ANTON PUSTOVOYT

Empathic UX Designer with 3 years of experience within design, and over 5 years within IT. Combining technical knowledge with my design expertise, I've defined user experience for products across both web and mobile, helping companies to avoid common pitfalls and to understand their users.

EXPERIENCE

PRODUCT AND UX DESIGNER | KLARNA
2019 - current
Product and UX designer for banking as a service platform at Klarna, ensuring smooth user experience across all products.

UX DESIGNER CONSULTANT | AXAKON
2018 - 2019
Designed a multi-platform app product for a client, turning a complicated user flow into a smooth and intuitive experience. Helped clients define their needs through workshops, improved product insights through user research and developed brand guidelines for consistent communications.

WEB DESIGNER AND DEVELOPER | IGOMOON
2018
Designed and developed modern and mobile-friendly websites for a variety of clients, improving their user engagement and brand recognition.

DESIGNER | PIXEL NIGHT
2016 - 2017
Managed development of a video game as a designer and product owner, successfully taking the project from the initial idea to release on the market.

UX DESIGNER AND DEVELOPER | EVOLUTION AB
2016
Took charge of UX design and front-end development of a finance analytical application, redesigning interface for better user experience.

WEB DEVELOPER | SCHIBSTED
2015 - 2016
Was responsible for interface development of an international classifieds website, resulting in a more modern and responsive experience.
