A NOTE FROM THE EDITOR

The great success of the 1964 Guild Guide has encouraged us in our belief that a guide of quality will ultimately prevail over those inferior items which have flooded the market. The care with which the 1964 Guide was edited resulted in a remarkably small number of corrections being needed. This same thoroughness and care have gone into the making of this new 1965 edition.

We are well aware that there are both cheaper guides and more expensive ones; we do not believe that any of them compare remotely favorably with the Guild Guide. We have not included superfluous entries in an effort to "beef up" our work. We have made every effort to verify the accuracy of the information received. Where there were states and areas not well represented, we wrote to friends and customers in these areas and corrected the deficiencies.

Despite all precautions, there will be some errors in these pages. We hope that you will send us corrections, no matter how minute, and that you will send in additions and deletions. We are particularly anxious that each listing be listed correctly, that the street address be exact and that a telephone number be provided. We hope your cooperation will make this possible.

We expressed the hope last year that we would be able to provide listings for isolated areas and for smaller towns. We have gone far toward achieving that goal, but there is much room for improvement and we must rely upon our readers to provide the information which will close this gap. We are always anxious for listings and corrections anywhere in the world, but resort areas, college towns and areas with military installations are of particular interest to vacationers.

We have introduced a coding system and some entries are already coded. It will take many editions of the Guide before all entries are coded and here again we must ask your help. We ask our readers to realize that there will be differences of opinion with respect to coding, but do send in the coding that you would use for any particular bar. We will do our best to arrive at a consensus of opinion. Inevitably, different users of this Guide will have varying experiences at any given bar. However, over a period of time, we should be able to provide a reasonably accurate classification of the listings.

The code is as follows:

- AYOR: "At your own risk" Designates an entry where you might like the people there, but it is highly questionable that they will like you.
- B: "Beer" No other alcohol served.
- C: "Colored" Predominately, but not exclusively.
- D: "Dance" Individuals of the same sex may do so.
- E: "Elegant" Coat and tie.
- G: "Gay"
- H: "Hustlers"
- L: "Lesbian" Not always strictly, but predominately.
- LJ: "Leather jacket" Also implies S-M.
- M: "Mixed" Appears straight but sufficiently active to make it worthwhile.
- P: "Private" Members only.
- RT: "Rough trade" If the atmosphere is very tense, add a hyphen and the AYOR classification!
- S: "Show" Has drag and/or other appropriate entertainment.
- WE: "Week-ends" Not too active otherwise.
