

Table with columns for dates (日), days of the week (曜), and months (4月 to 3月). Each cell contains a grid of activities (事業内容) and their status (給食の有無). The table is organized into a grid where rows represent dates and columns represent the day of the week and month. Each cell contains a specific activity or event, often with a circled letter (A, B, C) indicating the school day and a symbol (circle, square, triangle) indicating the presence of school lunch. The activities include safety checks, assemblies, sports, and cultural events.
