

Citybus Introduces Express Route 770 Connecting Eastern and Southern Districts Brand New Aberdeen Tunnel BBI Opens with More Interchange Discounts Unveiled

(17 July 2026, Hong Kong) To coincide with the commissioning of the new Aberdeen Tunnel Bus-Bus Interchange (BBI), Citybus will launch a new express route, Route 770, on 26 July, seamlessly connecting the Eastern and Southern districts. Concurrently, Citybus is expanding our interchange network to cover Stanley, Chai Wan, and Siu Sai Wan by re-routing more routes to the new Aberdeen Tunnel BBI. Citybus aims to establish this BBI as a flagship transport hub for the Southern District. Passengers interchanging between any Citybus solely-operated routes will enjoy interchange concessions, with the discount for most routes equivalent to a free ride on one of the trips, allowing passengers to fully experience the convenience of travel.

New Express Route 770: Swift Connecting Across Hong Kong Island

Citybus continues to enhance our bus network with the introduction of the new all-day express Route 770. By leveraging the efficiency of the Aberdeen Tunnel and Island Eastern Corridor, the route provides fast and convenient connections between the Eastern and Southern districts. Route 770 serves a wide catchment area encompassing Tin Wan, Wah Kwai, Aberdeen, and Wong Chuk Hang, offering direct express services to North Point, Quarry Bay, Tai Koo, and Shau Kei Wan, before extending further into Siu Sai Wan and Chai Wan. Passengers boarding Route 770 at the Aberdeen Tunnel BBI can reach North Point in as little as 15 minutes, which is approximately 12 minutes faster than existing routes. This significantly facilitates two-way commuting for residents of both districts, living up our commitment to "Connecting Eastern and Southern with All-Day Express."

Route 770 provides daily, all-day service with a full fare of \$14.5. Departures from Chai Wan (East) Public Transport Interchange operate daily from 6:55 am to 10:55 pm. Departures from Tin Wan operate from 7:20 am to 11:10 pm on weekdays, and from 7:05 am to 11:10 pm on Saturdays, Sundays, and public holidays. During most hours, the route operates at a frequency of up to 20 minutes, delivering highly convenient travel options for commuters across Hong Kong Island.

Enhanced Experience at the New Aberdeen Tunnel Bus-Bus Interchange

Alongside the comprehensive hardware upgrades at the Aberdeen Tunnel BBI, Citybus is further expanding our bus interchange network in the Southern District. Effective 26 July, our Stanley routes, 6A, 6X, 65, and 260, will serve the interchange for the first time, offering Southern District residents exceptional connectivity to various parts of Hong Kong. We will provide interchange discounts across all 27 solely-operated routes serving the BBI. The concession amount for most routes is equivalent to a free ride on the lower-fare leg of the two journeys, enabling passengers to travel with ease at a more discounted fare and enhancing the efficiency of the overall transport network.

The revitalised Aberdeen Tunnel BBI features significantly upgrades, including real-time bus arrival displays and prominent route information boards at every platform. The BBI's design prioritises an inclusive bus lounge environment with clear boarding guidance, while tastefully incorporating visual elements that reflect the unique leisure and vibrancy of the Southern District. Furthermore, to enhance the overall customer experience, multiple beverages vending machines have been installed, ensuring passengers can enjoy a refreshing and comfortable environment before onboarding Citybus.

Major Routes at Aberdeen Tunnel Bus-Bus Interchange

Aberdeen Tunnel Bus-Bus Interchange (Northern-bound)		
Central & Western District, Wan Chai District	Sai Ying Pun, Sheung Wan	37A
