

## Citybus Launches Route A28X via Central Kowloon Bypass Faster Travel from Tseung Kwan O to the Airport

(16 December 2025, Hong Kong) Citybus seizes the opportunity presented by the opening of the Central Kowloon Bypass (Yau Ma Tei section) and is delighted to announce the launch of the first airport bus route via this bypass—the Cityflyer A28X. Starting from 22 December (Monday), it will provide passengers from Tseung Kwan O and LOHAS Park with the fastest public transport option to the Airport and the Hong Kong-Zhuhai-Macao Bridge Hong Kong Port.

### Cityflyer A28X: The Preferred Choice for Early Flights and Airport Commuters

Citybus is enhancing our bus services between Tseung Kwan O and the Airport, in addition to the already popular Cityflyer A28 (connecting LOHAS Park to the Airport). From 22<sup>nd</sup> December, the new service Cityflyer A28X will offer more frequent early morning departures, further benefiting passengers from Tseung Kwan O, Tiu Keng Leng, Sheung Tak and LOHAS Park. Our new route will operate every weekday (Monday to Friday), taking advantage of recent infrastructure developments, including the Tseung Lam Highway and the Central Kowloon Bypass. Passengers can reach the Airport from LOHAS Park in just 45 minutes, making it less than twice as fast as other routes, and significantly quicker, more comfortable, and more cost-effective than using multiple transfers via the railway.

Route	Service areas	Time	Fare
Cityflyer A28X	Tseung Kwan O, Tiu Keng Leng, Sheung Tak and LOHAS Park	05:50, 06:35, 07:20 From Tseung Kwan O Station	\$ 44

Our new route will include a bus stop at Cathay City, catering to the commuting needs of Airport Island employees. Those using the "Designated Staff Fare Concessions Scheme" with an eligible Octopus card can enjoy fare reductions of up to 60%. Passengers can also opt for our "Cityflyer Pre-paid Return Ticket" at a 20% discount, enabling travel between the Airport and designated Cityflyer stops in the city for HKD 70. For further details on interchange options on Cityflyer A28X transfer discounts, passengers can visit the [Citybus website](#).

Citybus anticipates that the opening of the Central Kowloon Bypass will help alleviate traffic congestion in the Central Kowloon area. Routes passing through Lung Cheung Road, Argyle Street, Prince Edward Road West, Chatham Road North, Boundary Street, such as Routes 20, 20A, and 793, are expected to benefit from shortened travel times, thereby enhancing public transport efficiency. Furthermore, after the full operation of the Central Kowloon Bypass and the Trunk Road T2, Citybus plans to route the 795 service between Tseung Kwan O Industrial Estate and Cheung Sha Wan through the bypass.

For further enquiries, please visit the Citybus website at <http://www.citybus.com.hk> or download the Citybus Mobile Application to keep track of details and our latest updates on service information.

Established in 1979, through constant innovation and excellent service delivery, Citybus has grown to operate over 1,700 buses across Hong Kong Island, Kowloon and the New Territories and employs over 5,000 staff to serve over 1.1 million customers daily. We have an industry leading bus fleet with both electric and hydrogen buses, and the majority of buses operating at Euro5 emissions standard or above.

— End —
