the Agricultural Advisor to the Alliance for a Green Revolution in Africa.

Mr. Matz has published widely on the subject of agriculture and nutrition.

Claire joined Connecticut Innovations in March 2012. She manages CI's array of initiatives, including its venture capital investments, laboratory infrastructure fund, SBIR Office, and startup assistance initiatives. Additionally, she oversees administration of the Connecticut Stem Cell Research Fund, Jackson Labs investment, and Angel Investor Tax Credit Program.

Claire is a veteran investment and venture capital executive with more than 30 years of experience in the financial services industry. Prior to joining CI, she was assisting startup and growing companies, as well as nonprofits, in upstate New York, advising them on capital structure and funding, strategic planning, and performance improvement. Earlier, she held senior positions with Fairview Capital L.P., a private equity fund-of-funds, Phoenix Home Life Mutual Insurance Co., and

Crossroads Capital, one of the largest private equity fund-of-fund managers in the U.S.

In addition, Claire brings to CI a wealth of experience from her affiliations with various boards. Most notable have been her contributions serving as chair of the University of Connecticut Health Center Board of Directors and vice chair of the University of Connecticut Board of Trustees. She currently serves on the boards of the National History Museum of the Adirondacks and the Allianz Variable Insurance Products and Fund of Funds Trusts.

Claire earned a Master of Business Administration degree from The Wharton School at the University of Pennsylvania and a Bachelor of Arts degree, with a dual major in business administration and economics, from Rutgers University.

On September 7, 2011, the State Board of Education voted unanimously to recommend to the Governor the appointment of Stefan Pryor as the Commissioner of Education. Mr. Pryor previously served as Deputy Mayor for Economic Development in the City of Newark, New Jersey. His responsibilities included economic, housing, and workforce development. Prior to serving as Deputy Mayor, Mr. Pryor was President of the Lower Manhattan Development Corporation, which was created in the aftermath of September 11, 2001, to plan and help coordinate the physical rebuilding and economic revitalization of Lower Manhattan.

From 1998-2001, Pryor served as the Vice President for Education at the Partnership for New York City, where he led the organization's public education efforts and served as Executive Director of its main school reform program. The Partnership's work focused on attracting philanthropic funding to lower-performing NYC public school districts in order to introduce a range of innovations. The child of two public school teachers, Pryor received his bachelor's degree in psychology and law degree from Yale University, where he completed the Yale Teacher Preparation Program.

Susan Herbst was appointed as the 15th President of the University of Connecticut on December 20, 2010, by the University's Board of Trustees.

Prior to her appointment to the presidency, Herbst served as Executive Vice Chancellor and Chief Academic Officer of the University System of Georgia, where she led 15 university presidents and oversaw the academic missions for all 35 public universities in Georgia. Before coming to Georgia, Herbst was Provost and Executive Vice President at The University at Albany (SUNY), and also served as Officer in Charge (acting president) of the school from 2006 to 2007. She previously served as the Dean of the College of Liberal Arts at Temple University.

Born in New York City and raised in Peekskill, N.Y., Herbst received her B.A. in Political Science from Duke University in 1984, and her Ph.D. in Communication Theory and Research from the University of Southern California's Annenberg School for Communication in Los Angeles in 1989.

Herbst joined Northwestern University as an assistant professor in 1989 and remained there until 2003. At Northwestern she served in many capacities, including Professor of Political Science and Chair of the Department. Dr. Herbst is a scholar of public opinion, media, and American politics, and is author of four books and many articles in these areas. Along with Benjamin Page, Lawrence Jacobs, and James Druckman, she edits the University of Chicago Press series in American Politics.

Joette Katz

Joette Katz was born and raised in Brooklyn, New York and graduated from Brandeis University in 1974 and the University of Connecticut School of Law in 1977. Following her admission to the Connecticut bar, she worked briefly in a small private law firm and then for eleven years as a public defender, serving as both a trial and appellate lawyer. Additionally, she was the Chief of Legal Services for the State of Connecticut Division of Public Defender Services, where she supervised all public defenders handling appeals. In that capacity, she also handled her own case load, assisted public defenders and private attorneys at trial with legal issues in anticipation of receiving their cases for appeal, educated defense attorneys on developments in criminal law as well as appellate procedures, and co-authored a textbook, the *Connecticut Criminal Law Handbook: A Practitioner's Guide*. She was appointed to the Connecticut Superior Court by Governor William O'Neill in 1989. In 1992, she was elevated to the Connecticut Supreme Court by Governor Lowell P. Weicker, Jr. and thereafter was reappointed by Governors John Rowland and M. Jodi Rell. In her eighteen plus years on that court, she sat on approximately 2200 cases, and authored over 430 majority opinions, as well as nearly 100 dissenting and concurring opinions. She also served as the Administrative Judge of the Appellate System for the State of Connecticut.

During her career Justice Katz has been a member of the Criminal Practice Commission, the CBA Attorney Trust Account Task Force, the Public Service and Trust Commission, the chair of the Client Security Fund, and a member of the American Law Institute (participating in its Model Penal Code Sentencing Project). She was also a member of the Public Defender Commission, the Law Revision Commission, the Fairfield County branch of the American Inns of Court, as well

as the chairperson of the Advisory Committee on Appellate Rules, and the chairperson of the Code of Evidence Oversight Committee. Justice Katz has taught at all three of the state's law schools and is an associate fellow of Trumbull College at Yale University. She has received many awards and honors, including The Connecticut Women's Education and Legal Fund's Maria Miller Stewart Award, the National Organization for Women's Harriet Tubman Award, the University of Connecticut School of Law's Distinguished Graduate Award, the National Council of Jewish Women's Women of Distinction Award, the Connecticut Bar Association's Henry J. Naruk Judiciary Award, as well as an Honorary Degree of Doctor of Laws from Quinnipiac University School of Law. She is a recipient of the 2011 Connecticut Women's Hall of Fame Women of Distinction award and the Greater Bridgeport Bar Association's Career Service award. She has had the great fortune to be able to mentor children in foster care and to do Katrina relief work in the United States and post tsunami relief work in Sri Lanka.

Justice Katz retired from the Connecticut Supreme Court in January 2011. Since that time she has served as the Commissioner of the Department of Children and Families for the State of Connecticut where she is responsible for over 4,700 children for whom the department has custody and guardianship and oversees services to 36,000 children and 16,000 families that need society's help. In her current capacity she is a frequent lecturer on issues related to the mission of her agency that range from child welfare, adolescent brain development, juvenile justice, and family engagement. She is also the Chair of the Editorial Board of the Connecticut Law Tribune and serves on or chairs a number of other committees.

COMMENCEMENT SPEAKER

Edison T. Liu, M.D.

Dr. Edison T. Liu is the President and CEO of The Jackson Laboratory; and has been president of the international Human Genome Organization (HUGO) since 2007.

Dr. Liu joined the Laboratory from the Genome Institute of Singapore (GIS). As founding executive director, Dr. Liu built the GIS from a staff of three into a major research institute of 27 laboratory groups and a staff of 270, with faculty in functional genomics, computational biology, population genetics and genome-to-systems biology. Before moving to Singapore in 2001, he was the scientific director of the National Cancer Institute's Division of Clinical Sciences in Bethesda, Md.

Dr. Liu obtained his B.S. in chemistry and psychology, as well as his M.D., at Stanford University. He served his internship and residency at Washington University's Barnes Hospital in St. Louis, followed by an oncology fellowship at Stanford. From 1982 to 1987 he was at the University of California, San Francisco, first in a hematology fellowship at Moffitt Hospital and then as a postdoctoral fellow in the laboratory of Nobel

laureate J. Michael Bishop, while also serving as an instructor in the School of Medicine.

From 1987 to 1996 he was at the University of North Carolina at Chapel Hill, where he rose to director of the UNC Lineberger Comprehensive Cancer Center's Specialized Program of Research Excellence in Breast Cancer, the director of the Laboratory of Molecular Epidemiology at UNC's School of Public Health, chief of medical genetics, and chair of the Correlative Science Committee of the national cooperative clinical trials group, CALGB. Dr. Liu also held faculty positions in the UNC departments of medicine, epidemiology, biochemistry and biophysics, and in the curriculum in genetics.

Dr. Liu's own scientific research has focused on the functional genomics of human cancers, particularly breast cancer, uncovering new oncogenes, and deciphering the dynamics of gene regulation on a genomic scale that modulate cancer biology. He has authored nearly 300 scientific papers and reviews, and co-authored two books.

BOARD OF DIRECTORS FACULTY RECOGNITION AWARD RECIPIENT

Steven M. Lepowsky, D.D.S.

Dr. Steven M. Lepowsky is senior associate dean for education and patient care at the UConn School of Dental Medicine. He has been a driving force in the growth and expansion of the Advanced Education in General Dentistry (AEGD) residency program, which is now the largest of its kind in the United States. He also has been influential in the development and expansion of community-based activity throughout Connecticut, initiating resident placement in community sites, having an active role in predoctoral students' community-based experiences, and recruiting and placing junior clinical faculty through contractual arrangements with community sites.

Dr. Lepowsky also is responsible for a significant expansion of patient care to adults with acquired and developmental disabilities, between direct patient care and partnerships he initiated with the Connecticut Department of Developmental Services. He also is a senior consultant to the Commission on Dental Accreditation and serves as a liaison to the Connecticut Department of Public Health and Department of Social Services.

Last fall the UConn School of Dental Medicine launched the Connecticut Comprehensive Education and Practice Team in the UConn Health Partners West Hartford office. Known as CONNcept, this is a pilot clinical education and care model in which dental students, residents, and faculty run a

contemporary group practice with the feel and pace of a private practice. Dr. Lepowsky was instrumental in making this primary-care-focused practice mode a reality, one that could revolutionize dental education and put the UConn School of Dental Medicine in position to be a national leader in dental educational models.

Dr. Lepowsky joined the UConn Health Center faculty in 1993 as an assistant professor and director of advanced education in general dentistry. He was promoted to associate professor in 2001. He accepted the additional role of the dental school's associate dean for clinical affairs in 2003, and became associate dean for education and patient care in 2007. He was promoted to senior associate dean last year. Dr. Lepowsky also has served as chair of the Division of General Dentistry since January 2005.

While at UConn Dr. Lepowsky has completed fellowships at the Pierre Fauchard Academy and the American College of Dentists, and was an American Dental Association Leadership Fellow.

Dr. Lepowsky previously was on the faculty at the Columbia University School of Dental and Oral Surgery. There he became director of advanced education in general dentistry, completed a general dentistry fellowship, and was promoted to associate clinical professor of dentistry.

HONORARY DEGREE RECIPIENT

Richard W. Valachovic, DMD, MPH

Doctor of Science

Dr. Richard W. Valachovic, an alumnus (DMD, '77) of the University of Connecticut School of Dental Medicine, has established himself as one of the world's most influential leaders in academic dentistry.

During his 13 year tenure as executive director of the American Dental Education Association, Dr. Valachovic helped transform the ADEA into a vibrant, influential organization with more than 19,000 members. ADEA is now the unified voice for all academic dental institutions with an impact on Capitol Hill and the White House.

Through the ADEA, Dr. Valachovic forged vital partnerships with organizations representing the higher education community and state and federal agencies. To help support these alliances, he successfully worked with a variety of foundations including the Robert Wood Johnson, American Legacy, WK Kellogg and Josiah Macy Jr. Foundations.

On a more individual level, Dr. Valachovic has spearheaded the creation of the Commission on Change and Innovation in Dental Education; several international women's leadership conferences; and the first ever Global Congress on Dental Education.

Prior to his work at the ADEA, Dr. Valachovic was an associate professor at the Harvard School of Dental Medicine, and served as dean for clinical affairs, dean for government and community relations, and director of postdoctoral education. He was on the

medical staffs of several major teaching hospitals in New England and served as chief of the dental service at the Harvard University Health Services.

He entered dental school with a bachelor's degree from St. Lawrence University and after attaining his DMD degree, earned MPH and Sc.M. (Health Policy and Management) degrees from the Harvard School of Public Health. He completed postdoctoral education and residency training in dental public health and pediatric dentistry at Harvard University and the Children's Hospital Medical Center in Boston. He is board certified in oral and maxillofacial radiology.

Dr. Valachovic is the principal author of more than 100 original manuscripts, book chapters and monographs. He is president of the ADEA Gies Foundation. He served as the executive director of the International Federation of Dental Educators and Associations, which represents 11 associations of dental schools and educators worldwide. He is also the immediate past president of the Federation of Associations of Schools of the Health Professions.

Dr. Valachovic has been invited to speak throughout the world on issues of dental education and higher education. Of note, he has served as the commencement speaker for graduation ceremonies at 30 dental schools. Through all of this, he has carried the UConn banner high and often publically refers to his UConn education as the most significant influence in his professional development.

RECESSIONAL

The Academic Gowns, Hoods and Regalia represent more than elegance or colorful attire. Academic caps and gowns continue a tradition which reaches far back into the early days of the oldest universities of the Middle Ages. The early European universities were founded by the church; the students, being clerics, were obliged to wear prescribed gowns and caps at all times. Caps and gowns were once common forms of clothing and were retained by the clergy when the laity adopted more modern dress. Though some universities here and abroad have other colors, the usual color for gowns in America is black. Hoods are lined with the official color of the college or university which conferred the degree. The velvet edging of the hood varies in length for bachelors, masters, and doctoral degrees. The color represents the appropriate degree. Mortar boards (caps) are usually black. The tassel for the Bachelor's and Master's degree may be of color distinctive to the degree, and the tassel for the doctoral degree may be made of gold thread. The gown and hood of the University Marshal were made specifically for University ceremonies in the official colors of national flag blue and white. The Processional Marshals wear blue velvet "beefeater" berets.

The Mace is presented at all academic ceremonies. In medieval times maces were weapons of warfare, but today a mace is "a staff borne by, or carried before, a magistrate or other dignitary as an ensign of his authority." It is the emblem and symbol of the President's authority to administer the University. This mace was first used at the Inauguration of President Homer D. Babbidge, Jr. on October 20, 1962. It was designed by Nathan Knobler, former head of the Department of Art. The University's early seal, executed in beautiful wood carving, appears on both faces. A penny dated 1881 is affixed to it, to commemorate the date of the University's founding.

The Baton, carried by the University Marshal, was specifically designed for ceremonial activities at The University of Connecticut and was first used at the Commencement in 1968. The Office of Marshal can also be traced back to the medieval period, and the Baton is a symbol of the Marshal's authority. This Baton has silver mountings and is surmounted by a representation of the University's former seal in enamel, which

itself incorporates the coat of arms of the State of Connecticut. The University Marshal, carrying the Baton, follows the Mace Bearer as she leads the academic procession into and out of the place of ceremony.

The Silver Collar/Medallion, worn by Susan Herbst, President, was first used in 1964, at the time of the University's Silver Anniversary. Each link on the collar represents one of the University's Schools or Colleges and consists of a cloisonné circle engraved with an appropriate design for the particular school and enameled with its traditional school or college colors. Hanging from the chain is a large silver medallion containing the University's early seal.

The Awarding of Degrees at the University of Connecticut is accomplished by a twofold process. First, the candidates for degrees of each respective school or college are presented by the University Marshal. The candidates proceed to the front, receive their diplomas, are congratulated by their administrative officers and return to their seats. The School or College Marshal then officially presents the candidates to the Dean who acknowledges the candidates and declares the appropriate degree. Second, when all candidates have been duly presented, the President of the University formally confers the appropriate degree. This is accomplished verbally at the time that he speaks the words:

"By virtue of the authority vested in me by the Trustees of The University of Connecticut, and in accordance with the procedures and regulations of the University, I confer upon you the Associate's Degree, appropriate Bachelor's Degree, Master's Degree, Juris Doctor, Doctor of Dental Medicine, Doctor of Medicine, Doctor of Musical Arts, Doctor of Nursing Practice, Doctor of Education, or Doctor of Philosophy for which you have been presented at this One Hundred and Thirty-Third Commencement of The University."

The Recessional of the officials and faculty is once again led by the Mace Bearer and University Marshal. The graduates, along with the audience, are requested to remain seated until the recessional is concluded.

Out of respect and courtesy to all graduates, participants and guests are requested to remain in their seats until the ceremony is concluded.

The flowers displayed during the ceremonies are from the University's Plant Science Department greenhouses.

COMMENCEMENT NOTES

Commencement Day at the University of Connecticut is a time of ceremony and pageantry, embracing traditions dating back to medieval times.

The University of Connecticut was founded as the Storrs Agricultural School in 1881 when the General Assembly accepted a gift of money and land from Charles and Augustus Storrs, natives of Mansfield. In 1893 when it became a land-grant college and officially opened to women, the name was changed to Storrs Agricultural College. As the mission of the institution grew, its name was changed in 1899 to Connecticut Agricultural College, and in 1933 to the Connecticut State College. At first a small but vigorous college with limited undergraduate offerings in agriculture, home economics and mechanical arts, with the development of a university program it became The University of Connecticut in 1939. The Graduate program began in 1935, and in 1949 the University awarded its first doctoral degrees. The regional campuses were established in 1946 to accommodate the influx of veteran students. Today, the University is made up of fourteen different schools and colleges. Through its administrative Divisions, Institutes, and Centers, the University is a Land Grant and Sea Grant College and a Space Grant Consortium Institution, privileged to serve the citizens of the State of Connecticut, and beyond.

Enormous expansion has taken place over the years together

with increased enrollment. Today, the University has an enrollment of over 30,500 students. At Storrs there are over 17,800 undergraduates and more than 6,645 graduate students, representing some 104 nations.

This May, the University will award over 7,635 degrees. Of these, approximately 5,288 will be Bachelor's degrees, 1,445 Master's degrees, 206 Juris Doctor degrees, 36 Master of Laws degrees, 94 Doctor of Pharmacy degrees, 47 Doctor of Dental Medicine degrees, 88 Doctor of Medicine degrees, 6 Doctor of Musical Arts degree, 5 Doctor of Audiology, 1 Doctor of Education degree, 5 Doctor of Nursing Practice, 16 Doctor of Physical Therapy, and 320 Doctor of Philosophy degrees. Also to be awarded are 56 diplomas in Professional Education and 24 Associate's degrees in the two-year Ratcliffe Hicks School of Agriculture.

The Commencement Ceremony, because of the large number of graduates, is divided into separate exercises, by college or school. The Schools of Dental Medicine and Medicine, located at the University's Health Center in Farmington, and the School of Law, located in Hartford, hold their own exercises. The Commencement procession in each of the exercises at Storrs is heralded by the ceremonial trumpets, acquired especially for the University's commencement.

The Academic Procession is led by the Bearer of the Mace, followed by the faculty. The University Marshal, identified by his Baton, follows the President, together with the speaker, the Board of Trustees, vice-presidents, deans, and other University officials. The Mace is presented at the center of the stage while members of the platform party enter and take their places. Once the Mace is placed on the stand, it signals the beginning of the ceremony.

The Academic Gowns, Hoods and Regalia represent more than elegance or colorful attire. Academic caps and gowns continue a tradition which reaches far back into the early days of the oldest universities of the Middle Ages. The early European universities were founded by the church; the students, being clerics, were obliged to wear prescribed gowns and caps at all times. Caps and gowns were once common forms of clothing and were retained by the clergy when the laity adopted more modern dress. Though some universities here and abroad have other colors, the usual color for gowns in America is black. Hoods are lined with the official color of the college or university which conferred the degree. The velvet edging of the hood varies in length for bachelors, masters, and doctoral degrees. The color represents the appropriate degree. Mortar boards (caps) are usually black. The tassel for the Bachelor's and Master's degree may be of color distinctive to the degree, and the tassel for the doctoral degree may be made of gold thread. The gown and hood of the University Marshal were made specifically for University ceremonies in the official colors of national flag blue and white. The Processional Marshals wear blue velvet "beefeater" berets.

The Mace is presented at all academic ceremonies. In medieval times maces were weapons of warfare, but today a mace is "a staff borne by, or carried before, a magistrate or other dignitary as an ensign of his authority." It is the emblem and symbol of the President's authority to administer the University. This mace was first used at the Inauguration of President Homer D. Babbidge, Jr. on October 20, 1962. It was designed by Nathan Knobler, former head of the Department of Art. The University's early seal, executed in beautiful wood carving, appears on both faces. A penny dated 1881 is affixed to it, to commemorate the date of the University's founding.

The Baton, carried by the University Marshal, was specifically designed for ceremonial activities at The University of Connecticut and was first used at the Commencement in 1968. The Office of Marshal can also be traced back to the medieval period, and the Baton is a symbol of the Marshal's authority. This Baton has silver mountings and is surmounted by a representation of the University's former seal in enamel, which

itself incorporates the coat of arms of the State of Connecticut. The University Marshal, carrying the Baton, follows the Mace Bearer as she leads the academic procession into and out of the place of ceremony.

The Silver Collar/Medallion, worn by Susan Herbst, President, was first used in 1964, at the time of the University's Silver Anniversary. Each link on the collar represents one of the University's Schools or Colleges and consists of a cloisonné circle engraved with an appropriate design for the particular school and enameled with its traditional school or college colors. Hanging from the chain is a large silver medallion containing the University's early seal.

The Awarding of Degrees at the University of Connecticut is accomplished by a twofold process. First, the candidates for degrees of each respective school or college are presented by the University Marshal. The candidates proceed to the front, receive their diplomas, are congratulated by their administrative officers and return to their seats. The School or College Marshal then officially presents the candidates to the Dean who acknowledges the candidates and declares the appropriate degree. Second, when all candidates have been duly presented, the President of the University formally confers the appropriate degree. This is accomplished verbally at the time that he speaks the words:

"By virtue of the authority vested in me by the Trustees of The University of Connecticut, and in accordance with the procedures and regulations of the University, I confer upon you the Associate's Degree, appropriate Bachelor's Degree, Master's Degree, Juris Doctor, Doctor of Dental Medicine, Doctor of Medicine, Doctor of Musical Arts, Doctor of Nursing Practice, Doctor of Education, or Doctor of Philosophy for which you have been presented at this One Hundred and Thirty-Third Commencement of The University."

The Recessional of the officials and faculty is once again led by the Mace Bearer and University Marshal. The graduates, along with the audience, are requested to remain seated until the recessional is concluded.

Out of respect and courtesy to all graduates, participants and guests are requested to remain in their seats until the ceremony is concluded.

The flowers displayed during the ceremonies are from the University's Plant Science Department greenhouses.

ACADEMIC HONORS

University Scholar

The University Scholar designation is the highest scholastic honor at the University. The individualized undergraduate programs of these students, which in some cases include work toward a graduate degree, are supervised by faculty committees. Up to thirty students are selected as University Scholars in the junior year. Candidates for the University Scholar designation wear medals on gold and blue ribbons at the Commencement exercises.

Honors Scholar

Honors Scholars are outstanding students who complete intensive two- or four-year programs, including Honors courses of unusual breadth and depth. Honors requirements include a senior thesis in the major field. Candidates for the Honors Scholar designation wear medals on blue and white ribbons at the Commencement exercises.

THE GRADUATE SCHOOL

The parenthetical indication of a conferral date following a degree recipient's name signifies confirmed completion of degree requirements. If no conferral date is indicated, completion of degree requirements could not be confirmed at press time. Conferral of a degree is contingent upon verification by the Graduate School that a student has completed all requirements.

Stanislas Renard, in Music: Performance
Co-Major Advisors: Theodore E. Arm and Eric Rice
Doctoral Dissertation: The Contribution of the *Laütari* in
the Compositions of George Enescu: Quotation and
Assimilation of the *Doina*

Carlynn H. Savot, in Music: Performance (August 24, 2011)
Co-Major Advisors: Kangho Lee and Alain Frogley
Doctoral Dissertation: Rebecca Clarke's Sonata for Viola
and Piano: Analytical Perspectives from Feminist
Theory

Matthew Joseph Smith, in Music: Conducting
Co-Major Advisors: Peter Kaminsky and Jeffrey H.
Renshaw
Doctoral Dissertation: The Piccador March and Nymphalin
of John Philip Sousa: Transcription and Editions for
Historically Informed Performance

DOCTOR OF NURSING PRACTICE

Susan Marie D'Agostino, in Nursing
Major Advisor: Elizabeth Anderson
Doctoral Dissertation: Improving Adult Pertussis Vaccination Rates by Using EMR Provider Prompts

Ceilia Marie Gote, in Nursing
Major Advisor: Elizabeth Anderson
Doctoral Dissertation: Impact of an Integrated Healthcare Delivery Service on the Care of Patients with Co-Morbid Diabetes Mellitus and Major Depressive Disorder

Kimberly Ann Joerg, in Nursing
Major Advisor: Sandra L. Bellini
Doctoral Dissertation: Assessment and Early Identification of Overweight Children in Primary Care

Mary Patricia Lamberti, in Nursing (May 5, 2012)
Major Advisor: Amy L. Keneflick
Doctoral Dissertation: Improving Sleep in College Students: An Educational Intervention

Susan H. Lynch, in Nursing (May 5, 2012)
Major Advisor: Elizabeth C. Polifroni
Doctoral Dissertation: Nurses' Beliefs about and the Use of Evidence-Based Practice

DOCTOR OF PHILOSOPHY

Shermeen Aryn Abbas, in Pharmaceutical Science: Pharmaceutics (December 18, 2011)
Major Advisor: Devendra S. Kalonia
Doctoral Dissertation: Investigation of the Effect of Polyols on the Conformational and Solution Phase Stability of Aqueous Antibody Formulations

Mua'ad Majed Abu-Faraj, in Computer Science and Engineering
Major Advisor: Ian R. Greenshields
Doctoral Dissertation: Architectural Considerations for an Out-Of-Core Shared Dynamically Reconfigurable Fabric

Catherine O'Connor Adams, in Biomedical Science: Cell Biology
Major Advisor: Robert B. Clark
Doctoral Dissertation: T Cell Abnormalities in Cbl-b Deficient Mice

Suk kyun Ahn, in Polymer Science (August 24, 2011)
Major Advisor: Rajeswari Kasi
Doctoral Dissertation: Side-Chain Liquid Crystalline Polymers as Stimuli-Responsive Materials

Karen Ann Aicher, in Psychology: Language and Cognition
Major Advisor: Jay G. Rueckl
Doctoral Dissertation: The Influence of Word Form on the Acquisition of Meaning: An Adult Word Learning Study

Jessica Alicea-Planas, in Nursing (May 5, 2012)
Major Advisor: Patricia J. Neafsey
Doctoral Dissertation: Chronic Disease Management through Goal-Setting for Latino Populations

Fuad Hussein Al-Amoody, in Electrical Engineering: Electronics and Photonics (August 24, 2011)
Major Advisor: Faquir C. Jain
Doctoral Dissertation: ZnxCd1-xSc/ZnyCd1-ySe Cladded Quantum Dot Based Electroluminescent and Nonvolatile Memory Devices

Woo-Sun An, in Electrical Engineering (December 18, 2011)
Major Advisor: Krishna R. Pattipati
Doctoral Dissertation: Hidden Markov Model-Based Formulations of Sensor Scheduling in Dynamic Environments

Cheryl Marie Palacay Andam, in Microbiology (August 24, 2011)
Major Advisor: Johann P. Gogarten
Doctoral Dissertation: Horizontal Gene Transfer and the Evolution of Aminoacyl-tRNA Synthetases

Gilbert Andrada, in Educational Psychology: Measurement, Evaluation, and Assessment (December 18, 2011)
Major Advisor: Hariharan Swaminathan
Doctoral Dissertation: Bias and Standard Errors of Vertically Scaled Tests

Ekim Arbatli, in Political Science (May 5, 2012)
Major Advisor: Oksan Baytilgen
Doctoral Dissertation: Oil and Democratic Politics: Exploring Energy Decisions in Russia and Venezuela

Kasey Lynn Baker, in Physiology and Neurobiology: Neurobiology (August 24, 2011)
Major Advisor: Joanne Conover
Doctoral Dissertation: The Subventricular Zone Microenvironment and Its Regulation

H. M. Dhammika Bandara, in Chemistry (August 24, 2011)
Major Advisor: Shawn C. Burdette
Doctoral Dissertation: Investigating the Photochemistry of Azobenzene and Nitrobenzyl Compounds

Subhadeep Banerjee, in Chemistry (August 24, 2011)
Major Advisor: Christian Brueckner
Doctoral Dissertation: Porphyrin N-Oxidations and β,β' -Bond Modifications

- Ashley Bartelson**, in Chemistry (August 24, 2011)
Major Advisor: William F. Bailey
Doctoral Dissertation: *Part I:* Novel Reactions of Oxoammonium Salts in the Presence of Base, and *Part II:* Behavior of Ketones and Thioketones with Organometallic Compounds
- Ana Claudia Bastos-Gee**, in Linguistics (December 18, 2011)
Major Advisor: Zeljko Boskovic
Doctoral Dissertation: Information Structure within the Traditional Nominal Phrase: The Case of Brazilian Portuguese

The official seal of the University of Connecticut depicts the ancient and mighty oak. Beautiful and sacred, the venerable oak symbolizes wisdom, longevity and hospitality. To Aristotle, the oak represented human potential.

The oak holds a special place in Connecticut's history. In a time long before statehood, the Connecticut colony's self-governing status was guaranteed by a charter issued by King Charles II of England. When, in 1687, his successor King James II attempted to reinstate the monarchy's authority, the Crown's emissary's efforts were foiled as the Royal Charter was secretly spirited to a temporary hiding place—a majestic oak in Hartford, forever after known as the Charter Oak. The oak became a symbol of freedom worldwide.

The oak has unique meaning for the University as well. In 1884, the commencement exercises of the second graduating class of the Storrs Agricultural School were held in an oak grove on the Storrs campus. This grove, long a favorite gathering place for a variety of open-air meetings, served as the spiritual home to the growing community of scholars.

The University of Connecticut's graphic interpretation of the oak is a stylized synthesis of two acorns and three oak leaves, representing maturation, intellect and moral strength. The seal is the symbol of a large and diverse institution; it is used by all of the University's schools, colleges, regional campuses, professional schools and its Health Center. It communicates the broader mission of the University as a center for the pursuit, the creation, and the sharing of knowledge. The University of Connecticut, like the mighty oak, is rooted in a proud past and reaches toward a limitless future.
