# The Child Porn Problem

<https://disboard.org> > servers > tag

## Discord servers tagged with -17 | DISBOARD

... happy must be 13+ but yea join have fun find someone and yea there you go (max-age 16). Join this Server. 31 minutes ago. New! **TEENS GETTIN FUCKED.**

**At any given time, any person of any age is able to find underage porn files in less than a few minutes, or of course, other types of illegal porn depending on what they are looking for. Discord and Twitter's lack of security and care has made it incredibly easy for this to happen**

Every single day on Discord, there are hundreds of people who join Discord servers listed on <https://disboard.org> with CP in them. They mainly use the service MEGA and DROPBOX to contain their CP in, but other services are used such as google drive, or anything you can think of. These links often get taken down, but are replaced by people who save CP. On [disboard.org](https://disboard.org), the server tags used are "teen-porn, mega, dropbox, young" and other suggestive words that indicate cp such as "car-parts, no-rules, anarchy, cheese-pizza, iykyk, young-porn, leaks, onlyfans, rare, taboo, trade, links, s2r, under-18, 13-17, porn" Those are also their main keywords.

The child porn distributors often exchange links containing child porn, their only consequence is that their servers get deleted, which they can remake instantly afterwards due to Discord's lack of security. In addition, countless numbers of kids are seeing this porn and being involved in this porn. Tons of minors and tons of adults are involved in this CP industry. It is certain that searching and joining these servers will bring you to people who collect child porn, abuse children, and use children sexually all the time without failure. The servers pop up randomly and get taken down randomly as well.

Discord does very little to stop this problem, even when they delete user accounts and users' servers, they get remade nearly instantly. Zero consequences.

It is important to note that children are not only involved in the porn being posted, but children do seek to find child porn and sometimes sell it themselves. There is making, selling, saving, and distributing child porn here.

The main structure of these servers are sloppy, and lazily put together with the creator's full knowledge that the server will get deleted soon, but as I said they are easy to remake for any person. In most cases, the owner will offer to "verify" you into the "main server" if you send him a porn link usually containing something disgusting.

Dm a link of 9-17 content

Once verified send the link to it's correct channel

Servers are often poorly disguised, with the titles usually being “cheese pizza” or something with “CP” in the first two letters, like this.

However, these are the smaller servers and there are bigger ones which reach giant audiences. Although there have been thousands of these cp servers, there are a different version of cp servers which generate thousands and thousands of dollars, collect tens of thousands of members at a time, put child porn in the eyes of anyone who joins, and are remade every single day.

Join the OF LEAK NSFW Discord Server! guys join it's a great server without any inv all of pica an vids enjoy. NSFW. discord.gg.

**And like the main cp servers, these ones use disboard to reach members, twitter, and also reddit. Those are the three main sources for collecting members. In addition, the owners of these servers often use a service called Telegram to host their backup groups so they can get new members into the new server. Once members are gained and they start bringing new members for the promise of “access” to the cp, the servers become huge, and are then taken down, and eventually remade hours later. The owners (mostly CP sellers make these servers) advertise their telegram groups so they keep most of their members when their Discord servers get deleted. As of now there are about 5 people constantly remaking these servers because they bring in a ton of money.**

**The general structure of these servers contains a way to purchase access to a collection of cp, as well as the method that gets these servers popular, invites**

**If a user invites a certain number of other users to the server, they will also get access for free.**

**Below are screenshots from these servers, and screenshots of the servers listed on disboard.org**

**Evidence like this can be found pretty much instantly if someone joins a server listed on disboard.org with the tag “mega” or other porn-related tags. These occurrences are very common and appear randomly on discord and disboard. Upon finding one of these servers which takes less than a minute, people will be able to find members to trade child porn or any illegal form of porn with. Depending on the day, and hour, there will be anywhere from no cp servers to 10 or more active ones. These specific types of cp servers are found mostly on porn-related subreddits (reddit.com) or in the text channels of porn-related discord servers.**

**In a lot of cases, child porn videos are posted where thousands of people see them.**

## **The problem on Twitter**

**Being very very similar to Discord, on Twitter, anyone can search up hashtags such as #cpleaks, #cp-discord, #cp, #megalinks and any other CP tag (which are extremely easy to find with some research) Every hour new tweets are posted asking to trade child porn.**

## **Evidence collection**

**The following pieces of evidence are screen captures I took myself in most cases, however I will attach a “message link”(discord feature) to pieces of evidence, since a message link on discord can be used by discord staff to find out if the message is actually real, etc...**

**I will also attach DISBOARD or other site server listing links, as well as videos.**

# general

it seems so

here is the thing.. i got into the modding for incest servers about a month ago

with the intention of getting rid of the pedos for a while i spent time banning pedos and every single person with even the suspicion of being underage

im an excellent judge of character, to top to that i studied psychology... moreover ive been doing RP in online chat rooms since im 12, so i know how to evade ID checks and verifications and what not so i know everything about lying about ones age

Michael Today at 5:28 PM

then.... i got a warning... "you cant ban without proof"

Exo Cinis (EoG) Today at 5:28 PM

Alright...

(I WILL UPDATE MORE EVIDENCE HERE AS I FIND IT)

The above evidence is randomly thrown in and is captured at random times throughout the past year or so. This evidence is very easy to find, something like a cp selling server can be found within a couple minutes or less.

## **By Evan and Joe**

Evan's note: (I compiled all of this over a span of a couple years of investigating this problem, most evidences were documented very recently)

(Joe joined in at 9-4-2022 after joining a non cp server and finding Evan. We talked about the cp issue and have decided to team up against this terrible problem.)

In 2022, we contacted Disboard about this problem. According to the moderators they were constantly updating their filters. Which we know isn't the case, due to these servers using the same name and tags for over a year at that point. When we pressed this fact, the moderators banned us from the support server, which after iamLucids video escalated to a ban from the Disboard server as a whole.

As of 2026, we are still banned from using Disboard, from contacting moderators and from reporting illicit servers.
