

PeakDual™27 Gaming Machine

Peak of excellence!

What's good for the player is good for the game! Created with the perfect blend of comfort, aesthetics, usability, and convenience in mind, the PeakDual™27 takes multi-screen gaming to the next level with its innovative monitor layout that features three 27" displays. With a balanced lighting package, large 13.3" Dynamic Player Panel, ergonomically-designed button deck, responsive bash button, and wireless charging, the PeakDual™27 delivers a more comfortable player experience.

Benefits and Features

• Displays

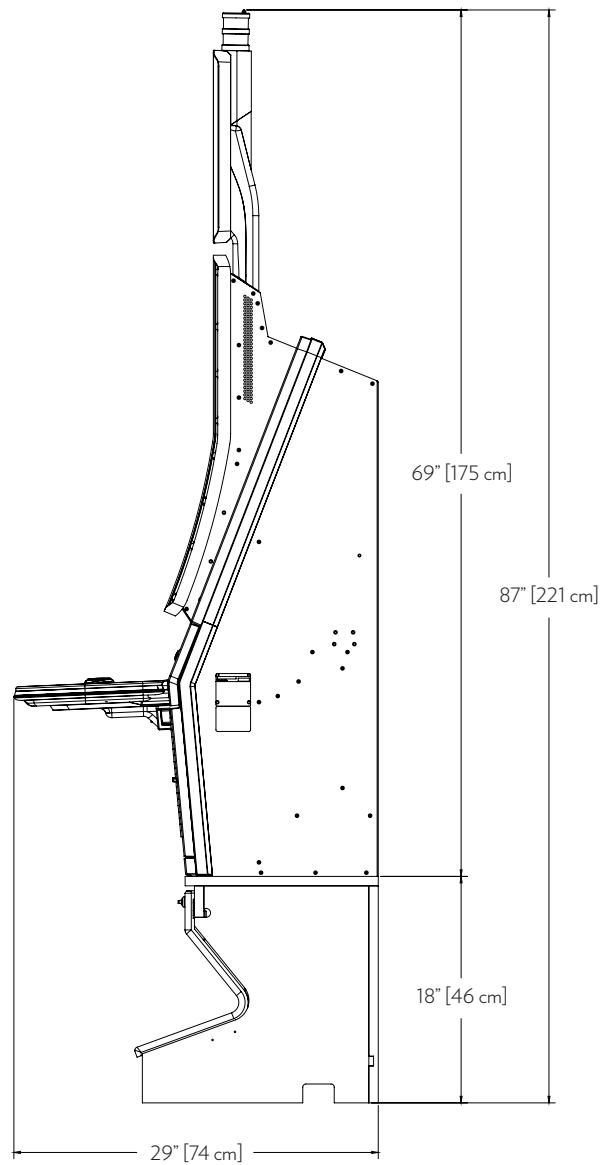

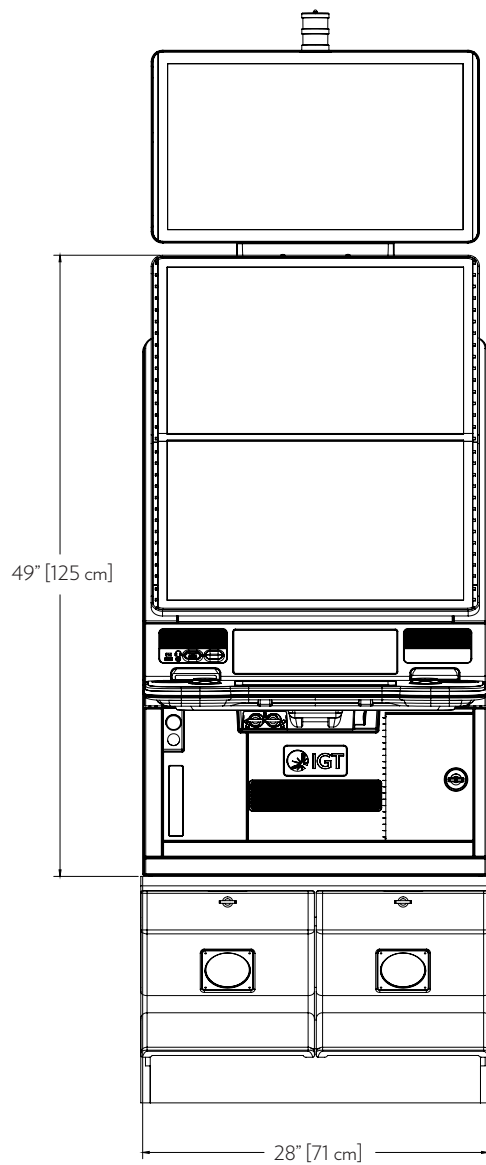

- A re-imagined play experience with screens perfectly optimized for the player
- Triple 27" high-definition LCD monitors
- Curved, unified dual screen experience
- Easy to read, user-friendly 13.3" Dynamic Player Panel (DPP) with wireless phone charger and USB port

• Sleek Modern Design

- A lower profile, featuring an open back concept, keeps a modern look and feel while providing better sightlines across the floor and maintaining traditional 28" stand compatibility
- 27" topper with reduced screen gap enhances the traditional dual screen experience to provide a multi-screen experience

• Complements IGT's Global Cabinet Offering

- The PeakDual™27 gaming machine is an essential addition to the Peak family of cabinets
- The Peak family has a gaming machine for every spot on the floor
