

The Dabbers - massive harassment group behind the harassing of multiple people, including Pyohato, and other small artists, an exposal, and information.

This whistleblower document will be updated as time goes on and new information is known, last being updated 09/08/2022, if you know any of these people, please stop talking with them and contact authorities. Do not attract their attention, they could very easily involve you or your friends in trouble. The group might fully collapse after this document.

Trigger warning: Porn, NSFW, Manipulation, Grooming, Pedophilia, Fetishization, Racism, Offensive Content.

I would like to start by saying that the trolls in this group have been harassing Pyohato since 2015, never giving up their acts, and only doing worse and worse. Recently they've started to also attack other small artists. I was once a member of this "clan" but have been kicked out. However I gained enough proof, and information to make this document. The group known as "The Dabbers" was formed back in 2016 by someone known as "noober84555" (now called "john fortnite kennedy") and another person called "Gnarly". This group has only done malicious acts, such as harassing people, trolling, doxxing, ddosing, hacking, among other things. The group has mostly targeted a forum known as SMWCentral by harassing the moderators and ddosing the website. Some of the members of the group were also behind the huge hijacking of garry's mod addons, with them being replaced with gore, and other inappropriate things and malicious scripts, so they definitely have a massive track record to follow.

Note: As of recent, me and a couple of friends have found out that john fortnite kennedy (@NebulaCunny1488) is indeed still around after having deleted one of the servers, having created a Kiwifarms account under the name "Pyohato" which can be found here (TW once again) -> <https://kiwifarms.net/members/pyohato.124796/>

These people have multiple servers and groups spread across discord, and other platforms they use for communication, some of them were "GNAA HQ", "Bread Getters", "roblox hq", "Wadanoharacord", and most recently "Hood". They do not usually organize these hate raids, and harassment publicly. They have secret channels and communication areas internally to organize them. The main harassers in this whole ordeal and malicious actors are john fortnite kennedy and Zephaniah.

The group has started crumbling after 6 years, with many members being kicked and one of the main discords (GNAA HQ) being deleted, due to bad management. This document is gonna start with some information on the members, since there's a lot of them (around 80 of them in a server. I won't be able to list them all, just the major ones) Currently they have not been trolling anyone, and have backed off due to more and more people figuring out who they truly are, but I think it's necessary to finally expose all of these wrongdoings, and

give a warning to everyone about who these people are and to stay away from them.

New information as of 09/08/2022

Someone has reported to me that John Fortnite Kennedy actually had swatted Zephaniah, calling the cops on him, and they actually went to his house. A video was recorded of the conversation between John Fortnite Kennedy and someone from the group after the information had come out that Zeph had been swatted, and someone who had saved it sent it to me. I have reuploaded it here for the sake of transparency.

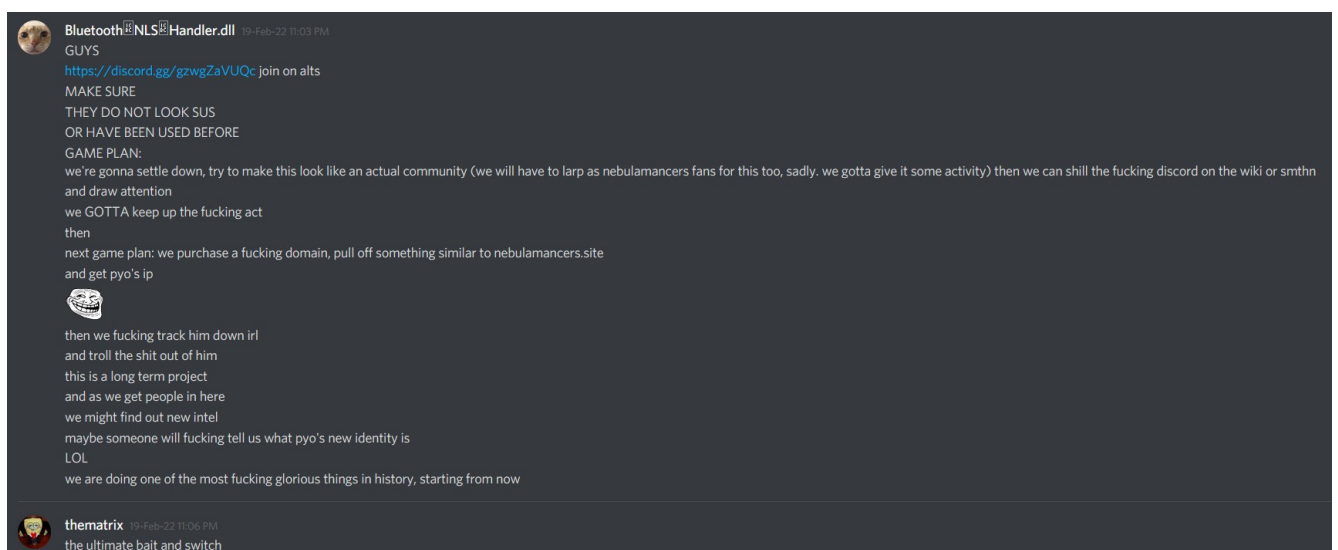

<https://drive.google.com/file/d/13vDbMdfjJ5rAQWsgCv0os1C72d2fGTVB/view?usp=sharing>

This is honestly extremely fucked up from the group's part. This only proves how far they will take things.

I've gotten in contact with a few victims of the harassment, and have gotten more updated information (I wasn't in much touch with the group, I never participated in anything, but I was there though), so the document has been updated a little to reflect this.

The group had also created a fake Nebulamancers community a few months ago, and advertised it on the wiki page. The game plan was to find out what Pyohato's new identity was (if he had any, but we all know that he basically left the internet after all of the harassment.)

If any of you, or your friends are currently endangered, please reach out to other people you can trust, and contact authorities if you know information on these people.

This is the person that mainly leads the group nowadays, they have been harassing pyohato since 2015, when they first started under the alias Pyokeke. There is no actual reason behind this trolling other than pure hate ("for the lulz" as they call it.) They have lied in the past about it being over them tracing "funamusea", but this isn't the case.

This person has done many horrible acts, manipulation, harassment, erotic roleplay, doxxing, drawing NSFW art (and fetish art of one of Pyohato's characters depicted in a underage manner, and wearing diapers), grooming, among others.

Exhibits:

however that doesnt take away the fact that pyo did infact see funamuseas take before even being aware of the roots

RADICAL_PROBLEMUSER_INCEL 25-Sep-21 09:52 PM

Nigga he's lying in 2015 he was saying that he knew what funamusea was
And asked everyone if his art was similar to it
in 2017 hes like "Wtf is funmausea what is wadanohara"
And in 2021 now hes aware of it again

Other notes:

This person has also been leading various ddos attacks on the website SMWcentral, mostly ddosing and malicious attacks. They are also known for having previously associated in the past with someone known as “AlexTheBodacious” who got arrested for possession of firearms and child pornography if that tells you anything.

They have also supposedly pushed someone to suicide by harassing them, but the details of this are also unknown.

-riki2321gamer/baloger/the man who sold the pyoworld/@ChungusPyo/The General/Flippy Mapper

This person is believed to be the same person as JFK, but this is unconfirmed as of now. Same acts here, they’re the one who made various harassment videos such as “Million Dollar Pyohato” and various of the exposed videos. Harassment, racism, etc.

-Gnarly/Triple Dabbity

This person is also a known harasser, mostly known for their activity on miiverse clones which has been documented (see

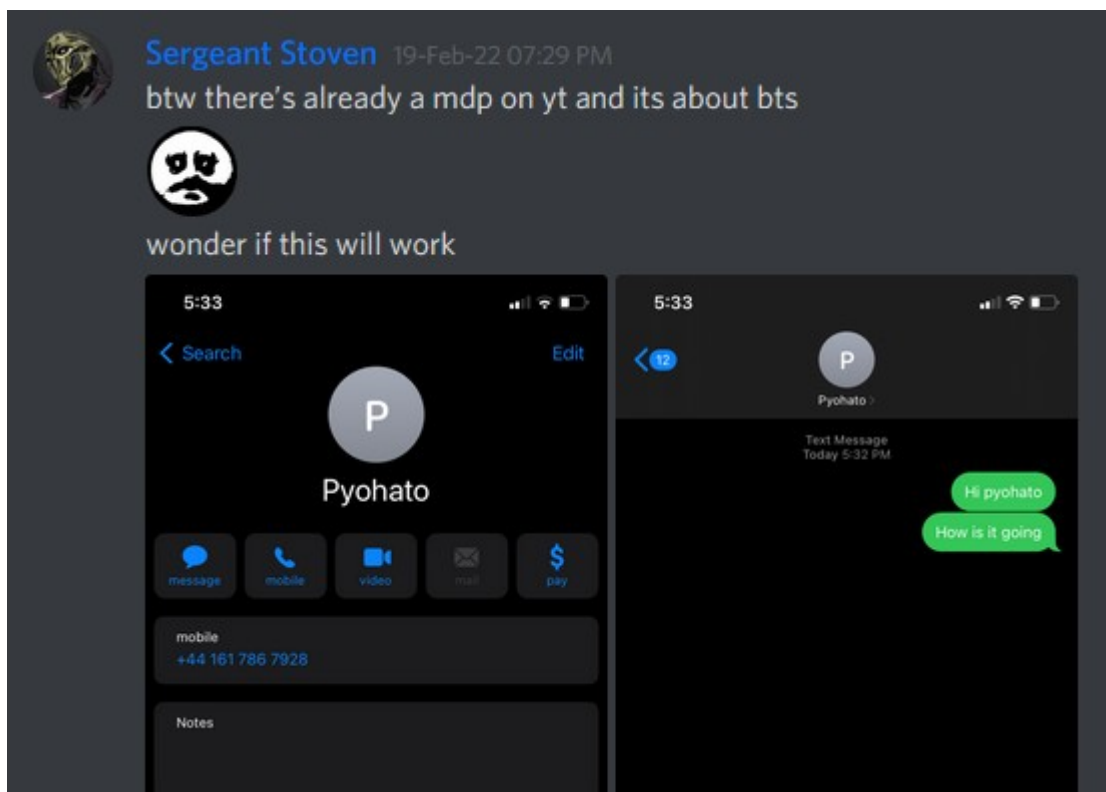

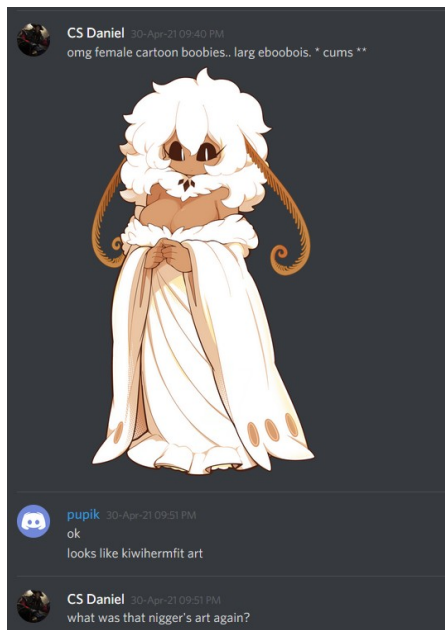

<https://sites.google.com/site/mvclonapedia/articles/users/gnarly>) and harassing

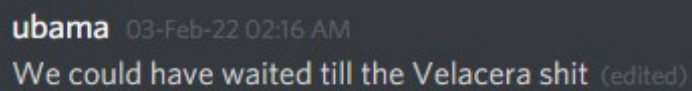

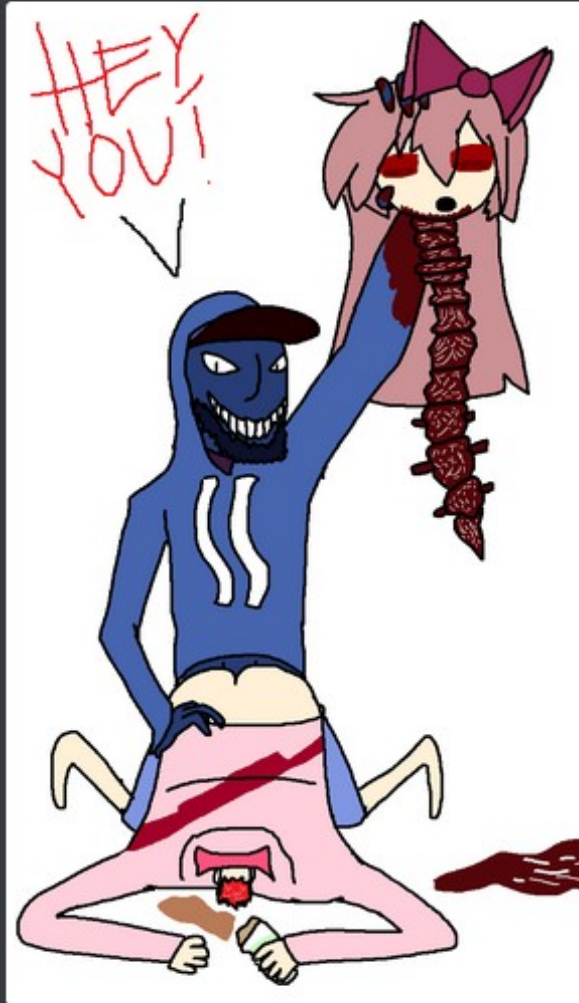

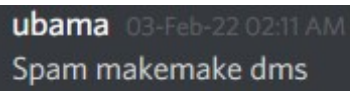

another artist known as SoulySoul who had ties to Pyohato and had drawn their characters before. I cannot provide much information on this one, but he is the co-owner of the group.

-Zephaniah/Zeph/Spencer Morgan

This is the third main harasser, recently he was doxxed by the group's members and kicked, which is why NebulaCunny1488 and him have shown no activity and locked their accounts. This person also participated majorly in the harassment starting from 2021, including starting a campaign on doxxing pyohato by figuring out their location, and contacting their internet provider. Other acts include extortion, drawing NSFW art, manipulation, etc.

Exhibits:

-Kekami/Makemake/Azarashi

This person also helped towards the harassment of pyohato back in 2020 and 2021. They have also been exiled from the group for supposedly grooming one of the members (who was known as eris), and he has been thrown under the bus for this too. There's varying proof of this, some made by JFK himself. Major acts include ip grabbing, leaking, commissioning NSFW art, and grooming. (Update as of 09/08/2022: most of the information in here is confirmed inaccurate, however being kept for transparency. This person has nothing to do with most of the incidents.)

Exhibits (including grooming, and allegations):

so what you're telling me is that what you did with eris it's right because you didn't know their age and acting gross in dms would have been completely fine without any form of asking or consent and just starting a gross discussion, that's what you're telling me, right?

kekami Today at 5:42 PM
hey man I just want this shit to stop one way or another
fuck it is I just couldn't since I don't see you fucking off otherwise
back in about 2013-2015 or so some gay or dtppe had groomed me, had kept me as friends for a while and started talking about sexual ass shit. I was young at the time and didn't know any better. this guy even made me go into like voice chats and shit with him where I very clearly could hear that he was old as fuck, probably like 20+ or something, he asked me for nudes a shit ton later on, and thank god I at least had the thought to not do that shit, but he kept asking a shit ton, kept telling him no then he pulled some "if we were friends you'd send it" bullshit, then started saying he'd stop being friends with me if I didn't. I mean now obviously I should've just told him to fuck off anyways but again I was young asf. so after that shit since I knew he did that shit to me since he knew I was young I started lying about my age and shit and saying I was older than I was. I just didn't want that shit to happen anymore. I was done with it. If people thought I was an adult these gross people wouldn't think to do that shit to me. that's why I despise people this much and hate being accused of being one, since im not. I'm not some pedo or groomer, im 16, and I was 15 while all of this shit happened back in 2021

I just want this to stop, please just leave us all alone

This person was the one who mainly led attention to the trolls to pyohato back in 2021 and 2020. He has drawn NSFW art of his characters, including a gif of one of Pyohato's characters in very inappropriate context. Doesn't have much involvement otherwise.

pyohato was all an elaborate ruse, he's not japanese, nebulamancers will not be a thing, he's not your idol and most definitely not the most dainty and lovely "artist" you will come across. he's a 20+ year old jamaican who migrated to the uk and formed an online presence to deteriorate his mental health. over the course of like years. he gets harrasment over the similarities of his shitty art he never anticipated for and decided to leave the internet "forever" but came back to fuck up even more and repeat the cycle. See kids? This is why you should never join the internet when you know it's not all cupcakes and rainbows, the allegory of the cave states that all of the majority are instilled with misinformation and virtue signaling from media other than the ones who seek the truth.

The house on 5233 Benjamin Ln, Sarasota, FL was built in the early 1920s and has been in the same family for three generations. It is a well-maintained, classic Sarasota residence with many of the original features still intact. The property includes a large backyard and a private pool. Spencer, the current owner of the house, is a third-generation Sarasota resident who loves spending time outdoors. When he's not enjoying the pool or the backyard, Spencer likes to cook and play video games.

-Gyula/TheGyula

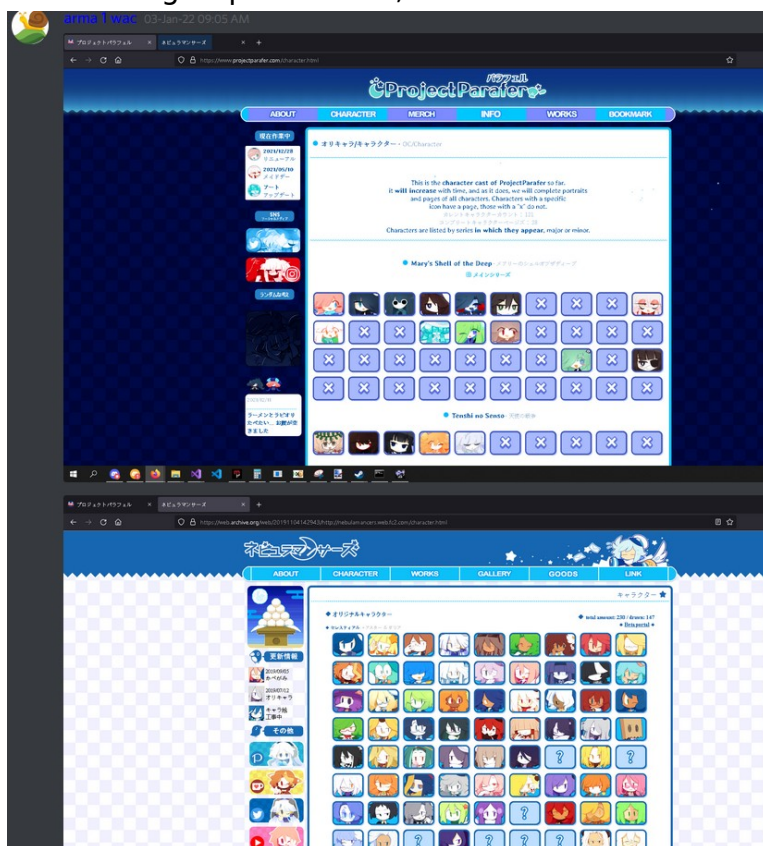

This person was also kicked off the group. Not much is known about them, other than the fact they made animations on newgrounds (see <https://gyularetard.newgrounds.com/>) harassing the creator of madness combat and making a highly racist animation called "Madness Fentanyl" that makes fun of George Floyd's death. They have also drawn NSFW art.

Exhibits:

-Lico/licool/Nothor

This person shortly participated in the group during ChungusPyo's trolling in 2021, mostly feeding information and leaking Pyohato's new account. This person runs a Pyohato/Funamusea clone called "Project Parafer" too. There is not much else. They were also thrown under the bus by them. I do not have the evidence at this moment, but people have reported this and believe that Lico is still in the group. However, this should be a telltale sign.

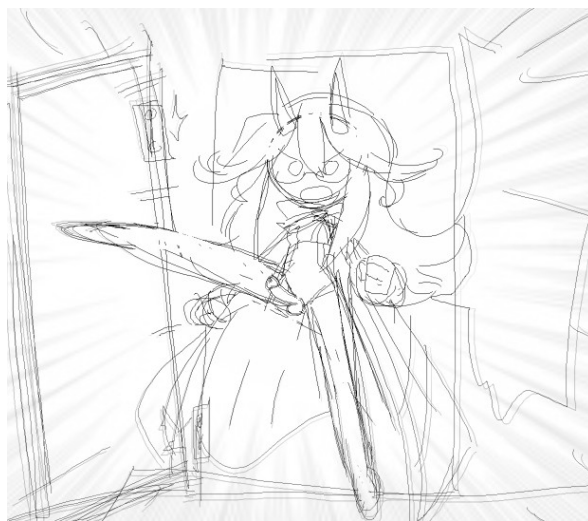

Pyohato harassment, doxxing plans, and other incidents (NSFW)

The dabbers have mostly partook in harassment of both Pyohato and Funamusea, in multiple forms. They have also made alternate accounts and fake identities to sneak themselves into the communities not revealing their true colors, often spying and sending screenshots to other members. This group is also behind the leaking of Pyohato's new account pkt23 as mentioned before (which is now deleted after the harassers contacted him and made a video, making fun of his situation), they've also drawn massive amounts of NSFW art of the characters (even the underaged ones). I'll be displaying all of these here for the sake of transparency.

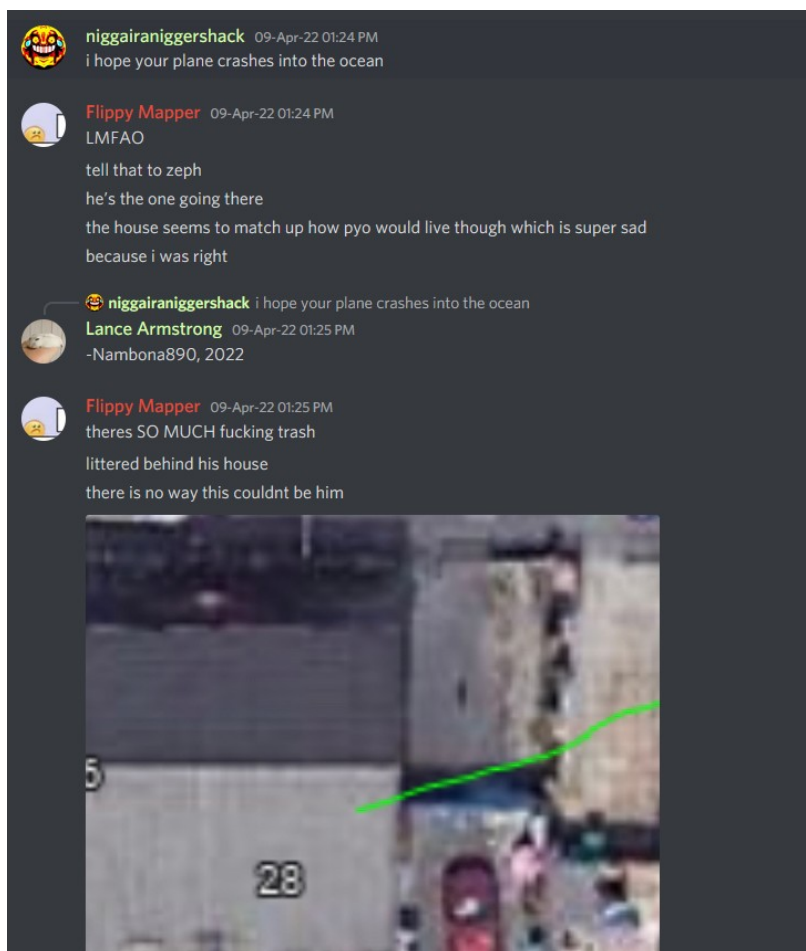

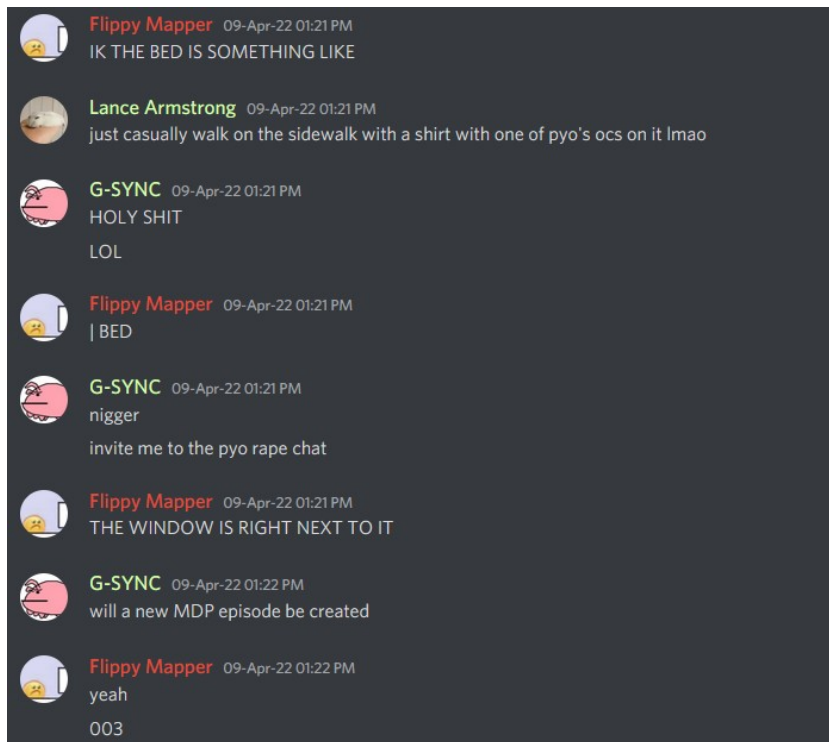

Most of these images were commissioned by Makemake. This is just a sample of the kind of art this group can manage to make. **Do not forget that the characters are underaged too. This is very blatant pedophilia, all under the guise of "lol this is funny we're bullying some retard artist who can't defend themselves xDDDD"**

hsk

Pyohato doxxing and trolling plans happened in the "GNAA HQ" server as mentioned above, in a private channel, an operation called "Operation Britbong". They supposedly found him, but this is unknown. Might have been a red herring of sorts.

Around this same time, john fortnite kennedy (who also started going by “Mars” at the time, supposedly did an erotic roleplay with Makemake, however this is

not fully proven, but according to his word, it apparently happened. Many screenshots were posted, but they went missing. This might have been a manipulation act to drive more people angry towards makemake.)

Closing words

I think this document is enough to get the word accross, these people are not to be trusted. If you're a small artist who ever had ties to Pyohato, or funamusea, please be careful. If you start getting harassed by this group of people (it is very easy to tell due to their humor and way of making jokes), lock your accounts and do not engage. These trolls will go as far as drawing NSFW art of you or your characters, pretending to be friendly to manipulate you into telling them stuff, attempting to dox you, among other things whenever they want to get you off the internet, or they think you're a roadblock to them. They are beating a dead horse at this point.

Please do not trust random people in these circles either. They have multiple people spying in various art groups, including Project Parafer's, Chao's group, and others so I've heard. Stay safe and good luck. I do not know what they will do against me (they will probably know who wrote this document).

This shit has to stop already.
