Design-In SSDs

Perfect storage solutions for system designers and builders

Kingston® offers a line of design-in SATA and NVMe solid-state drives created specifically for system designers and builders.
The line includes
• SATA 2.5-inch, mSATA, M.2 2242 and M.2 2280
• PCIe Gen. 4 NVMe: M.2 2280, M.2 2230
• PCIe Gen. 3 NVMe BGA
Design-in SSDs incorporate advanced controllers that automatically perform wear-levelling, garbage collection and other NAND Flash management features. They are a drop-in replacement for hard drives and deliver up to 20x greater performance as well as high reliability. Design-in SSDs incorporate next-generation 3D NAND Flash.

KEY BENEFITS

System designers and builders rely on consistent storage products. Kingston offers the following benefits with the Design-In SSD product line:

• Controlled BOM and firmware — Ensures there are no changes to key components after customer qualification.

• PCN support — All generational changes and firmware updates are handled through a controlled and timed process.

• Engineering support — Customers have direct contact with their regional Kingston Field Application Engineering teams to ensure a fast response to storage requirement questions and support requests.

• Global support — Kingston can coordinate SSD deliveries with a customer's Original Design Manufacturers (ODMs) or Contract Manufacturers (CMs) in other regions of the world, if required.

• Warranty* — For peace of mind, our Design-in SSDs are backed by a limited three-year warranty and free technical support.
