The man with whom the president is conversing so amiably here (what kind of joke did they come up with?) is Fiorello LaGuardia, the mayor of New York - LaGuardia is half Jewish.

This picture shows LaGuardia opening a sports season at Yankee Stadium.

The current head of the United States of America, Franklin D. Roosevelt, has stated that he would be proud if he were descended from Jews; yes, he even refused to dismiss the possibility that his family could be traced back to Dutch Jews named Rosenfeld.

The mayor of New York is making outstanding efforts to ensure the welfare of his physical constitution. He's absolutely right: why let it go to waste when the unemployed of New York cannot afford to buy it anyway!

The President of the United States is stirring up hostility toward totalitarian states, which has not been provoked in any way by Germany or Italy. Serious men of integrity, not only in America, are raising their voices in protest against this unscrupulous and dangerous warmongering - here's what the well-known General [Hugh S.] Johnson writes in the "Washington Daily News":

"If, as President Roosevelt seems to fear, we are soon to have war, it will be our own fault, for no one intends to attack us. Unfortunately, there are enough people among us who are constantly beating the drums of war, thereby bringing even more unrest and confusion to our economy; these constant cries of alarm do the American people no service. The main reason for our enormous ignorance is the lack of confidence in the economy caused by Roosevelt's misguided policies; added to the uncertainty about taxes and other 'reforms' is now the fear of war, which is unbearable in the long run."

These few sentences soberly outline the entire misery of the United States under the Roosevelt regime - what did this man promise to a world that was listening attentively in 1933, and what did he deliver? His book "Looking Forward," published in the spring of 1933, when Roosevelt had just become president, describes the United States in a state of terrible neglect; in it, Roosevelt castigates the lazy excuses of American politicians for the crisis in the US, blaming the European nations as a "classic example of insolence."

Today, he points, without any shame, to "Nazis and fascists" and, with no less classic imagination, invents a threat of war against America by Hitler and Mussolini.

This claim by an American photo company that Fiorello LaGuardia, New York's mayor, has something “Napoleonic” about him is a little too Byzantine - the windblown hairstyle alone is not enough.

Like a madman, this man is rushing toward war just for the sake of being attacked. Two questions arise - first, what does the American people say about their president's delusion, and second, who are the people who enthusiastically support Roosevelt's disastrous policy? It is almost proven that the population of the states wants nothing to do with military involvement: The New York “Institute of Public Opinion” announced the results of a survey on the planned amendment to the North American Neutrality Act: 84% of respondents rejected the deployment of American troops and warships overseas.

Perhaps it is in keeping with the nature of the Jewish third of New York's population that their municipal leader behaves like a harlequin; of all people, they must surely find this grimace embarrassing.

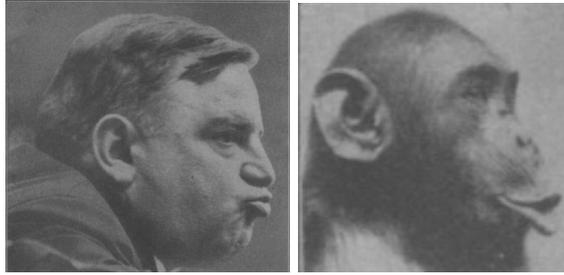

Just like in the old days, spokesmen for the “Workers' Party” look like this—and the workers they have seduced don't notice a thing! In 1936, Communist leader [Earl] Browder declared in a radio address that the Communists would vote for LaGuardia in the upcoming elections; LaGuardia's private secretary, a lady with considerable influence, is named Betty Cohen.

In an editorial, the “New York Daily News” commented on Roosevelt's warmongering:

“We regret that Roosevelt is behaving in this manner; we hope that Congress will remain calm even if Roosevelt loses his.”

Journalist G.R. Brown (Hearst), who protested against the 25% surcharge on German goods introduced by Roosevelt, describes the US president as a hysterical crusader who is driving the country to war.

Senator Borah also predicted that Roosevelt's policy was “the most effective method of involving America in a war.” - Major General Butler described the president as an imitator of Wilson: His plan, he said, was to unleash a war in Europe and remain neutral long enough to then intervene at the end and stand as the “savior of civilization” - “But,” Butler assured, “there will be no war in Europe unless Roosevelt pushes for it.”

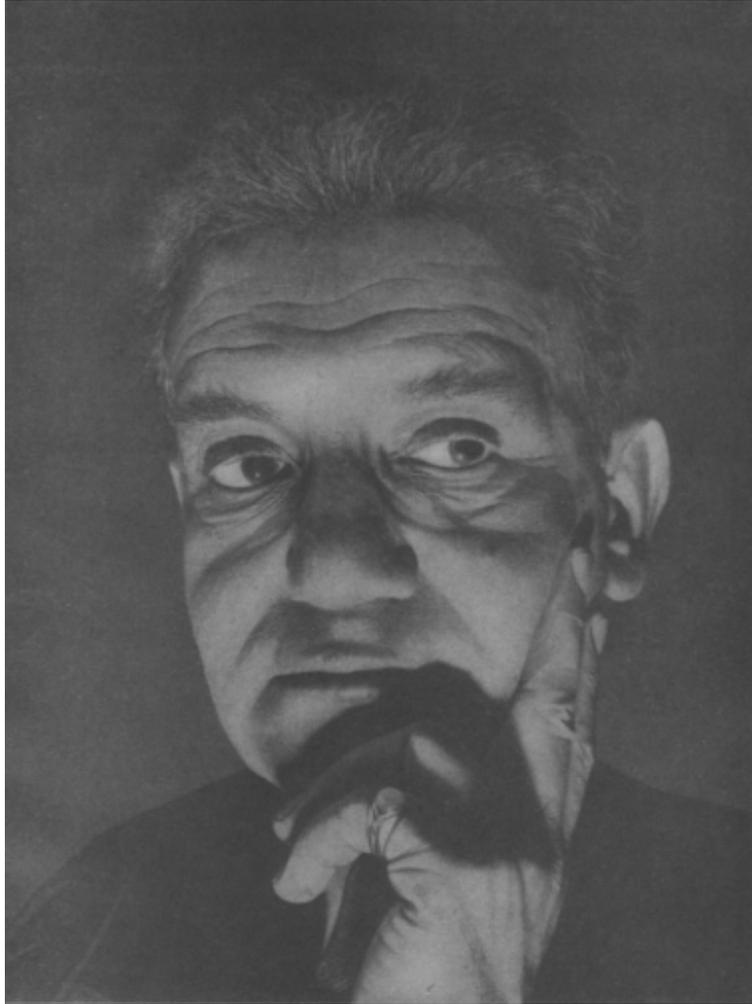

You don't need to be a zoologist to immediately spot the resemblance between this speaker's gesture, captured by a lucky camera, and a certain animal.

Roosevelt's keen interest in the European plutocrats' war against Germany is becoming clearer by the day. There are influential voices that have been levelling serious accusations against the highest official in the United States for years, claiming that he wants to start a war against the Axis powers for no good reason... One must look at the circles that surround the President of the United States; one must consider his advisors, the people he particularly trusts, to understand why and for what purpose "Mr. President" is sounding his hysterical war cries - the crusade desired by the Roosevelt clique is in reality a vendetta against the swastika!

This obscene insulter of the Führer was extremely unlucky: in 1937, he gave the Third Reich two more years to live - he is definitely the funniest of all these minor prophets.

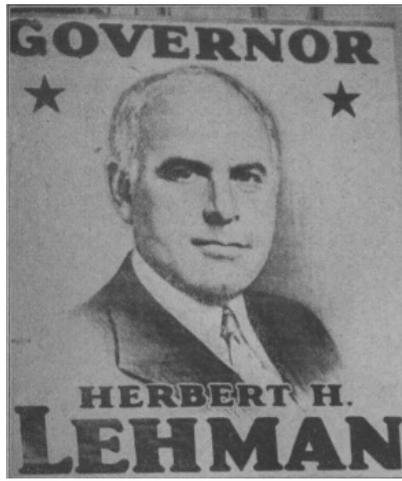

The Jewish judge: Markus Pecora

This corruption fighter threw a wrench in the efforts of prosecutor Dewey during a huge scandal trial surrounding James J. Hines, the head of Tammany Hall, the New York Democratic organization, when a conviction of Hines seemed inevitable; the trial was then “cancelled.” (A. Ey in “Angriff”). Hines, finally convicted, was nevertheless released!

*(How did artists come up with the image of the devil?
I can sense it: a Jew posed as a model here!)*

“There is a people in America that nobody really knows—that is the Jewish people.”
- *The Jew Dr. S. Margoshes, editor-in-chief of the “Jewish National Day”*

A telling example of the camouflage tactics employed by Judaism: the poster for the New York gubernatorial election shows a 100% American who, physiognomically speaking, could be ranked among the best presidents...

...But if you take a closer look at this governor, who is a close friend of President Roosevelt, you will find a Jew with a moustache in his nostrils, grinning triumphantly over his election victory. Sarah, adorned with orchids, smiles... Governor Herbert H. Lehmen, an Orthodox Jew, has pardoned gangsters in numerous cases thanks to his power.

“Organize, organize, organize, until every Jew must rise and be counted—counted on our side, or, knowingly or unknowingly, on the side of the few who are against their own people.”

- Louis D. Brandeis: "Zionismus" S. 113, 114

This highly amused Jew was, until recently, a member of the nine-person Supreme Court of the United States, which has the power to pass or reject laws: Louis Dembitz Brandeis - to facilitate the study of physiognomy, the face has been enlarged and repeated here.

Here he is about to drive to President Roosevelt to discuss the problem of Jewish refugees with him; the Jew Brandeis has a daughter who works in the New York State school system and who, incidentally, is an agitator at communist meetings; he himself is a Zionist.

Professor Felix Frankfurter – considered the most influential individual in the United States – has replaced the elderly Jew Brandeis on the Supreme Court; he is politically both radical and left-wing.

Theodor Kaufmann - he calls for the complete extermination of the German people.

Theodor Kaufman, president of the American Peace League and close associate of Roosevelt advisor Samuel Roseman (see p. 13), has written a book that has been published in large numbers under the title “Germany Must Perish!”; in Jewish literary circles in New York, it is said that Roosevelt inspired the main points of this book and dictated the most important parts himself. This book outlines the program for the extermination of the German people:

“1. The German armed forces will be captured (!), sterilized, and distributed to labor battalions... 2. The German population, namely men under 60 and women under 45, will be sterilized. This will ensure the extinction of the German people within two generations.”

Secretary of State Cordell Hull (not Jewish) is married to a Jewish woman; this proves his preference for the Hebrew race. His close colleague Leo Pasvolsky is Jewish, and his State Department is teeming with Hebrews - will he soon have had enough?

The president obtains a stay of execution for the (Jewish?) murderer Edel by telephone. Alongside Franklin Delano Roosevelt is his close friend, personal lawyer, and “counselor,” Samuel Roseman, a Jew who now serves on the New York Supreme Court and helps Roosevelt draft his speeches.

The highest honor that American Jewry can bestow on any benefactor is the American Hebrew Medal, awarded for services rendered to promote better understanding between Christians and Jews in America; in 1937, it was awarded to Laguardia, and in 1938, to Franklin D. Roosevelt

“Is America Under Threat?”

At the lectern, we see Mr. Channing Pollock, an actor and author who believes that “un-American thinking” (as the Jews of the USA call anti-Semitism) is making unstoppable progress.

A leaflet against Roosevelt's friendship with the Jews: “Whoever votes for Roosevelt gives his vote to the Jews” is the headline of this exposé, which features pictures of the US president's closest Jewish associates. The result? A Jewish dictatorship under the sign of the sickle, hammer, and Star of David

The first woman in an American cabinet position – a Jew?

The head of the United States Department of Labor is Frances Perkins - according to her own information, she was born in Boston on April 10th, 1882, and she was first married to a Paul Wilson. According to the 1910 civil registry, Wilson certainly was married in Newton, Massachusetts, but not to a Frances Perkins - he was instead married to a Mathilde Rebecca Wutzky, who, according to her own statement, was born in Russia; a look at Minister Perkins' profile lends credence to the claim made by the Chicago magazine "The Immigration Crew", that Frances Perkins was identical to Mathilde Rebecca Wutzky, a Jewish woman born in Russia.

Ms. Perkins, who had the final say on strike decisions made by trade unions led almost exclusively by Jews, had to defend herself in 1939 before a disciplinary court in Washington against public accusations of communist sympathies - today, she would certainly no longer have to do so.

"Communism was planned and hatched in the camp of Israel."

- ***The Jew B.A.M. Schapiro, director of the Hebrew-Christian Publishing Company, NY, in
"America's Great Threat"***

Embarrassing pomp amid so much beauty - on the left is the sister-in-law of Finance Minister Henry Morgenthau, Mrs. Richard B. Mellon-Pittsburgh. People on the streets can be heard laughing.

The finance minister of the Jewish-dominated confederation of states is, of course, a Jew: Henry Morgenthau. “Through marriage, he is related to the Jewish governor of New York State, Herbert Lehmann, as well as to the Seeligmans and Wertheims, the Lewisohns and Warburgs, and the owners of the firm Kuhn, Loeb & Co.” (O. Krainz).

Yahweh's “chosen people” will not ascend to the heavens even in “God's own country” (as America is sometimes called). Strangely enough, the Jews themselves are making sure of that. No non-Jew would ever display his wealth so shamelessly and provocatively - the Yankees laugh like chickens. Fortunately, the Jew has become cheeky and presumptuous in his happiness, and this vanity of basking in the glory of his power (a truly low-class trait) usually proves to be his undoing; when the labor slaves exploited by the Jews see the same fellows who until recently played the role of their friends, fellow sufferers, champions, and ragged proletarians now basking in ostentatious wealth, they gradually become suspicious when it takes so long for themselves to achieve their freedom!

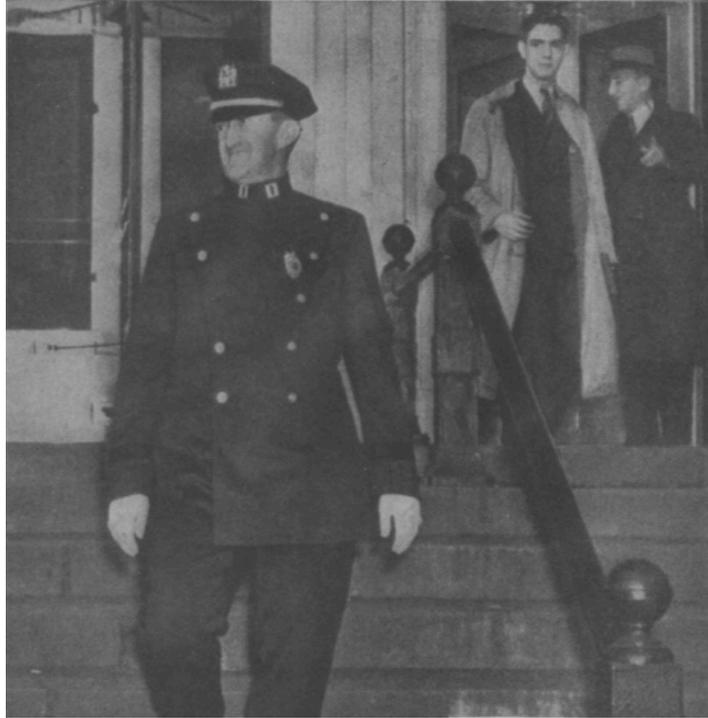

“For sale by Abraham Pereira Mendes, a batch of capable young Negroes...” This was the wording of one of the first advertisements that gave impetus to the slave trade - Jewish slave traders earned enormous fortunes from the bitter fate of an unfortunate people.

"Although the Jews have strictly adhered to all ethnic laws for the preservation of their racial purity for thousands of years and form a separate foreign body, especially in America, and also do everything to maintain and develop it as such, they always advocate the opposite to the outside world: they are energetic opponents of any racial segregation, even that of Negroes. They mock the laws of racial preservation and are the strongest advocates of the American “melting pot” theory, which supposedly will one day produce a “completely new” American people from this mixture of peoples, races, and nationalities; after all, Negroes, Chinese, Japanese, Indians, Malays, Armenians, and Jews have taken white American women as wives and their children have intermarried. Although one may recoil from such a ghastly mixture, this goal is seriously preached throughout the country.

The Jew is well aware of the ultimate result: his race will then be the only pure one left, and it will be a mere trifle for him to rule and enslave this indefinable rabble."

- Othmar Krainz (“The Jews Discover America”, p. 207)

Cheeky provocation after the assassination of Ernst vom Rath.

On November 17th, 1938, New York City Mayor LaGuardia had the German consulate in Manhattan (whose president was the Jew Samuel Levy) guarded by a detachment of Jewish police officers. Here we see the Jewish police captain and president of the Jewish Shomrim police association of New York, Max Finkelstein, leaving the consulate (Shomrim, Hebrew = guard).

Sergeant Max Goldstein with one of his Jewish police henchmen in front of the German consulate.

A wild agitator against Germany - New York lawyer Samuel Untermyer speaks at a Zionist rally.

Samuel Dickstein, an Eastern European Jew and chairman of the Immigration Committee, suffered a severe defeat in front of the House of Representatives with his anti-German investigative motions against the 200,000-member German-American People's League.

A Jewish cloverleaf - Max Steuer (left), Samuel Untermyer (center), and Rabbi Dr. Stephen J. Wise; Rabbi Wise, father-in-law of Adolph S. Ochs, owner of the “New York Times” newspaper, is one of the leading figures in world Jewry.

Professor Albert Einstein, celebrated in Germany under the previous system of the Weimar Republic by a press that glorified everything Jewish as a “second Newton,” is primarily active in the Zionist group.

Jewish emigrants from the Reich - they stand out everywhere due to their elegant clothing. The American-Jewish press endeavored to publish touching scenes of the emigrants' arrival; meanwhile, on the Jewish side in the US, the immigration of fellow Jews is viewed with mixed feelings. They still hold all the public power - will this remain the case despite the rise of anti-Semitism?

“He escaped Nazi terror - now he can laugh and smoke his cigar,” says a New York photo agency about the photo; at least, if we may be so bold, the “Nazi terror” seems to have done him good.

Not even on land yet – and already Americans.

“But,” says Henry Ford about Jewish immigrants in his book “The International Jew,” “they bring with them the same feelings toward the majority here that they harbored in their former homes. They may welcome the land of America with joy, but they will have their own ideas about the majority of the American people... They are Jews in full consciousness, and they will be felt as such.”

"The American Jew does not 'assimilate' - this must be stated, not as a reproach, but as a fact. The Jew could, if he wanted to, assimilate into American society, but he does not want to. If, apart from the feeling of unease caused by his enormous wealth, there is any prejudice against him in America, it is only because of his isolation... But then he should not, as he is so fond of doing, make this isolation one of his complaints against non-Jews as a whole."

- Henry Ford, “The International Jew”

"America will prove to be the most ungrateful of all nations - America will drive us out, just as Spain, England, and France have driven us out, with the difference that there will be no return to America for the Jews. We have about a century left in America—perhaps more, perhaps a little less. But it cannot be much more. Then the persecution will begin. (The fires that are now smoldering will flare up. The melting pot will boil and overflow.) Anti-Semitism in America is different from that in all other countries. If you get to the bottom of things, you will find that there has always been some intellectual impetus behind our expulsion from other countries. In this country, however, anti-Semitism is pure boorishness..."

- Samuel Roth, “Now and Forever”

Reprinted in Georg Leibbrandt: “Jüdische Weltpolitik in Selbstzeugnissen” [Jewish World Politics in Self-Testimonies] (Central Publishing House of the NSDAP)

The ghetto is not an American creation, but rather an import of the Jews themselves; they have separated themselves as a sharply distinct community. The Jewish Encyclopedia says the following about this: "The social organization of Jews in America differs little in essence from that in other countries; without¹

In New York's East Side, in the slum district, many a Jewish career begins; trading in old clothes and all kinds of waste is always preferred to any other commercial work.

¹ Despite clearly not being finished, the sentence does not continue from here in the original copy.

The stream of Jewish immigrants tends to settle in cities, rarely or never in rural areas; the Eastern European Jews who migrated to the US in their thousands from Poland and Galicia began their incursions in apparent modesty among the Negroes in the slums of New York.

“...for some reason, Jews prefer to live in close proximity to one another. This peculiarity still exists today.”

- Henry Ford, “The International Jew”

It doesn't take long before they have small shops, bathhouses, junk shops, poultry slaughterhouses, and egg “centrals”; the climb is set to begin, no matter what means are used.

American gangsterism is almost exclusively a Jewish affair; only recently did prosecutor Dewey succeed in bringing down an entire syndicate of mostly Jewish criminals, headed by a Jewish gangster nicknamed "Lucky the Sparrow." The criminals had organized prostitution in New York for their own benefit and extorted millions in taxes from their brothels.

The number of Jews involved in violent crimes is far greater than Jewish newspapers are willing to admit - the gangster pictured here, Arthur Flegenheimar, who called himself "Dutch Schultz," terrorized America with his gang of criminals until he was killed by a jealous rival (pictured right).

The gangster's lawyers are Jewish, of course. From left: J. Arthur Adler, Daniel H. Prior, bootlegger Jack Diamond.

(A piece of advice for gangsters and smugglers: make peace with Israel, my friend!)

Meyer Adelman is the name of this steel union secretary who eyes the reporter suspiciously; he is the only legitimate spokesperson for his protégés, for whom he can decide to call and call off strikes.

Jewish Bolsheviks who were arrested in New York for inciting strikes before Roosevelt's time - the faces of these Hebrews reveal the true nature of the "idealism" of these labor leaders.

"Hundreds of agitators who had come over from the lower East Side of New York (i.e., to Russia) were in the entourage of Trotsky-Brownstein..." "265 of these northern communists, who were meeting in the old Smolny Institute, came from the lower East Side of New York."

- Dr. George A. Simons, American clergyman in Petersburg at the time; quoted by Henry Ford.

The party secretary is Jewish, of course - Alex Rose, authorized secretary of the American "Workers' Party".

At the “National Headquarters of Jewish War Veterans” in the US: the year is 1933. An “important” ally has been won in the fight against the evil Germans, who no longer want to be patronized, deceived, and defiled by the Jews: the then mayor John P. O'Brian; the Irishman among the Hebrews cuts a fine figure. In the foreground, from left: former Congressman W.W. Cohen, O'Brian (with a protest letter) and the chief of the Jewish war veterans, J. George Fredman.

His Prey

It's easy to imagine how this marriage came about: she, a hungry novice; he, a satiated pop songwriter, who bought his blonde happiness with relish and deliberation.

One cannot help but marvel at how the Jewish nation, scattered across the globe, understands how to turn uniformly to the left or right without any audible command.

Film Stars and Racial Shame

Judah has known what the concept of race is since Adam, and the Hebrews have practiced racial defilement for their entire existence; this went so far that the energetic racial prophets Ezra and Nehemiah, before the return of Israel from Babylonian exile and also after their arrival in the Promised Land, had to free the Hebrew clans from the masses of racially foreign invaders because they were concerned about preserving their Hebrew racial characteristics - this proves once and for all that leading Israelites in early times consciously helped to breed the bloodline of the Hebrew nation and sought to prevent a dilution of its physical and spiritual characteristics.

Silly and Tasteless: Jewish Humor

Film stars in racial disgrace - Arthur Sheekman leads his wife (actress Gloria Stuart) to the dance. "...your brides cheer me within the dregs of foreign deserts."

Racial breeding has preserved the life of the people of Israel through the millennia, while great civilized peoples, among whom the Jews lived as parasites, have perished. From the Jew's point of view, it would now be madness to share his racial knowledge with the changing host peoples on whose bodies he continues to live as an eternal parasite; if they knew, then they would be tempted to free themselves from the Jew. It is true that when the parasite has sucked the life out of its host, it must move on to a new host, but this usually takes centuries, whereas when the host peoples awaken to their racial identity, the Jews can pack their bags immediately, as the emigrants in Prague did recently. Therefore, a general Jewish agreement was made, followed by all Hebrews around the world, without any special slogans: Spread ideas of racial degeneration and racial mixing around you! Help even more by putting bastards into foreign nests. Ensure the racial death of others—and you will live forever and unmixed in the midst of a degenerate mishmash of peoples, whose slavish, proletarian cheerfulness will allow you to live as masters. Applied to individual Jews, this general agreement means: abuse the women of your hosts, seduce their girls, bring them into disgrace, ensure that they abort their children, so that the race of the host people is weakened.

The manager is Jewish, of course.

The disgusting, cynical grin of the Hebrew gives insight into the depravity of this purely Jewish atmosphere: here, the dancers for the notorious “girl shows” are selected from among the most graceful girls in the country.

Thousands of unsuspecting parents entrust their daughters to such satanic individuals, unaware that the Levys and Cohns, the Adlers and Goldmanns, do not promote talent without being lovingly paid for their kindness; the Jew Arnold Zweig confessed: “For some agents... the path to fame leads through the blackmailer's bed.”

Baron Moritz Rothschild from Paris studies “Paris” in Chicago.

This girl painted white is not a mannequin, but the real “diving Venus,” Mona Leslie, who appeared in the exhibition “100 Years of Paris” in Chicago in a “classical” dance, sprayed by fountains. Baron Moritz Rothschild followed the nude dancer into the rooms beneath the stage.

Guest performance tour

Mr. and Mrs. Ben Levy on their way to New York; Mrs. Levy is known as an actress under the name Constance Cummings.

The Hebrews in Germany have been doing this systematically for several generations. In America, it is happening with an almost frightening Jewish zeal. Already, warning voices are multiplying that this gluttonous existence of parasites feeding on a juicy root will not last much longer.

Artistic guests in New York - violinist Mischa Elman has arrived with his wife and children for a guest performance.

The pop songwriter and his bride - stage and film actress Fannie Brice and Billy Rose, “one of America's first songwriters.” The civil wedding ceremony was performed in 1929 by New York City Mayor Jimmy Walker at New York City Hall.

Film Stars and Racial Defilement - Jewish film director and producer Ernst Lubitsch and his wife, who was a well-known film actress under the name Virginia Gaye.

Lubitsch takes a rickshaw ride with actress Sheila Manners in Palm Springs, the seaside resort of the American film world.

It is indeed a blessing that the balancing justice of nature, where Jews settle like colonies of vermin for reasons of well-being, also increases the discomfort of the host to a boiling point, until he brings soapy water, brooms, and ten percent Lysol solution into action.

The American “art world” is teeming with Jewish stars. This buffoon calls himself Jerry Bergen - his Hebrew name is written all over his face.

Sam Jaffe, a Jewish actor from New York, plays a role close to his heart - a character from the ghetto.

(Among seven New Yorkers, three are Jewish. It looks like this: one Jew is acting in a play, one Jew is sitting at the box office, and one Jew is writing the review—the four Aryans are the ones paying.)

When Jakob Cohen was still little Jackie Coogan: “The Kid” reads from the “New York Forward”, a Yiddish newspaper from the ghetto.

Outgrowing one's partner - the most lucrative business that the two ghetto characters ran with sentimental ridicule is now gone for the both of them.

Little Cohen lives off his savings for a while, basking in the summer sun with his naturally blonde partner Betty Grable, whom he will soon marry, enjoying the sea, sand, and bliss...

...and continues this idyllic Adam and Eve game during the evening dance in the hall.

God's blessing has suddenly ended for Cohen, and now he has to find another way to get money. His mother (his father Cohen is dead) is now called Mrs. Bernstein; thanks to the bank account she took from little Cohn for safekeeping, she has become quite a catch. Jackie sues his mother for half a million dollars, which he claims is part of his earnings. Jackie's meager finances are no longer attractive to Betty Grable: "I still love him," she declares with genuine movie loyalty, "but I can't stay with him like this. When he has money again, I'll go back to him."

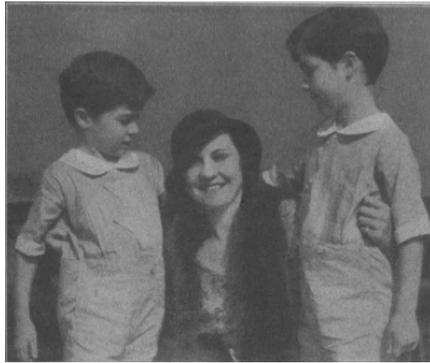

Ms. Lillian Coogan-Bernstein is not acting: this is serious!

The trial has begun - at stake is a total of four and a half million dollars that Jackie Coogan earned as a child. Never, says Ms. Cohn-Bernstein, did I promise my son a fortune - and I won't give him one. His father had already said once: Jackie is a very bad boy, a very, very bad 20-year-old boy. He spends every dollar he gets his hands on.

Mrs. Charlie Chaplin Number One

This is Mildred Harris, formerly a film actress, now living in poverty in a friend's house in New York. (A. Ey. in "Angriff".)

Mrs. Charlie Chaplin Number Two

Former film actress Lita Grey with her Chaplin children, whom she trained with great business acumen to become money-making movie stars - a lawsuit filed by their father attempted to prevent this.

Paulette Goddard, known from many films, has long since become Charlie Chaplin's third wife; the "great philosopher," who cannot write properly or speak English correctly—the ghetto clown who is fascinated by everything pathological and (according to Jewish sources) enthusiastic about vulgar jokes—is celebrated excessively by his fellow racial comrades.

Chaplin wants to "get involved in politics" out of anger over the loss of royalties from Germany; in doing so, he experiences an unprecedented failure with a propaganda film. Keep it up Chaplin - the more you stir things up, the more you get on the nerves of your host population. But when they wake up...!

Charlie Chaplin, the flat-footed ghetto clown.

Carl Laemmle, the Jewish film mogul (Universal Film Corporation), who recently caused a stir again with his well-known anti-German rhetoric.

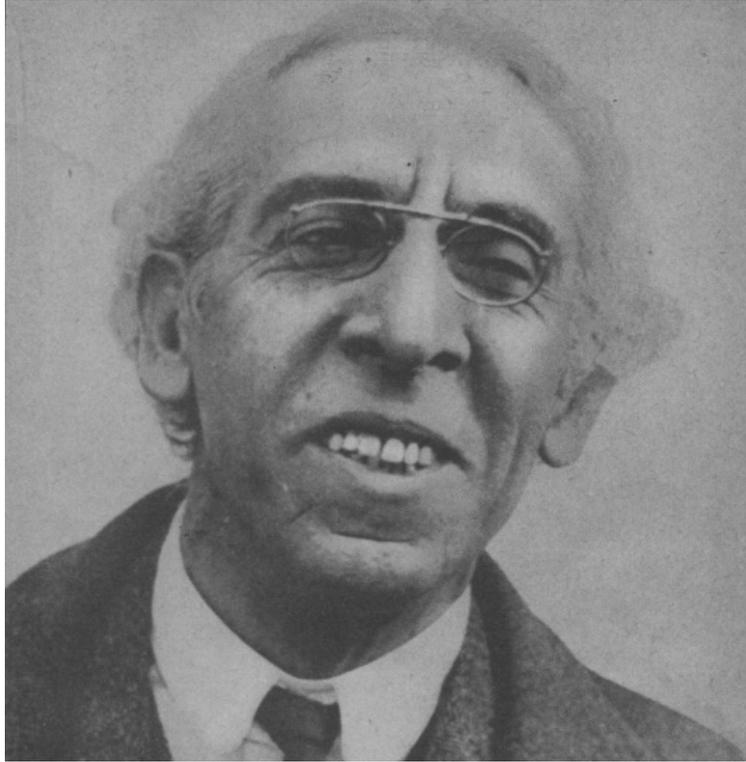

Not just a role, but reality - Chaplin as a hunting guest of the Duke of Westminster.

The manager is Jewish, of course - Joe Goult wears a lucky clover under his suit; that is supposed to bring luck to his protégé Jim Braddock in his fight against Tommy Farr. Braddock seems to be rather skeptical about this miracle cure.

Jewish art does not enjoy a great reputation in the world, and that is not surprising - only in times and among peoples afflicted by the hypnotic power of the Jewish asphalt press does the experiment succeed in evaluating such brainless madness, as seen here in the picture by the Jewish daubber, as art, and indeed as spiritual “expressive art” (expressionism).

Israel Zangwill, the Great Hater

This Zionist, although an English Jew, nevertheless ranks himself among the American Hebrews. Samuel Roth, a Jew born in Galicia and living in the US, wrote a book in New York in 1925 entitled "Now and Forever," which takes the form of conversations with Israel Zangwill that never took place in this form, but were inspired by a visit to Zangwill; Zangwill wrote the preface to the conversations. This unprecedentedly candid book, which Reichsleiter Alfred Rosenberg mentioned in his speech at the Reich Party Congress in 1937, was loved by Dr. Georg Leibbrandt, who published the most important excerpts in his series "Bolschewismus" in 1938 under the title "Jüdische Weltpolitik in Selbstzeugnissen" (Jewish World Politics in Their Own Words). (Zentralverlag der NSDAP, Franz Eher Nachf.) We have taken essential quotations from this work, which provides valuable documentation for the study of the Jewish question.

The Rabbis are Israel's Generals

Zangwill: "Would you kindly explain to me why the rabbis are better than the priests?"
Roth: "...The priest is a soldier who obeys the orders of an invisible commander... The rabbi, however, must himself be a general and a strategist, whose eyes constantly survey the battlefield from one end to the other."

(See G. Leibbrandt: "Jewish World Politics in Self-Testimonies.")

"One of the most well-known and respected rabbis in the United States recently said in a sermon that children in Christian Sunday schools are taught to see Jews as the murderers of Christ."

- **Henry Ford, "The International Jew"**

"I believe that the Jewish question is neither a social nor a religious question, even though it occasionally takes on these forms - it is a national question that can only be resolved by making it a political world question that must be discussed and controlled jointly by the civilized nations of the world."

- **Zionist leader Theodor Herzl in his introduction to "The Jewish State"**

No people in the world can rely on their priests as much as Israel relies on its rabbis - Rabbi Stephen S. Wise, president of the American Jewish Congress, called on all Americans to boycott Germany in order to deal it a fatal blow.

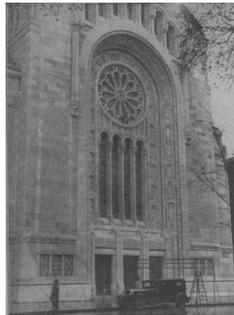

Rabbis visit the White House, led by Sir Adrian Bailey from the British Embassy. The rabbis are (from left): Rabbi Verlin, Rabbi Garfinkel, Rabbi Uziel, Rabbi Novich, and Rabbi Schwefel.

“The first thing we do to a people we have conquered is to give them a god they can talk about; for when they have a god to worship, they don't pay much attention to what we give them in exchange for their goods.”

- Samuel Roth, “Now and Forever”

This Jewish bonmot³ contains, first, the presumption that it was the Jews who “gave” the Christian peoples their God, and second, the admission of a characteristic that the enemies of the Jews, since Hamann the chancellor, have reproached their tormentors with; the Old Testament and the Talmud are a treasure trove for anyone who wants to learn about the nature of Judaism and the inner workings of its religion.

The largest synagogue in the world: the new Emanuel Temple on Fifth Avenue in New York - in 1846, this synagogue could barely raise \$1,520 for its upkeep; in 1868, after the Civil War, it was able to collect \$708,755 in rent from 231 seats. (Henry Ford, “The International Jew”)

Clothing district on 5th Avenue - is there any need to prove that American economic life is dominated by Jews? 85% of the men's clothing industry is Jewish, 90% of the underwear industry, 95% of the fur industry. Between 1933 and 1935, i.e., during the worst economic crisis, when thousands of other factories were shut down, the number of clothing factories in New York increased by more than 2,800, or about 38% (Othm. Krainz).

The Rabbi with the Ice Cream

New York's Jewish community ensures popularity even for the sleaziest rabbi in a caftan. Rabbi David S. Savitz – so the story behind this picture goes – was arrested for selling ice cream without a license. After two hours, he was able to resume selling ice cream to his little comrades - that's the ghetto for you.

“Martin Luther most aptly characterizes the web of lies spun by this supposed religion: ‘They are the true liars and bloodhounds, who have not only perverted and falsified the entire Scriptures from beginning to end with their mendacious glosses... No people more bloodthirsty and vengeful has ever been blessed by the sun than those who think they are God's people because they are bound to murder and strangle the heathens,’ and “They have been imbued with such poisonous hatred against the goyim from their youth by their elders and rabbis, and they continue to imbibe it without ceasing, so that it has passed through their blood and flesh, through their marrow and bones, and has become their very nature and life.”

- **Chaim Ezza Cohen, an eighteen-year-old rabbi in Chicago**

“Monsieur Albert N. Chapereau”—this was the name used by a man who appeared in America as a seller of foreign films. He gave the impression of being a native of France. Later, he carried a passport identifying him as a commercial attaché of the Consul General of Nicaragua - in reality, his name was Nathan Schapiro, and he came from a Polish ghetto. When he was arrested, Parisian designer clothes, diamond-studded slippers, bird of paradise feathers, and other valuable contraband were found in his suitcases, all intended for Elma Lauer, the wife of Jewish Supreme Court Judge Edgar Lauer; Schapiro supplied many other “ladies of society” with his contraband suitcases.

This false passport identified the Jew Albert Nathan Schapiro (Chapereau) as trade attaché to the Consul General of Nicaragua. Diplomatic baggage is not inspected at customs stations, as is well known; this enabled Nathan Schapiro to reliably supply his pampered New York clientele with contraband shipments.

A. Nathan Schapiro, protected by a forged diplomatic passport, ran an extensive smuggling operation dealing in Parisian fashion dresses, diamond-studded slippers, bird of paradise feathers, and other similar treasures.

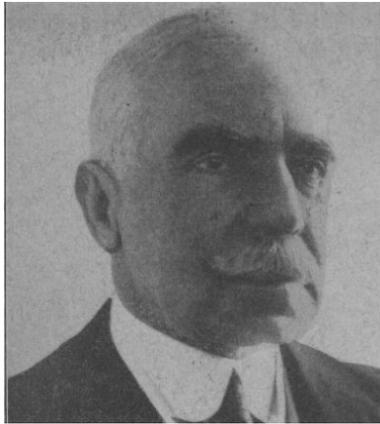

And who were these spoiled customers? Primarily the wife of Jewish Supreme Court Justice Edgar Lauer, New York. Miss Elma N. Lauer had already appeared before the court a year before this embarrassing arrest - at that time, she was fined \$10,000.

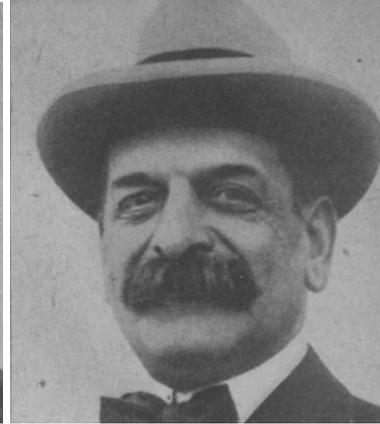

Mr. Schmuggel-Schapiro counted others among his most loyal customers, such as Mrs. Sophie Tucker, the “Nigger Song Jewess” - here we show two particularly appealing pictures of the “celebrated” singer.

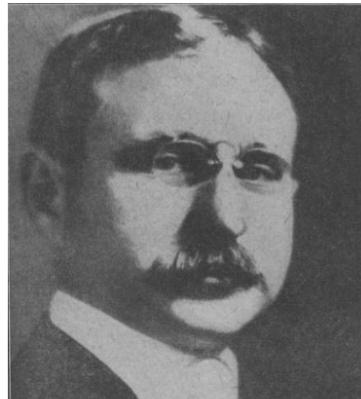

The Jewish nigger singer Al Jolson, whom the US film industry has featured in the first sound film.

"New York has become the main center of Judaism - it is there that Schaller is located, where all American imports and exports are taxed, and where all the work done in America actually pays tribute to the money lords. The land and property of the city is owned by Jews; a list of homeowners rarely shows a non-Jewish name. No wonder, in view of this unprecedented rise, this unstoppable growth of wealth and power, Jewish writers enthusiastically proclaim that the United States is the promised land proclaimed by the prophets and New York is the New Jerusalem."

- Henry Ford, "The International Jew"

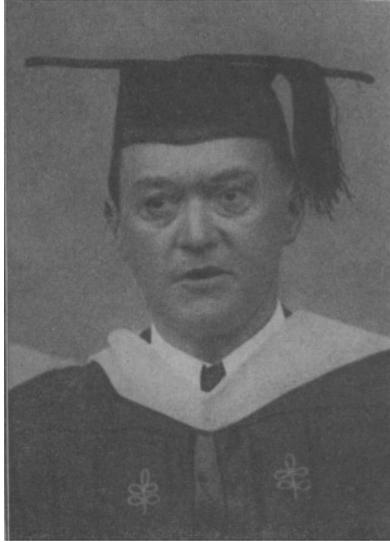

"It's not that there are a few Jews among the international financial rulers of the world, but rather that the rulers of the world are exclusively Jews."

- Henry Ford, "The International Jew"

An interesting example of Jewish mimicry: Schwab, the “steel king,” twice over - on the left is Charles M. Schwab pictured in 1932, with a completely un-Jewish Yankee mask; on the right is Schwab again, thawed out by flattering small talk, whose face here reveals all its Jewish features in a lively and unexpected way (1935).

It would be wrong to assume that the anger of America's anti-capitalist workers—after all, the country currently has over 11 million unemployed—is directed against this accumulation of gold treasures from all over the world and the underground steel vaults of Wall Street's big banks; the unemployed are indeed rallied under the red banner of “anti-capitalist” communism, but at the head of the red unions are Jewish “labor leaders,” and responsible for job creation is the head of the Department of Labor, the ghetto Jewess Perkins, whose communist connections have been the subject of court proceedings.

One of North America's most influential journalists, Walter Lippmann, is Jewish.

The stock exchange in New York on the corner of Wall Street.

"It is... revealing to know that the New York Stock Exchange is completely controlled by Jewish banks such as Kuhn, Loeb & Co., Speyer & Co., Warburg, Seligmann, Ladenburg, Thalmann, Lehman, Dillon Read, Wolff, Schiff, Strauß, Stern, Lasard, Goldman, Sachs, Gembel, and many others.."

- Othmar Krainz

Juda is in the saddle! - J. Seligman, one of Wall Street's well-known bankers, on his daily morning ride through Central Park.

(In the land of unlimited possibilities, there are stock market Jews who actually ride horses.)

The New York banking and stock market Jews have launched a general attack against the hated swastika; the Jewish entourage surrounding the president, who has been decorated with the Hebrew badge, has steered American policy away from the isolation of the Monroe Doctrine (1823) and has been increasingly insistent in calling for military intervention against Hitler's Germany. Franklin Roosevelt, an obedient agent of his Hebrew masters, is seeking by every means possible to interfere in the war in Europe, looking for bases, supplying war material on which the Jews are making billions, and whipping his subjects, the vast majority of whom want nothing to do with the war, into hatred of Germany - of course, it is once again Jewish pens that must stir up this hatred.

Jews and fellow Jews united in hatred against Germany - guests at the president's birthday ball in Washington. From the left: Mrs. Jack Greenway (Jakob Grünweg is representative of Arizona and a personal friend of Roosevelt); Senator Key Pittman of Nevada, chairman of the Senate Foreign Relations Committee, known for his hateful tirades against Germany; right: Mrs. Pittman.

Germany must be exterminated! That is the prerequisite for “world freedom”: all that is needed is to forcibly sterilize the entire German Wehrmacht, according to the Jew Kaufman. That can be done easily in a month. Here, the unadulterated Old Testament hatred of the goyim is running wild!

Wall Street's sympathies lie with the Hebrew People's Commissars of the Soviet Union, just as they did years ago when the banker Jacob H. Schiff addressed a Communist congress in Carnegie Hall, New York, in 1917 to celebrate the Bolshevik Revolution with the following message: “Please convey to those attending today's meeting how deeply I regret that it is impossible for me to join the friends of Russian freedom in celebrating the reward for what we have hoped and fought for during so many years.”

A Jewish dream has come true: ermine, heavy silk, gold, platinum, diamonds, pearls – and all this finery side by side with the beautiful Lady Leslie – New Yorkers stare in amazement at such a display of splendor.

If all signs are not deceiving, world Jewry is heading toward its most serious catastrophe. It is not the case that recognition of the nation-destroying characteristics of the Hebrews has only taken hold among the member states of the Anti-Comintern Pact - awareness of the Jewish world plague is gaining ground precisely where one would least expect it. And government measures are of no help here!

Judaism repeatedly displays a vain pride in its supposed intellectual superiority, but it simply does not realize that this is precisely what is hastening its expulsion from its host nation, i.e.: it is, in reality, only moderately gifted, since it lacks the most important regulator for creative advancement: the uncompromisingly and accurate skill of self-knowledge; this is based on self-observation that is not distracted by feelings of inferiority or delusions of grandeur. Jewish vanity is so great that it prevents any sober self-reflection - this is why the Jew can still feel in full possession of all his power and harass his host, while fate has already decided his doom: the more Judaism believes itself to be secure in its cause, i.e., the more arbitrarily and openly it acts in the representation of its own interests, the more intense the defense of the threatened non-Jews becomes.

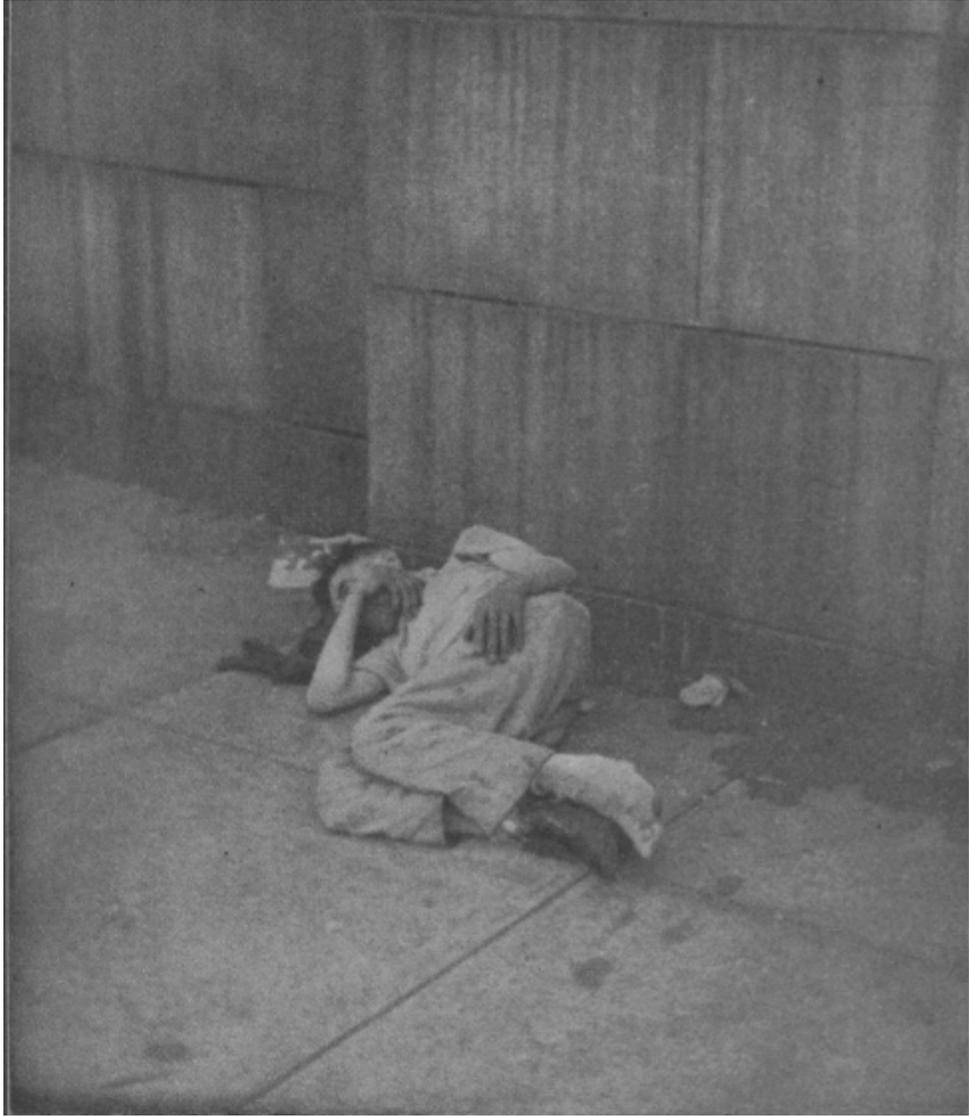

America shall live! - it is Canaan, it is the Promised Land, where milk and honey flow; it is the largest Jewish country in the world, with approximately 7.5 million Jews out of a total population of approximately 128 million.

The more shamelessly the wealth of the Jewish clique of exploiters flaunts itself before the eyes of millions of unhappy, disinherited people who are unemployed, starving, and wandering in rags, the more terrible will be the awakening of the American people one day - and when it does happen, it will be difficult to find sufficient asylum anywhere in the world.

Mr. LaGuardia doesn't let anything spoil his appetite, even though...

...of the total workforce in the US, 13 million out of 32 million are already unemployed and have nothing left to eat. The more hunger there is in the US, the more communes there will be, the more certain the victory of the Reds will be, and the more certain a US-Soviet paradise will be, in which the Jews – and only the Jews – will be even better off than they are today.
