

AIOD

There is no “membership into AWD”

You are not “Joining AWD” you are making your own cell

We will not network you with other cells, we will not recognize your cell prematurely. We will disavow you if you disgrace the patch, and it will be done immediately.

We are advisors on cell creation, we will recognize effort and work towards the cell you create under your own leadership

What does AWD promote?

We promote self producing cells, by strict standards

We will recognize the achievements by these cells, upon completion of their trial stage, we will patch them in and recognize them as a fully autonomous cell.

We disapprove of online vetting, we disapprove of unguided cells

Religions allowed?

Secular org (AWD)

Only European Religions

Satanism is a non-white religion // Islam is a non-white religion

We disavow both

AWD Oath

As a Soldier of the Atomwaffen Division
having taken up arms, I SOLEMNLY SWEAR

MY HONOR AND CONSCIOUS TO THE GREAT
ARYAN RACE. TO THE SHED OF BLOOD OF ALL MY
PREDECESSORS AND ANCESTORS,
AND TO THE SUPREME IDEOLOGY OF
NATIONAL SOCIALISM

I WILL FIGHT FOR THE COMPLETE ANNIHILATION
OF ALL ENEMIES OF THE TOTAL
NATIONAL SOCIALIST REVOLUTION

IN THIS FIGHT I WILL SPARE NEITHER
BLOOD NOR LIFE
AND I WILL FIGHT UNTIL THE LAST BREATH AND THE
FINAL VICTORY OVER ALL
ENEMIES OF THE ARYAN RACE

I WILL BE AN HONEST, DISCIPLINED AND
HONORABLE WARRIOR OF THE REVOLUTION.
COURAGEOUS AND BRAVE IN BATTLE
MERCILESS TOWARDS ALL ENEMIES OF
THE ARYAN RACE

I RENDER UNCONDITIONAL OBEDIENCE AS A
SOLDIER OF THE ATOMWAFFEN DIVISION. I SHALL
AT ALL TIMES BE PREPARED TO GIVE MY LIFE FOR
THIS OATH

General Orders

1st General Order

"I will guard everything within the limits of my post and quit my post only when properly relieved."

2nd General Order

"I will obey my special orders and perform all my duties in a military manner."

3rd General Order

"I will report violations of my special orders, emergencies, and anything not covered in my instructions to the commander of the relief."

4th General Order

"I will repeat all calls from posts more distant from the guardhouse than my own."

5th General Order

"I will quit my post only when properly relieved."

AWD

Cell Leader Notes:

Discipline is important, making troops memorize your SOPs, the OATH, and the General Orders establishes Discipline and Readiness.

When one fails to recite the required memorized passage, you must conduct physical corrective training. Physical discipline helps to instill knowledge in your troops.

Make little laminated cards with your cell's SOPs.

Recruitment should fall into the category of approaching others, not letting others approach you. They should be vetted before even knowing the cell exists.

"The soldier is the key to victory. Without him, no army will stand. Strength and endurance are his tools."

-Gaius Marius

How the cell Operates

Organizational Model:

Requirement	Purpose	Effect
Distributed Cells (2-10 people)	Keep groups small and separate	Prevents full compromise of network
No Central Leadership	Shared doctrine, not command structure	Decentralized, harder to target
Compartmentalization	Members know only their own cell	Limits damage if someone is exposed
Cover Identity	Cells operate as hobby groups (e.g. airsoft, hiking)	Prevents suspicion; legal appearance

The cell should be kept small, when operational it should stay at that set level. If the need to advance comes up, you can always create your own cell network using the same standards set before you, requiring that cell to reach the organizational minimum before being recognized

Cell leadership should be established operationally, but to prevent bad faith leadership from taking over, there should be a general sense towards who takes up the role naturally.(Cells may vary on needs)

How the cell Operates

Organizational Model:

Cells should know nothing about other cells, in the term of national events, cells should interact and train with one another, but should still mind their P's and Q's. There should be no slip up in a cell's operational security. The security of one brother affects the rest.

Cells are officially Mil-Sim. Embrace the term "LARP". "LARP"ing is legal, who cares what outsiders think. Go forth, organize, train, propagate.

"The guerrilla fighter is primarily a propagandist, an agitator, a disseminator of the revolutionary idea, who uses the struggle itself—the actual physical conflict—as an instrument of agitation."

- War of the Flea

By Robert Taber

Training & Doctrine (Legal and Standardized)

Requirement	Purpose	Effect
Shared Doctrine (SOPs, manuals)	Standardize tactics across all cells'	Enables autonomy with interoperability
Skill Trees / Task Lists	Choose from modules (comms, CQB, nav)	Flexibility + specialization
Train Under Legal Cover	Activities like first aid, orienteering	Stays within legal limits
Simulated Combat (e.g. airsoft)	Practice tactics without real weapons	No legal risk; realistic engagement scenarios

All cells will be given the same training doctrine, in order to create unity in cells when SHTF. This is a prepper cell network that will offer anonymity, uniformity, and purpose.

All cells need to have specailzied tasks for their members, assigning roles of CQB, Commo, LandNav. All members should have a general idea of the practice for ALL tasks in order to take over in the event of member KIA, however there needs to be specialized personnel.

Training & Doctrine (Legal and Standardized)

Training is legal, depending on what country, only certain kinds of training are legal. Train within the legal limits, never go outside.

You can play airsoft all day, and it's not illegal. Train like you fight (just don't become a weird fat airsoft nigger)

"There is no political solution to the problems we face today.

The System is corrupt to its very core and it cannot be voted out or reformed. Those who try are wasting their time and playing into the hands of the enemy. Real revolution comes only through blood and iron, through total commitment and total warfare against the existing order.

We must not be afraid of violence — we must embrace it as the only tool that history has ever proven to be effective in the creation of something new and better."

- SIEGE, James Mason

Communication- Secure, Anonymous, Discreet

Requirement	Purpose	Effect
End-to-End Encrypted Apps	Use Signal, Session, SimpleX	Prevent interception or tracking
Code Words / Signals	Obscure the purpose of messages	Maintains plausible deniability
No Cloud-Based Tools	Avoid Google Docs, online planning	Prevent leaks or hacks
Rotate Comms Platforms	Change methods over time	Reduces pattern detection or metadata collection

Signal is the easiest of the example here, however it utilizes a centralized server, so we would recommend against. SimpleX utilizes a decentralized E2E networking in order to communicate. We would recommend this the most for your cell's communication.

Never refer to your cell as anything damning, incriminating or eye raising.

Avoid cloud based tools, simply put, stay offline, use PGP when needed.

Communication- Secure, Anonymous, Discreet

“The youth are the key. They are not yet fully formed and have not been completely brainwashed by the System’s lies.

It is our job to reach them before the enemy does. We must give them meaning, direction, and purpose.

We must train them to become warriors, leaders, and revolutionaries.

We must break them free from the materialism and decadence of modern life and forge them into a new elite that will take the fight to the enemy without fear or compromise.”

- SIEGE

Mandatory Read

Note : **AWD** did not create the linked pdfs above

Additional resources below

<https://spyware.neocities.org/articles/> <https://coveryourtracks.eff.org/>

<https://eylenburg.github.io/index.html> <https://terriblelizard.info/links>

Identity Protection- Disappear in Plain Sight

Requirement	Purpose	Effect
Pseudonyms / Callsigns	Never use real names internally	Prevents linking to personal identity
Legal Face Covering	Use masks, scarves when allowed	Conceals identity in photos/video
No Phones at Training	Leave off or at home	Prevents GPS or microphone tracking
Secondary Devices	Legal burners or tablets	Avoid tracking main devices; reduce metadata

Self Explanatory, don't use real names, we are not contractors, we are not public. Use aliases, even if the aliases are alternative names.

Use a gator, less eye raising, especially since COVID. Never record without it, don't operate without it.

Leave personal phones at home

Identity Protection- Disappear in Plain Sight

Switch to GrapheneOS on a Pixel for your burner device. Set up a duress pin. Really for complete security, a cell leader should set up the GrapheneOS fun for those under them. Setting up the owner to prevent screenshots, prevent down loading apps, etc etc. Set up a profile for the member under them, and have the simplex account set up on that device only.

“It would be a breach of Organization discipline for a member of an underground unit to engage in any direct recruiting activity, however minimal.

That function has been relegated to the ‘legal’ units. The underground units consist of members who are known to the authorities and have been marked for arrest.

Their function is to destroy the System through direct action. The ‘legal’ units consist of members not presently known to the System.”

- The Turner Diaries

Physical Security: Remote and Defensible

Requirement	Purpose	Effect
Train in Remote Locations	Forests, hills, abandoned (legal)	Avoids public detection
Overwatch / Sentries	Always monitor perimeter	Early warning against approach
Red Team Drills	Test for own visibility	Improves stealth and escape readiness
Irregular Schedules	Change time, day, location	Prevents pattern-based tracking

Camping is not illegal, nor is training in the woods eye raising.

Avoid areas that are monitored by police presence.. Abandoned buildings can be good, but not if cops do checkups. Now they won't take you down for training, unless you're firing weapons. They will more than likely either give you a trespassing warning, nothing more.

Physical Security: Remote and Defensible

Red team drills are training exercises where a group — the Red Team — simulates an opposing force (OPFOR) or adversary to test the security, tactics, or readiness of another group — the Blue Team (your unit or cell).

“What we are fighting for is not just survival, but the restoration of racial order.

Nature has established a hierarchy, and that hierarchy has been inverted by the System’s lies.

There can be no peace, no harmony, until this natural order is re-established — through struggle if necessary. We are not equal.

We are not the same. And pretending otherwise is suicide.”
- SIEGE

Legal & Ethical Security: Stay Clean

Requirement	Purpose	Effect
Legal Activities Only	No weapons, explosives, or banned comms	Avoids legal action or surveillance
Plausible Deniability	Every action has a normal explanation	Protects group from scrutiny
No Online Declarations	No mission statements, manifestos, or public contact	Stays off the radar

No weapons where weapons are illegal, no explosives where explosives are illegal, etc etc

“We are just a mil-sim group. We are a normal prepper group. We are a larper group.”

No online presence that is traceable

“History has never been changed by the masses. It has always been the work of a small, dedicated elite — men of vision, courage, and iron will. Democracy is a lie because it puts power into the hands of the herd. Real change comes from above, imposed by force, not consent. If we are to win, we must become that elite. We must lead with strength, not with compromise. The future belongs to those who seize it.”

- SIEGE

Autonomy Support: Self-Reliant Cells

Requirement	Purpose	Effect
Independent Gear & Supplies	Medkits, food, radios, shelter	Each cell can sustain itself
Cross-Trained Members	Rotate roles (comms, nav, scout)	No role dependency; more resilience
Offline Knowledge Base	Print manuals, carry SOPs	Not reliant on internet / cloud
Fallback Protocols	Use dead drops, map references	Maintain link if comms fail

Prep all materials needed for SHTF

Rotating roles allows the members to learn the specialized roles in the event of member death.

Self explanatory. Make little cards with SOPs for men

Have a fallout plan

“The guerrilla is the fish that swims in the sea of the people. His strength lies in his ability to win and maintain the support of the people.”

-War of the Flea

Fitness Test

# Test	Purpose	Minimum Standard	Top Target
1 2 Mile Run (3.2 km)	Cardiovascular endurance	♂ ≤ 15:00 ♀ ≤ 15:30	♂ ≤ 10:30 ♀ ≤ 12:30
2 Max Push-Ups (2 min)	Upper-body endurance	♂ 40 ♀ 30	♂ 70+ ♀ 40+
3 Max Sit-Ups (2 min)	Core strength	♂ 50 ♀ 40	70+ (all)
4 Bear Crawl (50 m)	Mobility, core, shoulders	≤ 60 sec	≤ 40 sec
5 Burpee Gauntlet (30 reps)	Explosive power, anaerobic capacity	≤ 3:30	≤ 2:00
6 Wall Sit or Static Squat Hold	Isometric leg endurance	90 sec	3 min
7 Ruck-Run / Sprint (2 km)	Final endurance + mental toughness	≤ 12:00	≤ 9:00

In addition to this comes Mental Health, next page ->

Mental Health

An operator must showcase not only sanity but something to ground him.

A requirement is not only belief in the 14 words, but enacting them.

All candidates for cell recognition and getting patched in, must showcase to an advisor some form of relationship status/history.

We will not patch in candidates who have never held a relationship.

Non-Negotiable

“What we are fighting for is not just survival, but the restoration of racial order.

Nature has established a hierarchy, and that hierarchy has been inverted by the System’s lies.

There can be no peace, no harmony, until this natural order is re-established — through struggle if necessary.

We are not equal. We are not the same. And pretending otherwise is suicide.”

Kit Guide

This is the mandatory loadout list-
<https://files.catbox.moe/dhdbhn.pdf>

Note: (Below) This is only a reference point to what should be expected when planning your kit. Nothing more.

View both as a good reference point towards a higher costing and lower costing kit setup.

JPC 2.0 Jumpable - <https://files.catbox.moe/8d8dkp.pdf>

Condor MOPOC (cheaper) - <https://files.catbox.moe/mv026z.pdf>

“Time and again, it becomes obvious that conventional armed forces have failed to suppress guerilla movements due to an inability or an unwillingness to understand that the struggle cannot be won by military means alone.

At root, guerrilla war is always about swaying the loyalties of the civilian population.”

- MacKenzie, S. P.

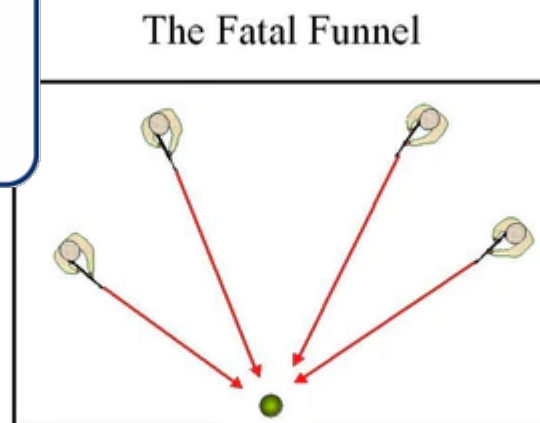

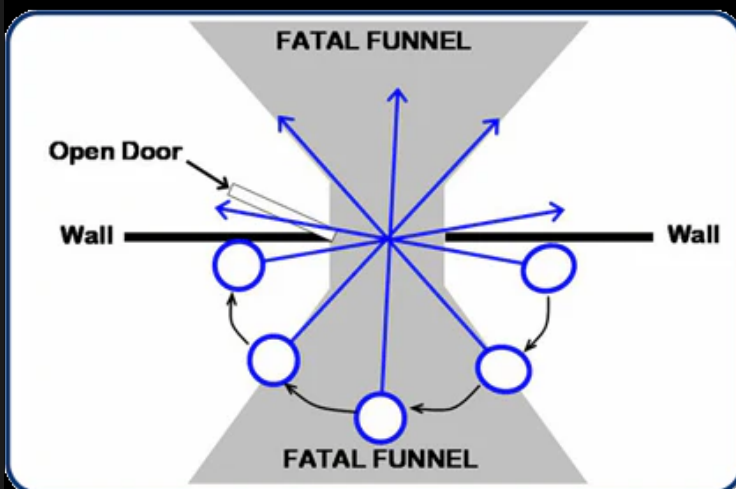

AWD

Training Guide

The following links will be a prerequisite of what we expect to be accomplished, learn and have individual units specialized in upon review for patching in.

Overall - <https://files.catbox.moe/h40e0n.pdf>
Mandatory for Recognition

It is important to note, war is rough, messy and in the field nobody really gives a fuck. CQB is more for law enforcement/conventional army/ hostage extraction. When in a war, you will be more inclined to huck a grenade into the room, or shoot through the wall instead of clearing it through the Funnel of Death.

Squad Structure

This will be a reference point to an unconventional unit in SOCOM.

Team Leader

Assistant Team Leader

Operations Sergeant

Assistant Operations Sergeant

Specialists (2 of each):

Weapons Sergeants – weapons and tactics experts

Engineer Sergeants – demolitions and construction

Medical Sergeants – combat medics

Communications Sergeants – radios and comms

End Note:

This guide will be made Publicly Available so others may start organizing their own cells without our direct assistance. We look to those who seek guidance in the creation of their cells, and will advise them on such.

When a cell has shown competency and successful structure with training, they will be recognized by the **AWD**.

Currently, our main forms of contact/viewing are as such
→ <https://archive.is/oqEPm>

We look forward to seeing those who will join our ranks.

Hail the Division
Hail Victory
